Marx Before Marxism:

Marx Before Marxism David McLellan, 1980 *Before Marx: Socialism and Communism in France, 1830-48* Paul E Corcoran, 1983-08-25 *Marx: A Guide for the Perplexed* John Seed, 2010-01-01 A concise and coherent overview of Marx ideal for undergraduates and covering the full range of his works and ideas *Marx's Critique of Political Economy Volume One* Allen Oakley, 2013-11-05 Volume One analyses the intellectual sources and evolution of Marx's critique of political economy leading up to the writing of the main Capital manuscripts 1844-1860 The volume Provides a clear illustration of the contents of the texts in a way that enables readers to understand the intellectual influences on Marx Clarifies Marx's own view of what he was trying to achieve through his critique of political economy The themes of value income distribution and the law of motion of capitalism are traced to their origins Mainlining Marx John L. Stanley, 2018-01-16 In recent years a host of Western Marxists have tried to emancipate Marx from responsibility for various unsavory doctrines Political theorists have argued that Marx can avoid the weight of Stalinism and also the various theories such as positivism naturalism Darwinism technological determinism and the dialectics of nature that support Marxism In the course of building up their defense of Marx these modern critics have developed an elaborate but often confusing rationale whose premise consists of attributing many of the nefarious tendencies of Marxism to Engels particularly the latter's philosophy of nature In Mainlining Marx John L Stanley sets Marx's view of nature back in its proper perspective Stanley challenges the new orthodoxy of prominent Marxist scholars who see a fundamental dichotomy between Marx and Engels with the latter believing in cosmic superlaws and the former adhering to historically grounded ones Stanley argues both Marx and Engels used historical and transhistorical laws at various times He is highly critical of those who abstract theoretical principles out of texts Marx wrote with specific and historical political goals in mind He takes issue as well with critics who posit a Marxian belief in communism as against natural needs and further challenges the new orthodoxy in his analysis of Marx's dissertation showing that from the beginning Marx's thought was grounded in materialist determinism Supplementing the chapters on Marx and his critics the volume concludes with an essay on Georges Sorel's approach to textual analysis and interpretation showing how Sorel far in advance of his time realized the impossibility of completely objective analysis and the inevitable distortion of the subject under study Throughout this volume Stanley's critical approach utilizes Sorel's illuminating insights to point out the distortions in modern Marxian analysis Challenging and original Mainlining Marx is a major contribution to the study of Marxism It will be read by economists political scientists and intellectual historians Karl Marx Karl Marx, 2000 This edition of McLellan's comprehensive selection of Marx's writings includes carefully selected extracts from the whole range of Marx's most important pieces alongside a fully revised and updated bibliography and editorial commentary on each document New editorial introductions to each section of the book provide the reader with the background and context of Marx's writing in each period Essential reading for anyone wishing for a detailed overview of Marx's political philosophy

Biography of a Blunder Dileep Edara, 2016-02-29 Engaging with a critical analysis of the base and superstructure thesis regarding which a surprising number of reputed Marxist thinkers betray a perpetual ambivalence by frequently deploying it in a variety of contexts but simultaneously airing various reservations about it this book proposes a radical departure from the presently predominant understanding of it The popular view of the base as comprising economics and superstructure as encompassing almost all other spheres of social life is criticised as panoramic or panoptic or the extended version to which Marx's rigorously defined base of production relations and superstructure of politico legal spheres is juxtaposed Revisiting Marx's formulations in his famous 1859 Preface described here as his purloined letters the study rehabilitates his restricted version and upholds its conceptual superiority over its extended avatar that is currently ubiquitous The substitution of Marx's restricted version with the widely believed extended version of the thesis is characterised here as a blunder and this book traces the biography of this blunder through the intricate and tortuous theoretical developments that traverse a transnational and multidisciplinary territory constituting the history of Marxism The last chapter argues for a paradigm shift in favour of the mode of production thesis in order to redeem the holistic vision of Marx This shift is necessitated by the extenuation of the status of the base and superstructure thesis that results from the restoration of Marx's restricted version This chapter grapples with the issues involved in preparing the ground for that shift It also contends that although these theoretical shifts are never formulated in a conscious and conclusive manner as is done here the best practices in Marxist analyses are always inspired by the methodological implications of the mode of production thesis and for this reason the thesis is claimed to be the conceptual unconscious of Marxism

Karl Marx David McLellan, 1976-12-09 A lucid free flowing summary of the ideas of Marx as well as keen analysis of the different interpretations of Marxism Library Journal Here is an introduction to all of Karl Marx's titanic achievements and their repercussions In one hundred concentrated pages David McLellan clarifies often misunderstood Marxist concepts like the dialectic the labor theory of value and the pauperization of the proletariat He also offers a review of the growth and nature of Marx's reputation as well as a dramatic account of Marx's life A short well written and unlike some of the Master's own work totally intelligible survey The Times London McLellan expounds the field of Marx's influence with a clarity only matched by its brevity an impressive essay The Guardian

