Marshallese Reference Grammar Byron W. Bender, Alfred Capelle, Louise Pagotto, 2016-07-31 This reference grammar covers the phonology morphology and syntax of the language of the Republic of the Marshall Islands It is the result of a long and sustained effort inexorably entwined with that of the Marshallese English Dictionary published in 1976 Following a general introduction that situates the islands and their people in the cultural and historical context of Micronesia chapters examine the sound system of Marshallese and survey the more important characteristics of the two major parts of speech nouns and verbs a section on the nine major verb classes is included Special attention is given to a complex set of directional adverbs used in predicates of all sorts and from which back and forth verbs are formed The final chapter analyzes Marshallese sentences focusing on the sentences themselves and on considerations that apply at the sentence level The identification of five case relations and of verbs that are impersonal provides explanations for seeming problems of grammatical agreement The grammar avoids technical terminology especially in the early chapters and is aimed at educated laypersons teachers and college students who either speak the language or are motivated to learn it It is rich with examples for each topic including words exemplifying the contrasts in the sound system and sentences that highlight special points and intricacies in constructions such as cleft sentences and the phenomenon known as switch reference

A World Atlas of Translation Yves Gambier,Ubaldo Stecconi,2019-02-15 What do people think of translation in the different historical cultural and linguistic traditions of the world How many uses has translation been put to How distant from one another are the concepts of translation found in the different traditions These are some of the questions A World Atlas of Translation addresses Its twenty one reports give us pictures taken from the inside both from traditions that are well represented in the literature and from the many that for now are not But the Atlas is not content with documenting no map is this innocent In fact the wealth of information collected and made accessible by its reporters can be useful to gauge the dispersion of translation concepts across traditions As you read its reports the Atlas will keep asking How far apart do these concepts look to you Finally and more ambitiously the reports can help us test the hypothesis that a cross cultural notion of translation exists In this respect the Atlas is mostly a proof of concept It hopes to encourage further fact based research in quest of a robust and compelling unifying notion of translation

Summoning the Powers Beyond Jay Dobbin,Francis X. Hezel,2011-09-30 *Summoning the Powers Beyond* collects and reconstructs the old religions of preindustrial Micronesia It draws mostly from written sources from the turn of the nineteenth century and the period immediately after World War II reports of the Hamburg South Sea Expedition of 1908 1910 articles by German Roman Catholic missionaries in Micronesia included in the journal *Anthropos* and reports by the Coordinated Investigation of Micronesian Anthropology CIMA and the American Board of Commissioners of the Foreign Missions ABCFM A detailed introduction and an overview of Micronesian religion are followed by separate chapters detailing religion in the Chuukic speaking islands Pohnpei Kosrae the Marshall Islands Yap Palau Kiribati and Nauru The Chamorro speaking group of the Marianas is omitted because lengthy periods of intense military and missionary activity eradicated most of the local religion The Polynesian outliers Nukuoro and Kapingamarangi are discussed at the end primarily to underscore the contrasts between Polynesian and Micronesian religion In a concluding chapter the author highlights the similarities and differences between the areas within Micronesia and then attempts an appreciation or evaluation of Micronesia religion Finally he addresses the evidence of a tentative hypothesis that Micronesian religion is sufficiently different from that of Polynesia and Melanesia to justify the continued claim of a separate Micronesian religion
