Marriage Debt And The Estates System English Landownership 1650 195:

Professors of the Law David Lemmings, 2000-05-11 What happened to the culture of common law and English barristers in the long eighteenth century In this wide ranging sequel to *Gentlemen and Barristers The Inns of Court and the English Bar 1680 1730* David Lemmings not only anatomizes the barristers and their world he also explores the popular reputation and self image of the law and lawyers in the context of declining popular participation in litigation increased parliamentary legislation and the growth of the imperial state He shows how the bar survived and prospered in a century of low recruitment and declining work but failed to fulfil the expectations of an age of Enlightenment and Reform By contrast with the important role played by the common law and lawyers in seventeenth century England and in colonial America it appears that the culture and services of the barristers became marginalized as the courts concentrated on elite clients and parliament became the primary point of contact between government and population In his conclusion the author suggests that the failure of the bar and the judiciary to follow Blackstones mid century recommendations for reforming legal culture and delivering the Englishmans birthrights significantly assisted the growth of parliamentary absolutism in government

Marriage, Debt, and the Estates System H. J. Habakkuk, 1994 This major study by a leading British historian examines the social and legal foundations of the British ruling class the great landlords and the gentry from the late seventeenth century when it freed itself from many of the constraints of royal power to the twentieth century when it was subsumed by mass democracy Habakkuk s comprehensive book addresses the question of why in the first industrial nation the landed elite so long retained its role This thorough examination of the structure of the landed family its estate and its relations with other social groups sheds light on this problem and makes a major contribution to historical debate It will be of interest to scholars and students of early modern and modern British history especially social economic legal and family historians

Men, Women and Property in England, 1780-1870 R. J. Morris, 2005-02-03 This is an innovative study of middle class behaviour and property relations in English towns in Georgian and Victorian Britain Through the lens of wills family papers property deeds account books and letters the author offers a reading of the ways in which middle class families survived and surmounted the economic difficulties of early industrial society He argues that these were essentially networked families created and affirmed by a gift network of material goods finance services and support with property very much at the centre of middle class survival strategies His approach combines microhistorical studies of individual families with a broader analysis of the national and even international networks within which these families operated The result is a significant contribution to the history and to debates about the place of structural and cultural analysis in historical understanding

The Wealth of a Nation Geoffrey M. Hodgson, 2025-11-18 How the development of legal and financial institutions transformed Britain into the world s first capitalist country Modern capitalism emerged in England in the eighteenth century and ushered in the Industrial Revolution though scholars have long debated why Some attribute the causes to technological change while others point to

the Protestant ethic liberal ideas and cultural change The Wealth of a Nation reveals the crucial developments in legal and financial institutions in the seventeenth and eighteenth centuries that help to explain this dramatic transformation Offering new perspectives on the early history of capitalism Geoffrey Hodgson describes how for the emerging British economy pressures from without were as important as evolution from within He shows how intensive military conflicts overseas forced the state to undertake major financial administrative legal and political reforms The resulting institutional changes not only bolstered the British war machine they fostered the Industrial Revolution Hodgson traces how Britain's war capitalism led to an expansion of its empire and a staggering increase in the slave trade and how the institutional innovations that radically transformed the British economy were copied and adapted by countries around the world A landmark work of scholarship The Wealth of a Nation sheds light on how external factors such as war gave rise to institutional arrangements that facilitated finance banking and investment and offers a conceptual framework for further research into the origins and consolidation of capitalism in England

Marriage, Debt, and the Estates System John Habakkuk, 1994

Women and Their Money 1700-1950 Anne Laurence, Josephine Maltby, Janette Rutterford, 2008-11-20 This book the first of its kind will be of interest across several disciplines including economics economic history business history British history and women gender history The fact that the essays reach beyond Britain and include work on Germany Australia Italy Canada Sweden and the West Indies will stimulate interest throughout and even beyond the English speaking world There is a growing interest in the study of women's economic activity which reflects the recognition that economics and economic business history are not gender neutral subjects

