Basic Writings on Politics and Philosophy Karl Marx,1959 *Karl Marx and Friedrich Engels* Lewis Samuel Feuer,Karl Marx,Friedrich Engels,1984 *Marx & Engels: basic writings on politics & philosophy* Karl Marx,1959 Karl Marx & Friedrich Engels. Basic writings on politics and philosophy. Edited with an introduction by Lewis S. Feuer Karl Marx,Lewis Samuel FEUER,1969 **Marx and Engels** ,1969 **Marx & Engels** Lewis S. Feuer (ed), **Karl Marx and Friedrich Engels** Lewis Samuel Feuer,19?? *Aesthetic Marx* Samir Gandesha,Johan F. Hartle,2017-10-19 The whole of Marx's project confronts the narrow concerns of political philosophy by embedding it in social philosophy and a certain understanding of the aesthetic From those of aesthetic production to the poetry of the future as Marx writes in the Eighteenth Brumaire from the radical modernism of bourgeois development to the very idea of association which defined one of the main lines of tradition in the history of aesthetics steady references to Dante Shakespeare and Goethe and the idea that bourgeois politics is nothing but a theatrical stage the aesthetic has a prominent place in the constellation of Marx's thought This book offers an original and challenging study of both Marx in the aesthetic and the aesthetic in Marx It differs from previous discussions of Marxist aesthetic theory as it understands the works of Marx themselves as contributions to thinking the aesthetic This is an engagement with Marx's aesthetic that takes into account Marx's broader sense of the aesthetic as identified by Eagleton and Buck Morss as a question of sense perception and the body It explores this through questions of style and substance in Marx and extends it into contemporary questions of how this legacy can be perceived or directed analytically in the present By situating Marx in contemporary art debates this volume speaks directly to lively interest today in the function of the aesthetic in accounts of emancipatory politics and is essential reading for researchers and academics across the fields of political philosophy art theory and Marxist scholarship *Basic Writings on Politics and Philosophy* ,1959 **Nationalisms** Montserrat Guibernau,2013-06-10 This is a comprehensive and accessible account of the nature of nationalism which has re emerged as one of the fundamental forces shaping world society today **Marx: A Very Short Introduction** Peter Singer,2018-02-22 Karl Marx is one of the most influential philosophers of all time whose theories have shaped and directed political economic and social thought for 150 years Considering Marx's life and impact renowned philosopher Peter Singer identifies the central vision that unifies Marx's thought enabling us to grasp Marx's views as a whole Presenting Marx as a philosopher primarily concerned with human freedom rather than as an economist or a social scientist Singer explains Marx's key ideas on alienation historical materialism and the economic theory of Capital in plain English In this new edition Singer explores whether Marx remains relevant to the twenty first century and if so how Does the fact that eight billionaires now own as much as the bottom half of the world's population give support to Marxist thinking Does the ease with which conservative politicians can win over working class voters by appealing to nationalism undermines Marx's view of class struggle and the inevitability of victory for the proletariat Singer ponders key questions such as these

and also discusses the place of the internet as a productive force when analysed in Marxist theory He concludes with an assessment of Marx's legacy asking if there is any realistic prospect of replacing capitalism with a better system of production and distribution in the twenty first century ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Basic Writings on Politics and Philosophy, Marx & Engels* Lewis S. Feuer, 1959 **Marx** Peter Singer, 2018 Marx is one of the most influential philosophers of all time whose theories about society economics and politics have shaped and directed political and social thought for 150 years In this new edition Peter Singer discusses the legacy and impact of Marx's core theories considering how they apply to twenty first century politics and society *Social Inequality and Social Stratification in U.S. Society* Christopher B. Kain, 2012-12-06 In recent writings on Marx one finds an increasing interest in his humanism This phenomenon began in the third decade of

our century as a reaction against the mechanistic and stereotyped image of Marx 1 characteristic of the Second International and of Stalinism Lukacs in History and Class Consciousness 1923 was one of the first to discover this new Marx and he did so even before the most important 2 of the humanistic writings of the young Marx had been discovered With the publication of these writings in 1932 namely the Economic 3 and Philosophic Manuscripts of 1844 this new outlook was given enormous impetus In these Manuscripts Marx makes the human being the creator and the goal of all reality The objectification of the human essence through labor transforms both society and nature Labor transforms its world into a place which mirrors unfolds and confirms the human being This humanism is a complex and many faceted issue In this book we will be concerned only with a certain part of it i e the epistemology method and doctrine of nature which it involves Other aspects of it Marx concept of alienation and his theory of labor and the state have 4 been dealt with elsewhere

Foucault, Marxism and Critique Barry Smart, 2013-01-11 In this work originally released in 1983 Barry Smart examines the relevance of Foucault's work for developing an understanding of those issues which lie beyond the limits of Marxist theory and analysis issues such as individualising forms of power power knowledge relations the rise of the social and the associated socialisation of politics He argues that there exist clear and substantial differences between Foucault's genealogical analysis and that of Marxist theory Smart thus presents Foucault's work as a new form of critical theory whose object is a critical analysis of rationalities and of how relations of power are rationalised

Political Perspectives on the Muslim World Asaf Hussain, 1984-08-23 This study is designed to serve as an introduction to the political situation of the Muslim World and to bridge the gap between theoretical and descriptive studies

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does

Modern Political Philosophy Richard Hudelson, 2015-02-12 An introduction to the topics and issues in political philosophy from the Enlightenment to Postmodernism The author presents both the historical background of and a systematic discussion of contemporary issues relating to the major traditions within political philosophy
