

Marlowe's *Tamburlaine the Great* and the Tragedy of Karbala

Bushra Juhā Janī

Al-Nahrain University, Baghdad, Iraq

This essay analyses Christopher Marlowe's play *Tamburlaine the Great* and its intricate interweaving of historical events and cultural nuances. Focussing on the character of Tamburlaine, the essay explores themes of power, revenge, and divine justice within the context of the broader Shiite-Sunni conflict and the tragic history of Imam Al-Hussein. By examining Marlowe's incorporation of historical accounts and creative narrative techniques, the essay highlights how the play provides insights into the complexities of human ambition, political manoeuvring, and the consequences of wielding authority. Ultimately, *Tamburlaine the Great* is shown to be a timeless exploration of the interplay between history, religion, and individual agency, inviting readers to reflect on the enduring relevance of its themes in both historical and contemporary contexts.

Keywords: *Tamburlaine the Great*, the tragedy of Karbala, revenge, Marlowe, Shiite-Sunni conflict

Introduction

The English playwright Christopher Marlowe presented the character of Tamburlaine—Timur lang or Temur the lame—as a Scythian shepherd who views himself as the scourge of God. Most scholars have conceded that Marlowe has depicted a character that “bore a great deal of resemblance to Timur himself” (Miller, 2006, p. 255).

In Marlowe's play, *Tamburlaine the Great*, Tamburlaine refers to himself as the “scourge of God” multiple times as a way to assert his power and portray himself as a divine instrument of punishment. This self-proclamation aligns with Tamburlaine's ambitious and megalomaniacal nature. By calling himself the “scourge of God”, Tamburlaine presents himself as a force chosen by God to bring about divine retribution and punish those who oppose him.

Tamburlaine's repeated use of this title reflects his desire for conquest and dominance over others. He sees himself as a supreme ruler and believes that his military victories are a result of his divine mandate. By presenting himself as an instrument of divine justice, Tamburlaine justifies his actions and asserts his authority over nations and peoples he subjugates.

According to Arabic historical books, the 14th-century conqueror of Turco-Mongol descent Timur was Shiite—a member of a branch of Islam who believes that Imam Ali ibn Abi Talib (the cousin and the husband of Prophet Mohammad's daughter Fatima) and his descendants are the true successors of the Prophet.

To be Shiite is also to be a follower of a top Shiite saint and the grandson of the prophet Muhammad, Imam Al-Hussein, the son of Imam Ali by Fatima. Imam Al-Hussein was killed in a battle that took place in the year 680 in Karbala, which is in modern day Iraq. Shiites everywhere wear black mourning clothes, weep and beat their chests on the anniversary of the battle. The mourning reaches its climax on the 10th day of the Islamic

Theatre and Humanism Kent Cartwright, 1999-09-09 English drama at the beginning of the sixteenth century was allegorical didactic and moralistic but by the end of the century theatre was censured as emotional and even immoral How could such a change occur Kent Cartwright suggests that some theories of early Renaissance theatre particularly the theory that Elizabethan plays are best seen in the tradition of morality drama need to be reconsidered He proposes instead that humanist drama of the sixteenth century is theatrically exciting rather than literary elitist and dull as it has often been seen and socially significant and he attempts to integrate popular and humanist values rather than setting them against each other Taking as examples the plays of Marlowe Heywood Lyly and Greene as well as many by lesser known dramatists the book demonstrates the contribution of humanist drama to the theatrical vitality of the sixteenth century

Eric Voegelin and the Foundations of Modern Political Science Barry Cooper, Eric Voegelin, 1999 Annotation This important new work is a major analysis of the foundation of Eric Voegelin's political science Barry Cooper maintains that the writings Voegelin undertook in the 1940s provide the groundwork for the brilliant book that is one of his

best known *The New Science of Politics* At the time of that book's publication however few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating although sometimes baffling formulations By focusing on several of the key chapters in Voegelin's eight volume *History of Political Ideas* especially the studies of Bodin Vico and Schelling Cooper shows how those studies provide the basis for Voegelin's thought Investigating Voegelin's study of Oriental influences on Western political ideas especially Mongol constitutional law and his study of Toynbee Cooper seeks to demonstrate the vast range of materials Voegelin used Cooper contends that as with other great thinkers political crisis specifically the world war of 1939 1945 stimulated Voegelin's intellectual and spiritual achievement He provides an analysis of Voegelin's immediate concern with the course of World War II his ability to understand those dramatic events in a large context and his ability to provide an insightful account of the causes the significance and the consequences of the spiritual and political disorder that was evident all around him In *Eric Voegelin and the Foundations of Modern Political Science* Cooper makes the connection between Voegelin's political writings of the 1940s and the meditative interpretations that began to appear with the publication of *Anamnesis* and with the later volumes of *Order and History* much more intelligible than does any existing discussion of Voegelin Scholars in intellectual history and political science will benefit enormously from this valuable new addition to Voegelin studies

Marlowe, Shakespeare, and the Economy of Theatrical Experience Thomas Cartelli, 2015-08-12 This study explores the structure of psychological social and political exchanges that were negotiated between audiences and plays in Elizabethan public theatres in a period ostensibly dominated by Shakespeare but strongly rooted in Marlowe