The East India Company at Home, 1757-1857 Margot Finn, Kate Smith, 2018-02-15

The East India Company at Home 1757 1857 explores how empire in Asia shaped British country houses their interiors and the lives of their residents It includes chapters from researchers based in a wide range of settings such as archives and libraries museums heritage organisations the community of family historians and universities It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain The volume focuses on the propertied families of the East India Company at the height of Company rule From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857 objects people and wealth flowed to Britain from Asia As men in Company service increasingly shifted their activities from trade to military expansion and political administration a new population of civil servants army officers surveyors and surgeons journeyed to India to make their fortunes These Company men and their families acquired wealth tastes and identities in India which travelled home with them to Britain Their stories the biographies of their Indian possessions and the narratives of the stately homes in Britain that came to house them frame our explorations of imperial culture and its British legacies

Monarchy Transformed Robert von Friedeburg, John Morrill, 2017-08-17 Until the 1960s it was widely assumed that in Western Europe the New Monarchy propelled kingdoms and principalities onto a modern nation state trajectory John I of Portugal 1358 1433 Charles VII 1403 1461 and Louis XI 1423 1483 of France Henry VII and Henry VIII of England 1457 1509 1509 1553 Isabella of Castile 1474 1504 and Ferdinand of Aragon 1479 1516 were by improving royal administration by bringing more continuity to communication with their estates and by introducing more regular taxation all seen to have served that goal In this view princes were assigned to the role of developing and implementing the sinews of state as a sovereign entity characterized by the coherence of its territorial borders and its central administration and government They shed medieval traditions of counsel and instead enforced relations of obedience toward the emerging state Provided by publisher

The Matrimonial Trap Laura E. Thomason, 2013-12-05 Mary Delany's phrase the matrimonial trap illuminates the apprehension with which genteel women of the eighteenth century viewed marriage These women were generally required to marry in order to secure their futures yet hindered from freely choosing a husband They faced marriage anxiously because they lacked the power either to avoid it or to define it for themselves For some women the written word became a means by which to exercise the power that they otherwise lacked Through their writing they made the inevitable acceptable while registering their dissatisfaction with their circumstances Rhetoric exercised both in public and in private allowed these women to define their identities as individuals and as wives to lay out and test the boundaries of more egalitarian spousal relationships and to criticize the traditional marriage system as their culture had defined it

The Town House in Georgian London Rachel Stewart, 2009 This title takes a fresh look at a familiar building type the town house in 18th century London and investigates the circumstances in which individuals made decisions about living in London and particularly about their West End house

Transactions of Minors in English and German Law Carlo Brunold, 2024-07-29 Carlo Brunold's comparative legal analysis of the limitations placed on minors ability to enter into and execute transactions in English and German law distinguishes between the laws of contract property and restitution of unjust enrichment to reveal the strengths and weaknesses of the two jurisdictions strongly differing approaches Whereas under English law minors can in general enter into contracts and perform their duties despite the fact that these contractual duties cannot be enforced against them German law shifts the control over minors transactions almost entirely to their parents who can also enter into and execute transactions on behalf of their children The latter concept is alien to English law even though parents in both jurisdictions are subject to fiduciary duties with regard to their children's assets

Landmark Cases in Equity Charles Mitchell, Paul Mitchell, 2012-07-06 Landmark Cases in Equity continues the series of essay collections which began with Landmark Cases in the Law of Restitution 2006 and continued with Landmark Cases in the Law of Contract 2008 and Landmark Cases in the Law of Tort 2010 It contains essays on

landmark cases in the development of equitable doctrine running from the seventeenth century to recent times The range breadth and social importance of equitable principles as these affect commercial domestic and even political matters are well known By focusing on the historical development of these principles the essays in this collection help us to understand them more clearly and also provide insights into the processes of legal change through judicial innovation Themes addressed in the essays include the nature of the courts equitable jurisdiction the development of property rights in equity constraints on the powers of settlors to create express trusts the duties of trustees and other fiduciaries remedies for breach of these duties and the evolution of constructive and resulting trusts

Making Ireland English Jane Ohlmeyer, 2012-06-26 This groundbreaking book provides the first comprehensive study of the remaking of Ireland's aristocracy during the seventeenth century It is a study of the Irish peerage and its role in the establishment of English control over Ireland Jane Ohlmeyer's research in the archives of the era yields a major new understanding of early Irish and British elite and it offers fresh perspectives on the experiences of the Irish English and Scottish lords in wider British and continental contexts The book examines the resident peerage as an aggregate of 91 families not simply 311 individuals and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy Tracking the impact of colonization civil war and other significant factors on the fortunes of the peerage in Ireland Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite making Ireland English
