Allen, 2017-07-26 Written in a conversational style yet empirically grounded, this book reviews what we know about the science of happiness. It is the first text to closely examine the social psychological processes as well as individualistic approaches that affect happiness. It explores how our social, cultural, and economic environment, the personal choices we make, and our evolutionary heritage shape our happiness. Topics that are inherently interesting to students, such as how income and unemployment, marriage, children, and relationships, health, work, religion, economic growth, and personal safety affect happiness, are reviewed. Research from psychology, economics, and sociology is examined, providing an interdisciplinary perspective of this fascinating field. Social issues such as income inequality and the effects of advertising, materialism, and competition are also explored. Highlights include: Covers both the socio-structural issues and individual differences that impact our happiness, providing the
