## **Marx Against The Peasant A Study In Social Dogmatism:**

Marx against the peasant David Mitrany, 1951      **Marx Against the Peasant** David Mitrany, 1951 Contains discussion of Marx's agrarian theory and detailed account of the relationships between the peasantry and socialism in Central and Eastern Europe before and after the advent of Communism      *The Imperfect Peasant Economy* Gregor Dallas, 2004-06-07 The story of the survival of a rural household economy of small holders in nineteenth century France      **Marx and Marxism** Gregory Claeys, 2018-04-24 A new biography of Karl Marx tracing the life of this titanic figure and the legacy of his work Karl Marx remains the most influential and controversial political thinker in history He died quietly in 1883 and a mere eleven mourners attended his funeral but a year later he was being hailed as the Prophet himself whose name and writings would endure through the ages He has been viewed as a philosopher economist historian sociologist political theorist even a literary craftsman But who was Marx What informed his critiques of modern society And how are we to understand his legacy In *Marx and Marxism* Gregory Claeys a leading historian of socialism offers a wide ranging accessible account of Marx's ideas and their development from the nineteenth century through the Russian Revolution to the present After the collapse of the Soviet Union his reputation seemed utterly eclipsed but now a new generation is reading and discovering Marx in the wake of the recurrent financial crises growing social inequality and an increasing sense of the injustice and destructiveness of capitalism Both his critique of capitalism and his vision of the future speak across the centuries to our times even if the questions he poses are more difficult to answer than ever      *Private Agriculture in the Soviet Union* Stefan Hedlund, 2019-08-06 First published in 1989 Perestroika it was widely believed must succeed in agriculture before permanent change could be affected elsewhere in the Soviet economy But Soviet agriculture had so far remained stubbornly inefficient and resistant to change In this book Stefan Hedlund investigates the reasons for this state of affairs The author gives an account of the emergence development and performance of private agriculture in the Soviet Union In particular he describes the essentials of the peculiarly Soviet hybrid of private and socialized agriculture He places the private sector within the broader framework of Soviet agriculture He saw Soviet agriculture as a Black Hole ready to absorb any resources that came near be they private plots urban gardens factory workshops or military units Hedlund also examines the impact on the peasants as producers of decades of negative ideological pronouncements in Party propaganda and of discrimination and at times outright harassment by local officials He points out that this background makes the prospect of any positive response from the peasants to Gorbachev's call for perestroika in agriculture extremely unlikely      **Populism in Central and Eastern Europe** Roman Krakovsky, 2025-02-01 The rise of illiberal democracies across Central and Eastern Europe represents an ongoing challenge to the democratic and liberal principles of post Enlightenment societies However considerable debate remains about how to disentangle the complex factors that have contributed to this phenomenon and gain a clearer understanding of the issues shaping the political landscape In this incisive analysis of the populist phenomenon

Populism in Central and Eastern Europe re examines the roots of the current political situation tracing the historical evolution of Central and Eastern European populism From late nineteenth century Imperial Russia to Viktor Orb n s Hungary and Jaroslaw Kaczy ski s Poland this book offers an innovative approach to addressing these enduring political issues

**Development, Poverty and Power in Pakistan** Syed Mohammad Ali,2014-12-05 Rural development remains a major challenge for governments of developing countries such as Pakistan While a broad range of state and donor interventions impact the lives of poor farmers who provide a significant proportion of the labour force comprehensive consideration of these combined interactions remains inadequate Focussing on Pakistan this book discusses the political economy of agrarian poverty and underdevelopment in the region The book provides an in depth exploration of the combined impact of state and donor interventions as well as that of resistance attempts to alter the status quo within Pakistan It questions the relevance of state institutions and policies contending with the problems of farmers in Pakistan and how donor led policies and programmes also influence their lives It draws on findings that have emerged from interviews of over 200 respondents including government officials donor agency representatives and different categories of poor farmers during eleven months of fieldwork in the provinces of Sindh and Punjab This research reveals some divergences between state and donor policies but it finds more prominent convergences which in turn enable the landed rural elite to benefit from market based and capital intensive processes of agricultural growth without offering substantial opportunities for poor farmers Reflecting the need to become less insular when discussing solutions to rural development and demonstrating how state policies and institutions can interconnect with donor funded programmes this book will be of interest to students and scholars of South Asian Politics and Development Studies

