## **Marriage In The Long Run:**

**The Starter Marriage and the Future of Matrimony** Pamela Paul, 2003-01-14 A pioneering look at first marriages lasting five years or less and ending without children Paul's book will be a lesson to those contemplating marriage and a comfort to those who falter The Economist What is it about marriage that makes today's twenty and thirtysomethings want it so badly And why do so many of their marriages despite high hopes and desires end in divorce Nobody goes into a starter marriage expecting to divorce and trade up to something better but like a starter home a starter marriage can teach you a lot about what to look for and what to avoid the next time around Drawing on extensive research and interviews with starter marriage vets Pamela Paul explores why young people are jumping in and out of marriage and what lessons can be drawn from their failures She shows how starter marriages can be avoided and why lifelong marriage is still a desirable achievable option for the next marrying generation

**The Future of the Family** Daniel Patrick Moynihan, Timothy Smeeding, Lee Rainwater, 2004-10-06 High rates of divorce single parenthood and nonmarital cohabitation are forcing Americans to reexamine their definition of family This evolving social reality requires public policy to evolve as well The Future of the Family brings together the top scholars of family policy headlined by editors Lee Rainwater Tim Smeeding and in his last published work the late Senator Daniel Patrick Moynihan to take stock of the state of the family in the United

States today and address the ways in which public policy affects the family and vice versa The volume opens with an assessment of new forms of family discussing how reduced family income and lower parental involvement can disadvantage children who grow up outside of two parent households The book then presents three vastly dissimilar recommendations each representing a different segment of the political spectrum for how family policy should adapt to these changes Child psychologist Wade Horn argues the case of political conservatives that healthy two parent families are the best way to raise children and therefore should be actively promoted by government initiatives Conversely economist Nancy Folbre argues that government's role lies not in prescribing family arrangements but rather in recognizing and fostering the importance of caregivers within all families conventional or otherwise Will Marshall and Isabel Sawhill borrow policy prescriptions from the left and the right arguing for more initiatives that demand personal responsibility from parents as well as for an increase in workplace flexibility and the establishment of universal preschool programs The book follows with commentary by leading policy analysts Samuel Preston Frank Furstenberg Jr and Irwin Garfinkel on the merits of the conservative and liberal arguments Each suggests that marriage promotion alone is not enough to ensure a happy healthy and prosperous future for American children who are caught up in the vortex of family change They agree that government investments in children however can promote superior developmental outcomes and even potentially encourage traditional families by enlarging the pool of marriageable individuals for the next generation No government action can reverse trends in family formation or return America to the historic nuclear family model But understanding social change is an essential step in fashioning effective policy for today's families With authoritative insight *The Future of the Family* broadens and updates our knowledge of how public policy and demography shape one another

Challenging Norms Heidi Hein-Kircher, Elisa-Maria Hiemer, Denisa Nešťáková, 2025-06-01 Access to reproductive healthcare including abortions and family planning services remains a deeply polarizing issue within contemporary Eastern Europe Originally a question reserved for couples this topic has since been elevated to the public realm through the emergence of modern nation states *Challenging Norms* offers a geographically wide ranging re examination of family planning in twentieth century Eastern Europe interrogating the relationship between social attitudes to family planning and the forces of social economic and political modernization In doing so this volume highlights how these changes provide invaluable insights into ever evolving societal norms and values

*The Future of Christian Marriage* Mark Regnerus, 2020-08-01 Marriage has come a long way since biblical times Women are no longer property and practices like polygamy have long been rejected The world is wealthier healthier and more able to find and form relationships than ever So why are Christian congregations doing more burying than marrying today Explanations for the recession in marriage range from the mathematical more women in church than men to the economic and from the availability of sex to progressive politics But perhaps marriage hasn't really changed at all Instead there is simply less interest in marriage in an era marked by technology gender equality and secularization Mark Regnerus explores

how today's Christians find a mate within a faith that esteems marriage but in a world that increasingly yawns at it This book draws on in depth interviews with nearly two hundred young adult Christians from the United States Mexico Spain Poland Russia Lebanon and Nigeria in order to understand the state of matrimony in global Christian circles today Regnerus finds that marriage has become less of a foundation for a couple to build upon and more of a capstone Meeting increasingly high expectations of marriage is difficult though in a free market whose logic reaches deep into the home today The result is endemic uncertainty slowing relationship maturation and stalling marriage But plenty of Christians innovate resist and wed and this book argues that the future of marriage will be a religious one      **Long Term** Scott Herring, Lee

Wallace, 2021-07-06 The contributors to Long Term use the tension between the popular embrace and legalization of same sex marriage and the queer critique of homonormativity as an opportunity to examine the myriad forms of queer commitments and their durational aspect They consider commitment in all its guises particularly relationships beyond and aside from monogamous partnering These include chosen and involuntary long term commitments to families friends pets and coworkers to the care of others and care of self and to financial psychiatric and carceral institutions Whether considering the enduring challenges of chronic illnesses and disability including HIV and chronic fatigue syndrome theorizing the queer family as a scene of racialized commitment or relating the grief and loss that comes with caring for pets the contributors demonstrate that attending to the long term offers a fuller understanding of queer engagements with intimacy mortality change dependence and care Contributors Lisa Adkins Maryanne Dever Carla Freccero Elizabeth Freeman Scott Herring Annamarie Jagose Amy Jamgochian E Patrick Johnson Jaya Keaney Heather Love Sally R Munt Kane Race Amy Villarejo Lee Wallace      Ourselves and Our Posterity Bradley C. S. Watson, 2009-06-16 Arguments over constitutional interpretation

