1992 and finish at the end of 2000 They give a vivid insight into her love of life and people we see familiar things through different eyes and visit unknown places which leave us with a feeling that we must go there ourselves Travelling by road rail or merely on foot Betty uses only the most salient points to describe her world in rich colours but always with humour intelligence and that steadfast sense of belonging and purpose found in her diaries As Betty counts down to the New Millennium she meticulously records her high days and holidays We travel with her the length and breadth of Britain from Bardon Hill Quarry to Buckingham Palace from mighty Canterbury Cathedral to Snibston s little St Mary s from the most serene and tranquil Lakeland view to the busiest bustling day in the heart of our nation s great capital Her journals feature hundreds of indexed and detailed entries in which she quotes from sources as diverse as the essays of Dr Johnson and her local newspaper each equally as relevant and informative as the next Betty s Travel Journals are laced together with a strong historical and religious narrative but with an ever watchful eye on history in the making Her travels were not confined to distance however the 1990s saw incredible strides made by humankind and Betty documents our world s biggest events in the final years of the twentieth century as they play out alongside her journey through what turned out to be the last decade of her life **School Library Journal** ,2010 *American Book Publishing Record* ,2006 **England's Magnificent**

**Gardens** Roderick Floud,2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England s magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince Charles today In this rich revelatory history Sir Roderick Floud one of Britain s preeminent economic historians writes that gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the nurseries in France combined Floud s book takes us through more than three centuries of English history as he writes of the kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and Victorian England to today s Windsors Here are William and Mary who brought Dutch gardens and bulbs to Britain William who twice had his entire garden lowered in order to see the river from his apartments and his successor Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40 000 on a single twenty five foot tulip tree for Carlton House Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories of his grandmother s gardens We see Sarah Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one Deborah Duchess of Devonshire the savior of Chatsworth s 100 acre garden in the midst of its 35 000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers We see the designers of royal estates among them Henry Wise William Kent Humphrey Repton and the greatest of all English

gardeners Capability Brown who created the 150 acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today We learn how gardening became a major catalyst for innovation central heating came from experiments to heat greenhouses with hot water pipes how the new iron industry of industrializing Britain supplied a myriad of tools mowers pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world     Children's Books in Print R R Bowker Publishing,Bowker,1999-12