**Justice, Order and Anarchy** Alex Prichard,2013-05-02 This book provides a contextual account of the first anarchist theory of war and peace and sheds new light on our contemporary understandings of anarchy in International Relations Although anarchy is arguably the core concept of the discipline of international relations scholarship has largely ignored the insights of the first anarchist Pierre Joseph Proudhon Proudhon s anarchism was a critique of the projects of national unification universal dominion republican statism and the providentialism at the heart of enlightenment social theory While his break with the key tropes of modernity pushed him to the margins of political theory Prichard links Proudhon back into the republican tradition of political thought from which his ideas emerged and shows how his defence of anarchy was a critique of the totalising modernist projects of his contemporaries Given that we are today moving beyond the very statist processes Proudhon objected to his writings present an original take on how to institutionalise justice and order in our radically pluralised anarchic international order Rethinking the concept and understanding of anarchy Justice Order and Anarchy will be of interest to students and scholars of political philosophy anarchism and international relations theory

**Strangers at the Gates** Sidney Tarrow,2012-03-26 This book contains the products of work carried out over four decades of research in Italy France and the United States and in the intellectual territory between

social movements comparative politics and historical sociology Using a variety of methods ranging from statistical analysis to historical case studies to linguistic analysis the book centers on historical catalogs of protest events and cycles of collective action Sidney Tarrow places social movements in the broader arena of contentious politics in relation to states political parties and other actors From peasants and communists in 1960s Italy to movements and politics in contemporary western polities to the global justice movement in the new century the book argues that contentious actors are neither outside of nor completely within politics but rather they occupy the uncertain territory between total opposition and integration into policy

*Politics on a Human Scale* Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder *Politics on a Human Scale* examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path

*Romania In The 1980s* Daniel N. Nelson, 2019-06-04 Among communist states Romania is in several respects a unique case Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania s socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume

containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic

**The Emergence of Globalism** Or Rosenboim, 2017-03-28 How competing visions of world order in the 1940s gave rise to the modern concept of globalism During and after the Second World War public intellectuals in Britain and the United States grappled with concerns about the future of democracy the prospects of liberty and the decline of the imperial system Without using the term globalization they identified a shift toward technological economic cultural and political interconnectedness and developed a globalist ideology to reflect this new postwar reality The Emergence of Globalism examines the competing visions of world order that shaped these debates and led to the development of globalism as a modern political concept Shedding critical light on this neglected chapter in the history of political thought Or Rosenboim describes how a transnational network of globalist thinkers emerged from the traumas of war and expatriation in the 1940s and how their ideas drew widely from political philosophy geopolitics economics imperial thought constitutional law theology and philosophy of science She presents compelling portraits of Raymond Aron Owen Lattimore Lionel Robbins Barbara Wootton Friedrich Hayek Lionel Curtis Richard McKeon Michael Polanyi Lewis Mumford Jacques Maritain Reinhold Niebuhr H G Wells and others Rosenboim shows how the globalist debate they embarked on sought to balance the tensions between a growing recognition of pluralism on the one hand and an appreciation of the unity of humankind on the other An engaging look at the ideas that have shaped today's world The Emergence of Globalism is a major work of intellectual history that is certain to fundamentally transform our understanding of the globalist ideal and its origins

