## **Marshal Lyautey:**

Marshal Pétain Richard Griffiths, 2011-05-19 Marshal Philippe Pétain was in the words of historian Andrew Roberts the most controversial Frenchman of the twentieth century. A truly distinguished soldier who rose from humble origins, he commanded French forces at Verdun in 1916 and became a national hero. But though by 1940 he had become French Deputy Prime Minister, his political abilities were meagre. And after France fell to the Nazis, it was Pétain who signed the armistice and from the spa town of Vichy ruled over the *Etat Français*. Hitler had left him. Richard Griffiths tells this sorry story in outstanding detail all the way to Pétain's ignominious end, and not stinting to show his culpability in the Vichy persecution of French Jews and its suppression of the internal Resistance. Pétain, utterly obscure until the age of 58, was hurled to fame by his defence of Verdun in 1916. This saved his country's bacon; he would say for her honour at a crisis point of the Great War. Thereafter, he became an almost monarchical figure, more revered than any living Frenchman, even after the disaster of 1940. But then, as head of the puppet Vichy government, he slid into ignominy after failing to square honour with military humiliation. Griffiths's durable biography paints not a devil but a courageous misguided man with a hole where others keep their political acumen. Robin Blake, *Independent*.

**Ernest Mercier** Richard F. Kuisel, 2023-04-28 Ernest Mercier 1878-1955 was a key figure in the rise of the technical managerial class in early 20th century France. A businessman and technocrat, he sought to overhaul the French political and economic system through his work in modernizing the electric power industry and promoting the creation of a native petroleum industry. As head of France's largest utilities syndicate, Mercier was influential within the business and political elite, forming connections with figures like Marshals Foch and Pétain and Presidents Poincaré and Lebrun. His technocratic movement, *Redressement Français* (1925-1935), aimed at replacing the political establishment with a results-oriented, expert-driven system. Mercier's career deeply intertwined with the rise of the managerial class offers insight into the broader goals of technocrats to modernize France's economy and society while also seeking a shift in traditional political and social values. Mercier's story also illustrates the tensions between modernization and the political climate of the era. Despite his drive for economic transformation, his elitist tendencies and authoritarian associations, including his involvement in the *Croix de Feu*, demonstrate the complexities of his character. As a technocrat, Mercier aimed to make France more efficient and productive, but his belief in authoritarian methods clashed with democratic ideals. His biography is not only a study of the man himself but also of the broader technocratic movement that sought to reshape France. While his efforts to modernize the French system largely failed during his lifetime, they laid the groundwork for the technocratic influence that would grow stronger in the postwar era.
