*Magic Flutes and Enchanted Forests* David J. Buch, 2009-08-01 Drawing on hundreds of operas singspiels ballets and plays with supernatural themes *Magic Flutes and Enchanted Forests* argues that the tension between fantasy and Enlightenment era rationality shaped some of the most important works of eighteenth century musical theater and profoundly influenced how audiences and critics responded to them David J Buch reveals that despite and perhaps even because of their fundamental irrationality fantastic and exotic themes acquired extraordinary force and popularity during the period pervading theatrical works with music in the French German and Italian mainstream Considering prominent compositions by Gluck Rameau and Haydn as well as many seminal contributions by lesser known artists Buch locates the origins of these magical elements in such historical sources as ancient mythology European fairy tales the Arabian Nights and the occult He concludes with a brilliant excavation of the supernatural roots of Mozart's *The Magic Flute* and *Don Giovanni* building a new foundation for our understanding of the magical themes that proliferated in Mozart's wake

**The Americas in Early Modern Political Theory** Stephanie B. Martens, 2016-05-31 This book examines early modern social contract theories within European representations of the Americas in the 16th and 17th century Despite addressing the Americas only marginally social contract theories transformed American social imaginaries prevalent at the time into Aboriginality allowing for the emergence of the idea of civilization and the possibility for diverse discourses of Aboriginalism leading to excluding and discriminatory forms of subjectivity citizenship and politics What appears then is a form of Aboriginalism pitting the American Aboriginal other against the nascent idea of civilization The legacy of this political construction of difference is essential to contemporary politics in settler societies The author shows the intellectual processes behind this assignation and its role in modern political theory still bearing consequences today The way one conceives of citizenship and sovereignty underlies some of the difficulties settler societies have in accommodating Indigenous claims for recognition and self government *Handbook of Chinese Mythology* Lihui Yang, Deming An, 2008 Compiled from ancient and scattered texts and based on groundbreaking new research *Handbook of Chinese Mythology* is the most comprehensive English language work on the subject ever written from an exclusively Chinese perspective This work focuses on the Han Chinese people but ranges across the full spectrum of ancient and modern China showing how key myths endured and evolved over time A quick reference section covers all major deities spirits and demigods as well as important places mythical animals and plants and related items

**Myth and Identity in the Epic of Imperial Spain** Elizabeth B. Davis, 2000 The first in depth analysis of some of the most important epic poems of the Spanish Golden Age *Myth and Identity in the Epic of Imperial Spain* breathes new life into five of these long neglected texts Elizabeth Davis demonstrates that the epic must not be overlooked for doing so creates a significant gap in one's ability to appraise not only the cultural practice of the imperial age but also the purest expression of its ideology Davis's study focuses on heroic poetry written from 1569 to 1611 including Alonso de Ercilla's *La Araucana* undeniably the most significant epic poem of its time Also included are Diego de Hojeda's *La Christiada* Juan Rufo's *La Austriada* Lope de Vega's *Jerusal n Conquistada* and Crist bal de Viru s's *Historia del Monserrate* Examining these epics as the major site for the construction of cultural identities and Renaissance nationalist myths Davis analyzes the means by which the epic constructs a Spanish sense of self Because this sense of identity is not easily susceptible to direct representation it is often derived in opposition to an other which serves to reaffirm Spanish cultural superiority The Spanish Christian caballeros are almost always pitted against Amerindians Muslims Jews or other

adversaries portrayed as backward or heathen for their cultural and ethnic differences The pro Castilian elite of sixteenth century Spain faced the daunting task of constructing unity at home in the process of expansion and conquest abroad yet ethnic and regional differences in the Iberian Peninsula made the creation of an imperial identity particularly difficult The epic as Davis shows strains to convey the overriding image of a Spain that appears more unified than the Spanish empire ever truly was An important reexamination of the Golden Age canon Myth and Identity in the Epic of Imperial Spain brings a new twist to the study of canon formation While Davis does not ignore more traditional approaches to the literary text she does apply recent theories such as deconstruction and feminist criticism to these poems resulting in an innovative examination of the material Confronting such issues as canonicity gender the relationship between literature and Golden Age culture and that between art and power this publication offers scholars a new perspective for assessing Golden Age and Transatlantic studies **Scientific American**, 1910 **Taking Ancient Mythology Economically** Morris