Karl Marx Paul Thomas, 2013-05-15 He was relatively unknown in his lifetime but Karl Marx's theories about society economics and politics changed the world led to the Russian Revolution and the formation of the Soviet Union and the creation of the People's Republic of China and inspired variants from Leninism and Stalinism to Trotskyism and Maoism Marx is one of the most influential thinkers of the modern age but in recent times Marxism has become a vague contestable and uncertain term In this concise accessible book Paul Thomas casts a clarifying light on Marx's life and writings providing a cogent introduction to a contemporary audience Illuminating Marx's development as a critical thinker and revolutionary politician Thomas explores how the events of Marx's life influenced his doctrines Thomas follows Marx from his birth into a wealthy family in Prussia to his period of study of

philosophy at the universities of Bonn and Berlin and his subsequent work as a journalist for radical newspapers in Cologne and Paris where he began to develop the concepts that would lead to Marxism As Marx found himself exiled to Brussels and finally to London Thomas illustrates how he was inspired by his relationships with other socialist thinkers particularly Friedrich Engels and the tumultuous and fluctuating state of the governments in Europe These experiences and their influence on Marx inspired *The Communist Manifesto* and *Das Kapital* along with the many other books and pamphlets that continue to be read and discussed today A valuable resource for anyone trying to understand the governments wars and movements of the twentieth and twenty first centuries Karl Marx is an enlightening book about this potent thinker and the world that created him **Karl Marx's Social and Political Thought** Bob Jessop, Charlie Malcolm-Brown, 1999

Problems of Communism, 1973 *History and Human Existence—From Marx to Merleau-Ponty* James Miller, 2023-04-28 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation and their assessment of subjective factors in social theory By taking up these taking up these topics within a systematic and historical framework I hope to generate some fresh light on several familiar issues First I pursue a reading of Marx focused on his treatment of subjectivity individuation and related methodological and practical matters second I apply this interpretation to analyzing the dispute between Marxist orthodoxy and heterodoxy over such matters as class consciousness and the philosophy of materialism finally I employ this historical context to clarify the significance of existential Marxism Maurice Merleau Ponty's and Jean Paul Sartre's contribution to Marxist thought This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1979 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation *From Aristotle to Marx* Jonathan E. Pike, 2019-05-20 First published in 1999 this volume from Dr Jonathan E Pike is original and provocative and integrates sources from the history of ideas analytical philosophy and contemporary social theory Pike has produced an overall account of Marx which focuses on the concept of human potential and clearly explains its ontological basis Anyone interested in Marx studies will be indebted to this incisive discussion of the philosophical foundations of Marx's work **Karl Marx and World Literature** S. S. Praver, 2014-04-03 Very few men said Bakunin have read as much and it may be added have read as intelligently as M Marx S S Praver's highly influential work explores how the world of imaginative literature poems novels plays infused and shaped Marx's writings from his unpublished correspondence to his pamphlets and major works In exploring Marx's use of literary texts from Aeschylus to

Balzac and the central role of art and literature in the development of his critical vision Karl Marx and World Literature is a forensic masterpiece of critical analysis Karl Marx and Friedrich Engels Cecil Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels *Marx's Lost Aesthetic*

Margaret A. Rose,1988-09-15 An original and challenging study of Marxist aesthetic theory from an art historical perspective

France and Germany in an Age of Crisis, 1900-1960 Shamir,2023-04-12 France and Germany two great powers in Europe and the world had in many respects a similar fate in the first half of the twentieth century Both nations knew war and defeat social upheaval grave economic crisis as well as political turmoil including major changes in their political regime On the other hand the two countries also faced some very different experiences in the course of their history in this period Germany had the terrible experience of the Third Reich while France shared with other powers the agonies of decolonisation Here is a collection of twenty two studies dealing with important aspects of the history of the two nations The studies are grouped under seven headings and include topics like foreign policy in peace and war domestic changes the impact of ideologies the colonial and Jewish aspects Taken as a whole these studies offer many new perceptions and insights to the history of France and Germany in the twentieth century **Karl Marx's Realist Critique of Capitalism** Paul Raekstad,2022-10-13 This book offers the first realist reconstruction of Marx s critique of capitalism Reading Marx through a realist lens enables us to make sense of the connections between 1 Marx s positive concept of freedom rooted in a theory of human development 2 his understanding of alienation as diagnosing capitalist unfreedom and 3 his conceptions of democracy and socialism respectively as the cures for this unfreedom Along the way it discusses and responds to some of Marx s most insightful critics such as Max Weber and Friedrich Hayek This clarifies Marx s ideas for a new generation of political thinkers explains the challenge they pose to contemporary debates about freedom democracy and future economic institutions and demonstrates that these ideas remain both defensible and compelling Communism and Nationalism Roman Szporluk,1988 This study examines the relationship between the two dominant ideologies which emerged in the 19th century Karl Marx s communism and Friedrich List s theory of nationalism List was the first economist to be studied seriously by Marx

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan,2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition

to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx s arguments from those of Hegel s enables the book to underline how and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does
