Marvelous Arithmetics Of Distance Poems:

The Marvelous Arithmetics of Distance, 1993 **The Marvelous Arithmetics of Distance** Audre Lorde, 1994 *The Marvelous Arithmetics of Distance* Audre Lorde, 1993 A collection of poems explores the themes of love anger family politics sexuality death and the city **Of Women, Poetry, and Power** Zofia Burr, 2002 The haunting legacy of Emily Dickinson's life and work has shaped a romantic conception of poetry as private personal and expressive that has governed the reception of subsequent American women poets *Of Women Poetry and Power* demonstrates how the canonization of Dickinson has consolidated limiting assumptions about women's poetry in twentieth century America and models an alternative reading practice that allows for deeper engagement with the political work of modern poetry Analyzing the reception of poems by Josephine Miles Gwendolyn Brooks Audre Lorde and Maya Angelou Zofia Burr shows the persistence of these critical outlooks and dispels the belief that we have long since moved beyond such limiting gendered expectations Turning away from an obsessive concern with a poet's biography Burr's readings of contemporary women's poetry accentuate its engagement and provocation of readers through its forms of address Burr shows how displacing the limits of dominant reception is possible by approaching poetry as communicative utterance not just as self expression *Cultural Activisms* Gertrude M. James Gonzalez, Anne J. M. Mamary, 1999-01-01 This text presents art and writing which is political rather than theorizing about how art and writing might be political The wide array of voices and styles is one of the book's strengths as it not only offers a multi faceted approach toward activism and positive change but also speaks a range of emotions from anger passion and fear to joy and courage This book also opens and creates space for the humor and hope which can come even in the presence of violence and despair **Treatments** Lisa Diedrich, Creative expression inspired by disease has been criticized as a celebration of victimhood unmediated personal experience or just simply bad art Despite debate however memoirs written about illness particularly AIDS or cancer have proliferated since the late twentieth century and occupy a highly influential place on the cultural landscape today In *Treatments* Lisa Diedrich considers illness narratives demonstrating that these texts not only recount and interpret symptoms but also describe illness as an event that reflects wider cultural contexts including race gender class and sexuality Diedrich begins this theoretically rigorous analysis by offering examples of midcentury memoirs of tuberculosis She then looks at Susan Sontag's *Illness As Metaphor* Audre Lorde's *The Cancer Journals* and Eve Kosofsky Sedgwick's *White Glasses* showing how these breast cancer survivors draw on feminist health practices of the 1970s and also anticipate the figure that would appear in the wake of the AIDS crisis in the 1980s the politicized patient She further reveals how narratives written by doctors Abraham Verghese and Rafael Campo about treating people with AIDS can disrupt the doctor patient hierarchy and she explores practices of witnessing that emerge in writing by Paul Monette and John Bayley Through these records of intensely personal yet universal experience Diedrich demonstrates how language both captures and fails to capture these scenes of loss and how illness narratives affect

the literary medical and cultural contexts from which they arise Finally by examining the ways in which the sick speak and are spoken for she argues for an ethics of failure the revaluation of loss as creating new possibilities for how we live and die Lisa Diedrich is assistant professor of women s studies at Stony Brook University **Talking Visions** Ella Shohat,2001 This multivoiced collection of essays and images presents a relational feminism of diverse communities affiliations and practices

The Censored Pulpit Donyelle C. McCray,2019-10-16 Few have consoled the church as ably as the fourteenth century mystic Julian of Norwich However her prophetic gifts have received little scholarly attention Drawing on contemporary homiletical theory and the history of Christian spirituality Donyelle C McCray presents Julian as a preacher examining the apostolic dimensions of Julian s vocation as an anchoress and highlighting the steps she took to align herself with renowned preachers like Saint Cecelia Mary Magdalene and the apostle Paul Like Paul Julian saw Jesus body as her primary text placed human weakness at the center of her theology and used her own confined body as a rhetorical tool Yet she navigated a web of censorship that threatened to silence her To voice her convictions Julian developed a novel approach to authority and exploited the fluidity of the medieval English sermon genre McCray charts this process revealing Julian as a central personality in the history of preaching whose best contemporary parallels operate outside the pulpit in august figures like retreat leader Evelyn Underhill gospel singer Mother Willie Mae Ford Smith and street preacher Reverend Billy

The Nature of Cities Michael Bennett, David W. Teague, 2021-10-12 Cities are often thought to be separate from nature but recent trends in ecocriticism demand that we consider them as part of the total environment This new collection of essays sharpens the focus on the nature of cities by exploring the facets of an urban ecocriticism by reminding city dwellers of their place in ecosystems and by emphasizing the importance of this connection in understanding urban life and culture The editors both raised in small towns but now living in major urban areas are especially concerned with the sociopolitical construction of all environments both natural and manmade Following an opening interview with Andrew Ross exploring the general parameters of urban ecocriticism they present essays that explore urban nature writing city parks urban wilderness ecofeminism and the city and urban space The volume includes contributions on topics as wide ranging as the urban poetry of English writers from Donne to Gay the manufactured wildness of a gambling casino and the marketing of cosmetics to urban women by idealizing Third World naturalness These essays seek to reconceive nature and its cultural representations in ways that contribute to understanding the contemporary cityscape They explore the theoretical issues that arise when one attempts to adopt and adapt an environmental perspective for analyzing urban life The Nature of Cities offers the ecological component often missing from cultural analyses of the city and the urban perspective often lacking in environmental approaches to contemporary culture By bridging the historical gap between environmentalism cultural studies and urban experience the book makes a statement of lasting importance to the development of the ecocritical movement