Silver, 2023-08-21 The primary objective of this study is to decipher the codes or polysemous signs of many prominent myths of the Graeco Roman and Near Eastern worlds and thereby to expose their hidden economic meaning The study is highlighted by analyses of the following themes Birth of Athena from Zeus Head Perseus and the Gorgon and Gilgamesh in the Cedar Forest Oedipus of Thebes and the biblical myth of the Five Golden Tumors Semele the daughter of Kadmos Heroic Twins Labors of Herakles Cain Janus and the Rainbow Dogs as Merchants and Male Prostitutes Virgin Priestesses in Treasuries Danae and the Birth of Perseus and the biblical myth of the House of Rahab Circuiting Gods Contest Between Athena and Poseidon for Supremacy in Athens and Hermes versus Apollo David and his Lyre at King Saul's Court and Gilgamesh the Infernal Musician A striking result of these studies is the extent to which ancient myths are saturated by economic content especially commercial idioms and the standardized gestures required of contractors It becomes quite clear that the ancients were far more aware of and interested in the economy than many contemporary scholars give them credit for *The Science of the Bible* Milton Woolley, 1877 **The Graph Music of Morton Feldman** David Cline, 2016-05-26 Morton Feldman is widely regarded as one of America's greatest composers His music is famously idiosyncratic but in many cases the way he presented it is also unusual because in the 1950s and 1960s he often composed in non standard musical notations including a groundbreaking variety on graph paper that facilitated deliberately imprecise specifications of pitch and at times other musical parameters Feldman used this notation intermittently over seventeen years producing numerous graph works that invite analysis as an evolving series Taking this approach David Cline marshals a wide range of source materials many previously unpublished in clarifying the ideology organisation and generative history of these graphs and their formative role in the chronicle of post war music This assists in pinpointing connections with Feldman's compositions in other formats works by other composers notably John Cage and contemporary currents in painting Performance practice is examined through analysis of Feldman's non notated preferences and David Tudor's celebrated interpretations [Index to](#)

**Genuine Dialogue and Real Partnership** Maurice Friedman, 2011-03-30 Building Genuine Community emphasizes a notion of a community in which people are bound together by a common life situation and a common purpose without using that common purpose as an exclusionary factor that distinguishes between those who belong and those who do not belong to the community Without being scholarly technical or obscure Building Genuine Community lays the foundation for true community which is the seeking need of the age True community is difficult to define What makes some communities thrive and others fail True community is not an ideal or a specific goal Rather it is a twofold direction of movement a movement within each particular structure of family community and society to discover the maximum possibilities of the confirmation of individuals as true others within that structure as well as a movement from structure to structure toward more genuine community Building Genuine Community proposes nothing less than to do away with the old and tired polarities of the individual versus society individualism versus collectivism competition versus cooperation and free enterprise versus socialism In place of all these ideals this treatise confirms that otherness is the only meaningful direction of movement for friendship marriage family community and society within a democracy

thirsty wars mystic locales and epic encounters one that leads to SIXTEEN remarkable findings about Alexander the Great thus rewriting the history of this great emperor forever *Weaving Ourselves into the Land* Thomas C. Parkhill, 1997-07-24 CHOICE 1997 Outstanding Academic Books It is now over half a millennium since the first sustained contact between the peoples of Europe and North America yet Native Americans and especially their religious traditions still fascinate those who are not Native In *Weaving Ourselves into the Land* Thomas Parkhill argues that this fascination draws much more on a stereotype of the Indian than on the lives and history of actual Native Americans This stereotype whether used approvingly or disparagingly has informed the work of authors writing about Native American religions for audiences with both general and professional interests The figure of Charles Godfrey Leland plays an important part in Parkhill's investigation Leland's 1884 collection of legends about the Micmac Maliseet Passamaquoddy and Penobscot culture hero Kluskap becomes the touchstone for reflection on the larger study of Native American religions The author argues that most scholars of these religions including himself continue to be like Leland over a hundred years ago bewitched by the stereotype of the Indian
