Beyond the Family Romance Maria Truglio, 2007-12-15 Giovanni Pascoli 1855-1912 is one of Italy's most canonical and beloved poets In *Beyond the Family Romance* Maria Truglio offers fresh insight into the uncanny qualities of Pascoli's domestic verse As suggested by the Freudian title this study opens a dialogue between Pascoli's literature and Freud's theories with a particular focus on each author's interrogation of origins Through close readings and historical contextualization themes of regression memory and other manifestations of origins are analyzed moving Pascoli's poetry beyond the biographical strictures that have hitherto confined it Truglio's post-structuralist readings question the dichotomy between safety within the home and the threatening outside world revealing the ambivalences with which images of the home are fraught in Pascoli's poetry In addition to the sustained comparison with Freud's writing *Beyond the Family Romance* explores parallels between Pascoli's work and such writers as Tarchetti Boito Poe and Invernizio Rethinking the concept of the fanciullino little child Truglio shows that Pascoli's poetry enacts a symbiosis between the logic of the rational modern adult and the mythic vision of the child

Voices Beyond Bondage

Fidel Louis, 2014-10-01 Slaves in chains toiling on master's plantation Beatings bloodied whips This is what many of us envision when we think of 19th century African Americans source materials penned by those who suffered in bondage validate this picture Yet slavery was not the only identity of 19th century African Americans Whether they were freeborn self liberated or born in the years after the Emancipation African Americans had a rich cultural heritage all their own a heritage largely subsumed in popular history and collective memory by the atrocity of slavery The early 19th century birthed the nation's first black owned periodicals the first media spaces to provide primary outlets for the empowerment of African American voices For many poetry became this empowerment Almost every black owned periodical featured an open call for poetry and African Americans both free and enslaved responded by submitting droves of poems for publication Yet until now these poems and an entire literary movement have been lost to modern readers The poems in *Voices Beyond Bondage* address the horrific and the mundane the humorous and the ordinary and the extraordinary Authors wrote about slavery but also about love morality politics perseverance nature and God These poems evidence authors who were passionate dedicated vocal and above all resolute in a bravery which was both weapon and shield against a world of prejudice and inequity These authors wrote to be heard more than 150 years later it is at last time for us to listen **Agents beyond the State** Mark Netzloff, 2020-11-19 The early modern period is often seen as a pivotal stage in the emergence of a recognizably modern form of the state *Agents beyond the State* returns to this context in order to examine the literary and social practices through which the early modern state was constituted The state was defined not through the elaboration of theoretical models of sovereignty but rather as an effect of the literary and professional lives of its extraterritorial representatives Netzloff focuses on the textual networks and literary production of three groups of extraterritorial agents travelers and intelligence agents mercenaries and diplomats These figures reveal the extent to which the administration of the English state as well as definitions of national culture were shaped by England's military commercial and diplomatic relations in Europe and other regions across the globe Netzloff emphasizes the transnational contexts of early modern state formation from the Dutch Revolt and relations with Venice to the role of Catholic exiles and nonstate agents in diplomacy and international law These global histories of travel service and labor additionally transformed definitions of domestic culture from the social relations of classes and regions to the private sphere of households and families Literary writing and state service were interconnected in the careers of Fynes Moryson George Gascoigne and Sir Henry Wotton among others As they entered the realm of print and addressed a reading public they introduced the practices of governance to an emerging public sphere **Eureka: a prose poem. Miscellanies** Edgar Allan Poe, George Edward Woodberry, 1903 *Contemporary American Poetry* Lloyd M. Davis, 1985 Lists over 5 200 titles of books published by American poets between 1973 and 1983 Muslims beyond the Arab World Fallou Ngom, 2016-06-01 *Muslims beyond the Arab World* explores the vibrant tradition of writing African languages using the modified Arabic script Ajami alongside the rise of the Muridiyya Sufi order in Senegal The book

demonstrates how the development of the Ajami literary tradition is entwined with the flourishing of the Muridiyya into one of sub Saharan Africa s most powerful and dynamic Sufi organizations It offers a close reading of the rich hagiographic and didactic written recited and chanted Ajami texts of the Muridiyya works largely unknown to scholars The texts describe the life and Sufi odyssey of the order s founder Shaykh Ahmadu Bamba Mbakke 1853 1927 his conflicts with local rulers and Muslim clerics and the French colonial administration and the traditions and teachings he championed that permanently shaped the identity and behaviors of his followers Fallou Ngom evaluates prevailing representations of the Muridiyya movement and offers alternative perspectives He demonstrates how the Mur ds used their written recited and chanted Ajami materials as an effective mass communication tool in conveying to the masses Bamba s poignant odyssey doctrine the virtues he stood for and cultivated among his followers self esteem self reliance strong faith work ethic pursuit of excellence determination nonviolence and optimism in the face of adversity without the knowledge of the French colonial administration and many academics Muslims beyond the Arab World argues that this is the source of the resilience appeal and expansion of Muridiyya which has fascinated observers since its inception in 1883