Selfhood on the Early Modern English Stage Pauline Blanc, 2009-10-02 The twelve essays in *Selfhood on the Early Modern English Stage* analyse the influences that shaped the fictional constructs that inhabited the drama of the early modern period The contributors all specialists in the field working in France and England offer a wide spectrum of views and discuss a variety of dramatic texts ranging from late medieval cycle plays and interludes of the Tudor period to plays by Marlowe Shakespeare Tourneur and Jonson The early modern stage self emerges out of this collection as the site of a rich confluence of discursive and historical forces existing beyond the theatre itself Three essays in the first section reveal how abstract figures like Mundus and Mankind gradually became endowed with personal motives and personalizing traits which brought into existence stage beings with a capacity for emotion In the second section three essays deal with specific cultural factors that influenced the representation of selfhood in John Lyly's *Alexander* in Marlowe's *Tamburlaine* and in a selection of Stuart court masques presented at Whitehall The third section offers new insights into the composition of *Hamlet* as a dramatized personality the fourth investigates the way in which the poet playwright's autobiographical impulses may have helped in the construction of early modern stage selves the final fifth section explores the kaleidoscopic sources of the royal protagonists in Rowley's *When You See Me You Know Me* and Shakespeare's *Richard III* This collection of essays seeks to add a further contribution to the growing body of criticism that investigates the multi

faceted multi layered construction of early modern subjectivity *Travel and Translation in the Early Modern Period* Carmine Di Biase, 2006 The relationship between travel and translation might seem obvious at first but to study it in earnest is to discover that it is at once intriguing and elusive Of course travelers translate in order to make sense of their new surroundings sometimes they must translate in order to put food on the table The relationship between these two human compulsions however goes much deeper than this What gets translated it seems is not merely the written or the spoken word but the very identity of the traveler These seventeen essays which treat not only such well known figures as Martin Luther Erasmus Shakespeare and Milton but also such lesser known figures as Konrad Grunenberg Leo Africanus and Garcilaso de la Vega constitute the first survey of how this relationship manifests itself in the early modern period **Marlowe and the Popular Tradition** Ruth Lunney, 2002 Lunney explores Marlowe's engagement with the traditions of the popular stage in the 1580s and early 1590s and offers a new approach to his major plays in terms of staging and audience response as well as providing a new account of English drama in these important but largely neglected years **The Cambridge Companion to Christopher Marlowe** Patrick Cheney, 2004-07-15 The Cambridge Companion to Christopher Marlowe provides a full introduction to one of the great pioneers of both the Elizabethan stage and modern English poetry It recalls that Marlowe was an inventor of the English history play Edward II and of Ovidian narrative verse Hero and Leander as well as being author of such masterpieces of tragedy and lyric as Doctor Faustus and The Passionate Shepherd to His Love Sixteen leading scholars provide accessible and authoritative chapters on Marlowe's life texts style politics religion and classicism The volume also considers his literary and patronage relationships and his representations of sexuality and gender and of geography and identity his presence in modern film and theatre and finally his influence on subsequent writers The Companion includes a chronology of Marlowe's life a note on reference works and a reading list for each chapter

Tragedy and Trauma in the Plays of Christopher Marlowe Mathew R. Martin, 2016-03-09 Contending that criticism of Marlowe's plays has been limited by humanist conceptions of tragedy this book engages with trauma theory especially psychoanalytic trauma theory to offer a fresh critical perspective within which to make sense of the tension in Marlowe's plays between the tragic and the traumatic The author argues that tragedies are trauma narratives narratives of wounding however in Marlowe's plays a traumatic aesthetics disrupts the closure that tragedy seeks to enact Martin's fresh reading of Massacre at Paris which is often dismissed by critics as a bad tragedy presents the play as deliberately breaking the conventions of the tragic genre in order to enact a traumatic aesthetics that pulls its audience into one of the early modern period's most notorious collective traumatic events the massacre of French Huguenots in Paris in 1572 The chapters on Marlowe's six other plays similarly argue that throughout Marlowe's drama tragedy is held in tension with and disrupted by the aesthetics of trauma **Christopher Marlowe the Craftsman** M.L. Stapleton, 2016-05-23 Contributions to this volume explore the idea of Marlowe as a working artist in keeping with John Addington Symonds' characterization of him as a

sculptor poet Throughout the body of his work including not only the poems and plays but also his forays into translation and imitation a distinguished company of established and emerging literary scholars traces how Marlowe conceives an idea shapes and refines it then remakes and remodels it only to refashion it further in his writing process These essays necessarily overlap with one another in the categories of lives stage and page which signals their interdependent nature regarding questions of authorship theater and performance history as well as interpretive issues within the works themselves The contributors interpret and analyze the disputed facts of Marlowe's life the textual difficulties that emerge from the staging of his plays the critical investigations arising from analyses of individual works and their relationship to those of his contemporaries The collection engages in new ways the controversies and complexities of its subject's life and art It reflects the flourishing state of Marlowe studies as it shapes the twenty first century conception of the poet and playwright as master craftsman