increasingly highlight the full range of political moral and cultural fault lines in American society Yet all the contending parties claim fealty to the Constitution This volume brings together some of America's leading scholars of constitutional originalism to reflect on the nature and significance of various approaches to constitutional interpretation and controversies Throughout the book the contributors highlight the moral and political dimensions of constitutional interpretation In doing so they bring constitutional interpretation and its attendant disputes down from the clouds showing their relationship to the concerns of the citizen In addition to matters of interpretation the book deals with the proper role of the judiciary in a free society the relationship of law to politics and the relationship of constitutional originalism to the deepest concerns of political thought and philosophy      **The Romantic Lives of Emerging Adults** Varda Konstam, 2019-01-21 The romantic lives of

emerging adults are often baffling and contradictory While they prize committed and authentic relationships they appear to be reluctant participants They prefer to foster ambiguity in their romantic relationships even as they value honesty and clarity There is at once a valuing of long term as well as a decentering of romantic relationships Although our current understanding is incomplete this text grapples with these perplexing questions In attempting to understand emerging adults

and their romantic lives researchers must consider the challenging economic conditions in which today's emerging adults find themselves. With an emphasis on commitment and sacrifice and their centrality to one's readiness for a long-term relationship, this book reviews the main milestones in transitioning from an I identity to a we identity and discusses the concepts of choice and risk. Further, the book examines structures such as asymmetrically committed relationships, cohabitation and marriage through the lens of commitment risk and risk avoidance. Probing extensively into the romantic lives of emerging adults, their attitudes, values, and expectations, this text examines some of the developmental and contextual realities against which romantic attachment must be viewed. Critical topics such as casual and sexual experiences and relationships, integration of work and love, breakups, marriage, going solo, and social media and its influences are considered. The commonality and the individuality of the emerging adults presented throughout this text contribute to a rich understanding of emerging adults and how they live and love. **As the Sweet Honey Runs** Elizabeth A. Philips, 2013-09-27

An inspirational self-healing book that is spiritually led by a connection to God. Stricken with three major illnesses in a short time, Elizabeth finds herself through storms in life. She struggles to survive as she moves forward in her journey of life. Elizabeth is retired from public school teaching. She enjoys being surrounded by her family, motivating others, and writing. She is the third of four daughters raised in a middle-class family. Her upbringing was of Christian values and beliefs. Elizabeth lives in the Southeastern region of the United States. She is divorced and has no children. *As the Sweet Honey Runs* is a new spiritual connection to God. It is self-healing and a transformation. When one woman is faced with three illnesses in a short time, her life is changed. It will enlighten readers as they discover themselves in similar circumstances or events in life. Topics include *Living in Fear*, *It's All in Your Mind*, *Deep Waters*, *Living on the Edge*, *Storms in Life*, *The Journey of Life*. Stricken with three major illnesses over a short period of time, I have struggled to survive these last few years. This has led me to a new spiritual connection with God. I live in the Southeast and love being surrounded by my family, motivating others, and writing.

**The Long Run** Catriona Menzies-Pike, 2016-03-01 No one ever expected Catriona Menzies-Pike to run a marathon. She hated running and was a hopeless athlete. When she was twenty, her parents died suddenly, and for a decade she was stuck. She started running on a whim, and finally her grief started to move too. Until very recently, it was frowned upon for women to run long distances. Running was deemed unladylike and probably dangerous. How did women's running go from being suspect to wildly popular? How does a high school klutz become a marathon runner? This fascinating book combines memoir and cultural history to explore the rich and contradictory topic of women and running. *Demographic Change and Long-Run Development* Matteo Cervellati, Uwe Sunde, 2017-10-20 Recent approaches to economic demography investigate the effect of the transition to low mortality and low fertility on economic development. Over the last two hundred years, mortality and fertility levels in the Western world have dropped to unprecedented levels. This demographic transition was accompanied by an economic transition that led to widespread education and economic growth after centuries of near stagnation. At the same

time other changes have occurred in family structures culture and the organization of society Economists have only recently begun to take into account the demographic transition from high mortality and high fertility when modeling and researching economic development This CESifo volume reviews recent approaches to economic demography considering such topics as the bio geographic origins of comparative development differences the role of health improvements and mortality decline as well as physiological familial cultural and social aspects After an overview of the study of demography and economic demography the chapters cover subjects including the Neolithic era and the period of the formation of states and social institutions longevity and economic growth household decision making and fertility land inequality education and marriage in nineteenth century Prussia and caste systems and technology in pre modern societies The book concludes with a call for further investigation of the institutional and social factors that influence demographics and economies suggesting that unified growth theory offers a potential approach to studying development Contributors Matteo Cervellati Francesco Cinnirella David de la Croix Carl Johann Dalgaard Matthias Doepke Elena Esposito Davide Fiaschi Tamara Fioroni Oded Galor Boris Gershman Erik Hornung Fabian Kindermann Nils Petter Lagerlöf Holger Strulik Uwe Sunde David N Weil
