Marriage, Divorce, Remarriage Andrew J. Cherlin, 1992-09-28 With roller coaster changes in marriage and divorce rates apparently leveling off in the 1980s Andrew Cherlin feels that the time is right for an overall assessment of marital trends His graceful and informal book surveys and explains the latest research on marriage divorce and remarriage since World War II Cherlin presents the facts about family change over the past thirty five years and examines the reasons for the trends that emerge He views the 1950s when Americans were marrying and having children early and divorcing infrequently as the aberration and he discusses why this period was unusual He also explores the causes and consequences of the dramatic changes since 1960 increases in divorce remarriage and cohabitation decreases in fertility that are altering the very definition of the family in our society He concludes with a discussion of the increasing differences in the marital patterns of black and white families over the past few decades

People Po Bronson takes us on an extraordinary journey It begins on a river in Texas where a mother gets trapped underwater and has to bargain for her own life and that of her kids Then a father and his daughter return to their tiny rice growing village in China hoping to rekindle their love for each other inside the walls of his childhood home Next a son puts forth a riddle asking us to understand what his first experience of God has to do with his Mexican American mother Every step and every family on this journey is real Calling upon his gift for powerful nonfiction narrative and philosophical insight Bronson explores the incredibly complicated feelings that we have for our families Each chapter introduces us to two people a father and his son a daughter and her mother a wife and her husband and we come to know them as intimately as characters in a novel following the story of their relationship as they struggle resiliently through the kinds of hardships all families endure Some of the people manage to save their relationship while others find a better life only after letting the relationship go From their efforts the wisdom in this book emerges We are left feeling emotionally raw but grounded and better prepared to love through both hard times and good time In these twenty mesmerizing stories we discover what is essential and elemental to all families and in doing so slowly abolish the fantasies and fictions we have about those we fight to stay connected to In *Why Do I Love These People* Bronson shows us that we are united by our yearnings and aspirations Family is not our dividing line but our common ground

**Diversity and Disparities** John Logan,2014-11-01 The United States is more diverse than ever before Increased immigration has added to a vibrant cultural fabric and women and minorities have made significant strides in overcoming overt discrimination At the same time economic inequality has increased significantly in recent decades and the Great Recession substantially weakened the economic standing not only of the poor but also of the middle class Diversity and

Disparities edited by sociologist John Logan assembles impressive new studies that interpret the social and economic changes in the United States over the last decade. The authors, leading social scientists from many disciplines, analyze changes in the labor market, family structure, immigration, and race. They find that while America has grown more diverse, the opportunities available to disadvantaged groups have become more unequal. Drawing on detailed data from the decennial census, the American Community Survey, and other sources, the authors chart the growing diversity and the deepening disparities among different groups in the United States. Harry J. Holzer and Marek Hlavac document that although the economy always rises and falls over the business cycle, the Great Recession of 2007-2009 was a catastrophic event that saw record levels of unemployment, especially among less educated workers, young people, and minorities. Emily Rosenbaum shows how the Great Recession amplified disparities in access to home ownership and demonstrates that young adults, especially African Americans, are falling behind previous cohorts, not only in home ownership and wealth but even in starting their own families and households. Sean F. Reardon and Kendra Bischoff explore the rise of class segregation as higher income Americans are moving away from others into separate and privileged neighborhoods and communities. Immigration has also seen class polarization, with an increase in both highly skilled workers and undocumented immigrants. As Frank D. Bean and his colleagues show, the lack of a path to legal status for undocumented immigrants inhibits the educational and economic opportunities for their children and grandchildren. Barrett Lee and colleagues demonstrate that the nation and most cities and towns are becoming more diverse by race and ethnicity. However, while black-white segregation is slowly falling, Hispanics and Asians remain as segregated today as they were in 1980. *Diversity and Disparities* raises concerns about the extent of socioeconomic immobility in the United States today. This volume provides valuable information for policymakers, journalists, and researchers seeking to understand the current state of the nation. **On the Make** David

Grazian, 2008-09-15 David Grazian's riveting tour of downtown Philadelphia and its newly bustling nightlife scene reveals the city as an urban playground where everyone dabbles in games of chance and perpetrates elaborate cons. Entertainment in the city has evolved into a professional industry replete with set designers, stage directors, and method actors whose dazzling illusions tempt even the shrewdest of customers. As entertaining and illuminating as the confessional stories it recounts, *On the Make* is a fascinating exposé of the smoke and mirrors employed in the city at night. Communicating the Catholic Vision of Life Russell Edward Smith, 1993 Twelfth Workshop for Bishops held from February 1-4, 1993. Preface includes bibliographical references. *The SAGE Handbook of Sociology* Craig Calhoun, Chris Rojek, Bryan S. Turner, 2005. Providing an authoritative guide to theory and method, the key sub-disciplines, and the primary debates in contemporary sociology, this work brings together the leading authors to reflect on the condition of the discipline.
