Marking Time:

Marking Time Rev. Barbara K. Lundblad, 2010-09-01 The preacher is too often caught between biblical and contemporary time Residing first in one then in the other the preacher must somehow find a way to bring the two times separate as they might seem together The temptation of course is to capitulate to one side or the other of this tension The preacher can reside solely in the biblical time offering the congregation what amounts to weekly lectures on history and archeology spiced up with the occasional moralistic conclusion Or setting up shop permanently in contemporary time she or he can offer commentaries on society and culture that occasionally tip their hats in the direction of Scripture A third way contends Barbara Lundblad lies in marking time a way of allowing biblical time to speak to the contemporary world and vice versa When the preacher marks time he or she admits that there can be no one to one correspondence between the world of the text and the world of the congregation Nevertheless the preacher demonstrates that when the biblical text is let loose upon our day to day existence it challenges and judges redeems and sanctifies it infusing it with new meaning Likewise contemporary situations needs and experiences open up new possibilities within Scripture allowing the congregation to see truth in the text they had never before discovered there allowing them to discern the leading of the Spirit through the text and into the present moment In this volume which grows out of Lundblad s 2000 Beecher Lectures delivered at Yale Divinity School the author presents both an argument for the ongoing intersection of the biblical and contemporary worlds and examples of how that intersection might take place

Marking Time Edward Town, Angela McShane, 2020-11-24 An engaging encyclopedic account of the material world of early modern Britain as told through a unique collection of dated objects The period from 1500 to 1800 in England was one of extraordinary social transformations many having to do with the way time itself was understood measured and recorded Through a focused

Marking Time Michael Korda, 2004 *Things in Nature Merely Grow* Yiyun Li, 2025-05-20 Yiyun Li's remarkable defiant work of radical acceptance as she considers the loss of her son James There is no good way to say this Yiyun Li writes at the beginning of this book There is no good way to state these facts which must be acknowledged My husband and I had two children and lost them both Vincent in 2017 at sixteen James in 2024 at nineteen Both chose suicide and both died not far from home There is no good way to say this because words fall short It takes only an instant for death to become fact a single point in a timeline Living now on this single point Li turns to thinking and reasoning and searching for words that might hold a place for James Li does what she can doing the things that work including not just writing but gardening reading Camus and Wittgenstein learning the piano and living thoughtfully alongside death This is a book for James but it is not a book about grieving or mourning As Li writes The verb that does not die is to be Vincent was and is and will always be Vincent James was and is and will always be James We were and are and will always be their parents There is no now and then now and later only now and now and now and now *Things in Nature Merely Grow* is a testament to Li's indomitable spirit *The Rise and Fall of Meter* Meredith Martin, 2012-05-06 Why do we often teach English poetic meter by the Greek terms iamb and trochee How is our understanding of English meter influenced by the history of England's sense of itself in the nineteenth century Not an old-fashioned approach to poetry but a dynamic contested and inherently nontraditional field English meter concerned issues of personal and national identity class education patriotism militarism and the development of English literature as a discipline *The Rise and Fall of Meter* tells the unknown story of English meter from the late eighteenth century until just after World War I Uncovering a vast and unexplored archive in the history of poetics Meredith Martin shows that the history of prosody is tied to the ways Victorian England argued about its national identity Gerard Manley Hopkins Coventry Patmore and Robert Bridges used meter to negotiate their relationship to England and the English language George Saintsbury Matthew Arnold and Henry Newbolt worried about the rise of one metrical model among multiple competitors The pressure to conform to a stable model however produced reactionary misunderstandings of English meter and the culture it stood for This unstable relationship to poetic form influenced the prose and poems of Robert Graves Siegfried Sassoon Wilfred Owen W B Yeats Ezra Pound and Alice Meynell A significant intervention in literary history this book argues that our contemporary understanding of the rise of modernist poetic form was crucially bound to narratives of English national culture **U.S. Forest Service Research Note NE. ,1963 Diachrony of differential argument marking** Ilja A. Seržant, Alena Witzlack-Makarevich, 2018 While there are languages that code a particular grammatical role e.g subject or direct object in one and the same way across the board many more languages code the same grammatical roles differentially The variables which condition the differential argument marking or DAM pertain to various properties of the NP

such as animacy or definiteness or to event semantics or various properties of the clause While the main line of current research on DAM is mainly synchronic the volume tackles the diachronic perspective The tenet is that the emergence and the development of differential marking systems provide a different kind of evidence for the understanding of the phenomenon The present volume consists of 18 chapters and primarily brings together diachronic case studies on particular languages or language groups including e g Finno Ugric Sino Tibetan and Japonic languages The volume also includes a position paper which provides an overview of the typology of different subtypes of DAM systems a chapter on computer simulation of the emergence of DAM and a chapter devoted to the cross linguistic effects of referential hierarchies on DAM **DA Pam** ,1971
