Martin Buber's Life Work 1878-1965:

Martin Buber's Spirituality Kenneth Paul Kramer, 2023-06-14 How do we find meaning in our life This book explores how Martin Buber one of the 20th century's greatest religious thinkers answers this timeless question Author Kenneth Paul Kramer explains Buber's Hasidic spirituality a living connection between the human and the divine and how it is relevant to all spiritual seekers According to Buber we find meaning in life through wholeheartedly letting God in He developed this theme through six thought provoking talks originally published as *The Way of Man* In *Martin Buber's Spirituality* Kramer explains the accessible practices Buber outlined in these talks shares the stories Buber used to illustrate each point and explores how these teachings might apply in everyday life today The book features questions for personal or group reflection to help readers more fully explore Martin Buber's approach to spirituality along with a glossary of key terms **Volume 9: Kierkegaard and Existentialism** Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement **The Martin Buber Reader** A. Biemann, 2016-04-30 Martin Buber was professor of the history of religions and Jewish religion ethics from 1923 to 1933 at the University of Frankfurt He resigned in 1933 after Hitler came to power and immigrated to Israel where he taught at the Hebrew University in Jerusalem Buber wrote numerous books during his lifetime 1878-1965 and is best known for *I and Thou* and *Good and Evil* His philosophy of dialogue that is the *I Thou* relationship which affirms each individual as being of unique value is extremely well known and has influenced important Protestant theologians like Karl Barth Emil Brunner Paul Tillich and Reinhold Niebuhr There is truly no genuine understanding of contemporary Jewish and Christian theology without reference to Martin Buber His appeal is vast not only is he renowned for his translations of the Old Testament but also for his interpretation of Hasidism his role in Zionism and his writings in both psychotherapy and political philosophy **The Search for Roots: C. G. Jung and the Tradition of Gnosis** Alfred Ribi, 2013-07-31 The publication in 2009 of C G Jung's *The Red Book Liber Novus* has

initiated a broad reassessment of Jung's place in cultural history. Among many revelations, the visionary events recorded in the Red Book reveal the foundation of Jung's complex association with the Western tradition of Gnosis. In *The Search for Roots*, Alfred Ribi closely examines Jung's life-long association with Gnostic tradition. Dr Ribi knows C. G. Jung and his tradition from the ground up. He began his analytical training with Marie Louise von Franz in 1963 and continued working closely with Dr von Franz for the next 30 years. For over four decades, he has been an analyst, lecturer, and examiner of the C. G. Jung Institute in Zurich, where he also served as the Director of Studies. But even more importantly, early in his studies, Dr Ribi noted Jung's underlying roots in Gnostic tradition, and he carefully followed those roots to their source. Alfred Ribi is unique in the Jungian analytical community for the careful scholarship and intellectual rigor he has brought to the study of Gnosticism. In *The Search for Roots*, Ribi shows how a dialogue between Jungian and Gnostic studies can open new perspectives on the experiential nature of Gnosis, both ancient and modern. Creative engagement with Gnostic tradition broadens the imaginative scope of modern depth psychology and adds an essential context for understanding the voice of the soul emerging in our modern age. A Foreword by Lance Owens supplements this volume with a discussion of Jung's encounter with Gnostic tradition while composing his Red Book, *Liber Novus*. Dr Owens delivers a fascinating and historically well-documented account of how Gnostic mythology entered into Jung's personal mythology in the Red Book. Gnostic mythology thereafter became for Jung a prototypical image of his individuation. Owens offers this conclusion: In 1916, Jung had seemingly found the root of his myth, and it was the myth of Gnosis. I see no evidence that this ever changed. Over the next forty years, he would proceed to construct an interpretive reading of the Gnostic tradition's occult course across the Christian aeon, in Hermeticism, alchemy, Kabbalah, and Christian mysticism. In this vast hermeneutic enterprise, Jung was building a bridge across time, leading back to the foundation stone of classical Gnosticism. The bridge that led forward toward a new and coming aeon was footed on the stone rejected by the builders two thousand years ago. Alfred Ribi's examination of Jung's relationship with Gnostic tradition comes at an important time. Initially authored prior to the publication of Jung's Red Book, the current release of this English edition offers a bridge between the past and the forthcoming understanding of Jung's Gnostic roots.

An Introduction to Modern Jewish Thinkers Alan T. Levenson, Roger C. Klein, 2006-02-13. Highlighting well-known Jewish thinkers from a very wide spectrum of opinion, the author addresses a range of issues, including: What makes a thinker Jewish? What makes modern Jewish thought modern? How have secular Jews integrated Jewish traditional thought with agnosticism? What do Orthodox thinkers have to teach non-Orthodox Jews, and vice versa? Each chapter includes a short, judiciously chosen selection from the given author, along with questions to guide the reader through the material. Short biographical essays at the end of each chapter offer the reader recommendations for further readings and provide the low-down on which books are worth the reader's while. *Introduction to Modern Jewish Thinkers* represents a decade of the author's experience teaching students ranging from undergraduate age to their seventies.
