talented lower class man who is obsessed with the study of sciences and the secrets of life His excessive academic ambition and his reliance solely on logic and reason lead him to cogitate about the nature of the world and its existence and to question the utility of the doctrine of Divinity Unsatisfied with the knowledge that pure and experimental sciences can offer he eventually decides to explore the curious world of Black Magic

Christopher Marlowe's Doctor Faustus Christopher Marlowe, 1991 Marlowe's Doctor Faustus is one of the classics of English literature its imaginative boldness and vertiginous ironies have fascinated readers and playgoers alike but the fact that this play exists in two quite different early versions printed in 1604 and 1616 has posed formidable problems for textual scholars and critics How much of either version was written by Marlowe and which version is the more authentic Is the play orthodox or radically interrogative Although recent studies have shown that much of the 1616 text consists of revisions carried out a decade after Marlowe's death and that the 1604 version is closer to the play's original form most other editions are still based upon the 1616 text Michael Keefer's new 1604 version edition which takes account of recent developments in textual criticism and literary theory offers a better and aesthetically more satisfying text than those currently in use Keefer's introduction reconstructs the Renaissance ideological concepts that shaped and deformed Doctor Faustus and the text is accompanied by collations textual and explanatory notes and excerpts from sources