**Creating International Studies** Lucian M. Ashworth, 2017-07-05 Through a critical evaluation of the works of Norman Angell and David Mitrany this book explores the liberal roots of the academic discipline of International Relations IR Ashworth argues that far from being the product of timeless realist truths IR's origins are rooted in liberal attempts to reform international affairs Norman Angell's work represents the first attempt to develop a comprehensive new liberal approach to the problem of global governance while David Mitrany's exploration of the problems of international life led him to apply the left liberal idea of functional government to global governance Both writers demonstrated the extent to which early twentieth century liberal writers on international affairs had answered the critics of earlier nineteenth century liberal internationalists The penultimate chapter argues that the realist idealist Great Debate never happened and that liberal scholars such as Angell and Mitrany have been unfairly dismissed as idealists The final chapter evaluates the writings of Angell and Mitrany and claims that the works of both authors can be criticised for theoretical weaknesses common to the liberal paradigm

*A History of Modern Political Thought in East Central Europe* Balázs Trencsényi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, Maciej Janowski, 2018-10-18 A History of Modern Political Thought in East Central Europe is a synthetic

work authored by an international team of researchers covering twenty national cultures and 250 years. It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses. Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such. The present volume is a sequel to Volume I *Negotiating Modernity in the Long Nineteenth Century*. It begins with the end of the Great War depicting the colorful intellectual landscape of the interwar period and the increasing political and ideological radicalization culminating in the Second World War. Taking the war experience both as a breaking point but in many ways also a transmitter of previous intellectual traditions, it maps the intellectual paradigms and debates of the immediate postwar years marked by a negotiation between the democratic and communist agendas as well as the subsequent processes of political and cultural Stalinization. Subsequently the post Stalinist period is analyzed with a special focus on the various attempts of de Stalinization and the rise of revisionist Marxism and other critical projects culminating in the carnivalesque but also extremely dramatic year of 1968. This volume is followed by Volume II *Negotiating Modernity in the Short Twentieth Century and Beyond Part II 1968-2018*.

*Greener Pastures* Arun Agrawal, 1999. Uses the case of India's migrant shepherds to critique the social science understanding of markets, states and communities.

*The Failure of Agrarian Capitalism* Niek Koning, 2002-01-04. Agriculture is a highly sensitive industry. Throughout their history, national governments have intervened in and protected their agricultural sectors. The problems of competition in agriculture have been continually illustrated by disagreement over the European Community's Common Agricultural Policy (CAP) and more recently by attempts to reform farming policy in the last round of the GATT negotiations. *The Failure of Agrarian Capitalism* presents a comparative analysis of agrarian policies in the UK, Germany, the Netherlands and the USA from 1846-1919.

*Eastern Europe and the Challenges of Modernity, 1800-2000* Stefano Bianchini, 2015-03-02. This book presents a concise and comprehensive overview of the mainstream flows of ideas, politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration. Unlike other books on the subject which view modernity based on the idea of Western European supremacy, this book outlines the various

different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform

Beyond Balkanism Diana Mishkova, 2018-07-17 In recent years western discourse about the Balkans or balkanism has risen in prominence Characteristically this strand of research sidelines the academic input in the production of western representations and Balkan self understanding Looking at the Balkans from the vantage point of balkanism has therefore contributed to its further marginalization as an object of research and the evisceration of its agency This book reverses the perspective and looks at the Balkans primarily inside out from within the Balkans towards its self and the outside world where the west is important but not the sole referent The book unravels attempts at regional identity building and construction of regional discourses across various generations and academic subcultures with the aim of reconstructing the conceptualizations of the Balkans that have emerged from academically embedded discursive practices and political usages It thus seeks to reinstate the subjectivity of the Balkans and the responsibility of the Balkan intellectual elites for the concept and the images it conveys The book then looks beyond the Balkans inviting us to rethink the relationship between national and transnational self representation and the communication between local and exogenous Western Central and Eastern European concepts and definitions more generally It thus contributes to the ongoing debates related to the creation of space and historical regions which feed into rethinking the premises of the new area studies

Beyond Balkanism The Scholarly Politics of Region Making will interest researchers and students of transnationalism politics historical geography border and area studies
