**Maroc, le prochain dragon?** Serge Leymarie, Jean Tripier, 1993-01-01 *Regionalization and Globalization in the Modern World Economy* Alex E. Fernandez Jilberto, Andre Mommen, 2002-01-22 This collection explores the importance of regionalization and globalization to the world economy particularly questioning whether the world economy is characterized by increasing regionalization rather than globalization International contributors explore the processes in the Pacific area the Americas Africa and Europe and make an important contribution to current debates in development economics A *Comparative Political Economy of Tunisia and Morocco* Gregory White, 2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco's post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union On the other hand such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security Countries on the periphery are therefore faced with two distinct questions first how does a middle income state balance its conflicting roles and manage its relations with a regional power and second how does the relationship with the outside world affect key domestic actors Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade Historical Dictionary of Morocco Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco *Morocco Since 1830* C.R. Pennell, 2000 Although the country has returned to roughly its pre colonial boundaries

Morocco still suffers from the effects of colonization by France and Spain Its current king like the sultans of the nineteenth century claims legitimacy through his leadership of the Islamic community but there is a long tradition of dissent based on Islamic ideals Morocco s history is also marked by the enduring presence of a large Jewish community *Joint Acquisitions List of Africana* ,1995 *Index Islamicus* ,1994 A bibliography of books and index of articles in periodicals on Islam and the Muslim world Also includes reviews **Historical Dictionary of Morocco** Thomas K. Park,Aomar Boum,2006-01-16 The Kingdom of Morocco achieved its independence in 1956 after over 40 years as a French protectorate Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the U S Morocco of the past and present are covered in this second edition of the Historical Dictionary of Morocco A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events Hundreds of cross referenced dictionary entries on former rulers current leaders ancient capitals significant locations influential institutions and crucial aspects of the economy society culture and religion form the core of the book A bibliography of sources is included to promote further more specialized study *The Maghreb Review* ,1993 **The Government And Politics Of The Middle East And North Africa** David E. Long,Bernard Reich,1995-08-03 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists *Damoclès* ,1993 **Revue tiers-monde** ,1993 **Livres hebdo** ,1993 **Suds et îles de Méditerranée** François de Casabianca,DYNMED (Group),1998 *Cahiers d'études africaines* ,1993 **Notes d'information et statistiques** ,1997-03 **Bibliographie nationale française** ,1993 **Agrindex** ,1994 *Les Livres disponibles* ,2003 La liste exhaustive des ouvrages disponibles publi s en langue fran aise dans le monde La liste des diteurs et la liste des collections de langue fran aise *Livres de*
