Marx On Classical Antiquity Problems Of Historical Methodology:

Marx on Classical Antiquity Padelis Lekas,1988-01-01 **Marx and Weber on Oriental Societies** Lutfi Sunar,2016-05-06 The Orient was central to the work of Marx and Weber both figures building their theories around the question of why modernity appeared to emerge only in the West While Marx s account focused on the accumulation of capital in the West Weber s explanation for this phenomenon centred on Western rationalization Extending recent work comparing the social theories of Marx and Weber this book examines their approaches to Oriental societies showing how in spite of the differences in their respective theorizations of the historical and political development of the West their work on the form of modern society in the Orient converges each complementing the other Fully conversant with recent scholarly work on Marx and Weber this comprehensive re examination of the points of convergence and departure in their work requires us to re evaluate both their positions in the history of sociology and their relevance to contemporary social questions As such it will appeal to scholars of social and political theory and classical sociology Late Ancient Christianity Virginia Burrus,2010-03-01 The particular excitement of this volume lies in its focus on the everyday realities of Christians lives in the era of Christian ascendancy and Roman decline Popular fiction childrearing and toys rituals of inclusion the beginning of veneration of saints and shunning of heretics the ascetic impulse food practices all these and more lend color and texture to the story of a people s Christianity in this formative stage *The Study of History* ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided Companion to Historiography Michael Bentley,2006-02-27 The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives Contributed by a distinguished panel of academics each essay conveys in direct jargon free language a genuinely international wide angled view of the ideas traditions and institutions that lie behind the contemporary urgency of world history **Engels After Marx** Manfred B. Steger,Terrell Carver,2010-11-01 **Companion to Historiography** Michael Bentley,2006-02-27 This Companion presents a clear thematic overview of historiography explored through a series of stimulating and wide ranging articles Compiled by experts in the field the Companion is fully indexed for ease of access **The Western Time of Ancient History** Alexandra Lianeri,2011-03-31 This book examines the conceptual and temporal frames through which modern Western historiography has linked itself to classical antiquity In doing so it articulates a genealogical problematic of what history is and a more

strictly focused reappraisal of Greek and Roman historical thought Ancient ideas of history have played a key role in modern debates about history writing from Kant through Hegel to Nietzsche and Heidegger and from Friedrich Creuzer through George Grote and Theodor Mommsen to Momigliano and Moses Finley yet scholarship has paid little attention to the theoretical implications of the reception of these ideas The essays in this collection cover a wide range of relevant topics and approaches and boast distinguished authors from across Europe in the fields of classics ancient and modern history and the theory of historiography

Workers and Labour in a Globalised Capitalism Maurizio Atzeni, 2013-11-25 An introduction to work and society for undergraduate and postgraduate students This new text brings together international experts on work and employment from a range of disciplines to debate key themes and issues related to work in a globalised economy

Studies on Pre-Capitalist Modes of Production, 2015-08-28 In Studies on Pre Capitalist Modes of Production British and Argentinian historians analyse the Asiatic Germanic peasant slave feudal and tributary modes of production by exploring historical processes and diverse problems of Marxist theory The emergence of feudal relations the origin of the medieval craftsman the functioning of the law of value and the conditions for historical change are some of the problems analysed The studies treat an array of pre capitalist social formations Chris Wickham works on medieval Iceland and Norway John Haldon on Byzantium Carlos Garc a Mac Gaw on the Roman Empire Andrea Zingarelli on ancient Egypt Carlos Astarita and Laura da Graca on medieval Le n and Castile and Octavio Colombo on the Castilian later Middle Ages Contributors include Chris Wickham John Haldon Carlos Astarita Carlos Garc a Mac Gaw Octavio Colombo Laura da Graca and Andrea Zingarelli

Heresy in the University Jacques Berlinerblau, 1999 One of the most controversial books to come out of the academy in the last fifteen years is Martin Bernal s Black Athena It has been a true cause celebre Afrocentrists have both praised the book and claimed that Bernal stole from the work of black scholars to create his study of the Afroasiatic roots of classical civilization Classicists feel passionately about what they perceive as an attack from an outsider on the origins not only of ancient Greece but of their own discipline It seems that everyone has something to say about the book the question is how many really understand it In Heresy in the University Jacques Berlinerblau provides an exegesis of the contents of Black Athena making it accessible to a wider audience As he clarifies and restates Bernal s opus Berlinerblau identifies Bernal s flaws in reasoning and gaps in evidence He cuts to the heart of Bernal s prose singling out the key points of Bernal s argument explaining and arranging them in a cogent manner Berlinerblau addresses the critics really important objections including his own and links each of them to the appropriate substantive argument in Black Athena He goes beyond simple summary and exposition to present the underlying stated and unstated agendas of Bernal and his critics Ultimately he exposes both sides and asks what the flawed reasoning from all concerned reveals about the stakes in this key academic dispute and what that in turn says about the modern academy Jacques Berlinerblau is an assistant professor and director of Judaic studies at Hofstra University

Capitalism, Citizenship and the Arts of Thinking Kathryn Dean, 2014-03-26 Capitalism

Citizenship and the Arts of Thinking proposes a historical materialist ethic of human flourishing understood in terms of the practice of citizenship. It focuses on the ways in which capitalism's necessary mode of thinking—analytical thinking—impedes the nurturing of capabilities for citizenship as understood from a Marxian Aristotelian point of view. It includes a systematic discussion of the Aristotelian resonances in Marx's critique of capitalism as well as an elaboration and critique of Alfred Sohn-Rethel's account of the origins of analytical thinking in his book *Intellectual and Manual Labor: A Critique of Epistemology*. Dean's critique of this book draws on the language theories of Lev Vygotsky, Alexander Luria, Jack Goody, Eric Havelock, and Walter Ong so as to identify the origins of analytical thinking in literacy rather than in monetised exchange relations as claimed by Sohn-Rethel. Having traced the development of analytical thinking so as to bring out the ways in which this thinking was a condition of possibility for the division of head and hand in nineteenth-century England, Dean brings the analysis into the contemporary world by examining the changes effected by digitalised communication in terms of citizenship capabilities now drawing on the work of Michael Hardt and Antonio Negri in order to do so. The book's ground-breaking content is in the fusion of Marxian Aristotelian and linguistic elements to develop a critique of capitalism's hegemonic mode of thinking—analytical thinking—as manifested in the modern sciences and to show how the draining of intelligibility from the everyday world permitted by this thinking becomes an obstacle to the practice of meaningful citizenship. Its main appeal will be to Marxist thinkers whose main concern is with the alienating as opposed to exploitative character of capitalist modes of life. It is written to complement the work of such Marxists; these being in the main writers such as Michael Hardt and Antonio Negri and is pitched at researchers in the field. It could be used on postgraduate courses in political theory as well as social and cultural theory.

Classical Horizons George E. McCarthy, 2012-02-01 2003 CHOICE Outstanding Academic Title This work relocates the origins of nineteenth-century social theory in classical Greece and focuses on three figures: Karl Marx, Max Weber, and Émile Durkheim, all of whom wrote dissertations on the culture and structure of ancient society. Greek philosophy, art, and politics inspired their ideas, stirred their imaginations, and defined their intellectual horizons. McCarthy rediscovers the forgotten dreams and classical horizons of these European social theorists and uncovers the close connections between sociology and philosophy, offering new insights into the methods, theories, and approaches of modern social science.

A Companion to Greek and Roman Political Thought Ryan K. Balot, 2012-12-26 A COMPANION TO GREEK AND ROMAN POLITICAL THOUGHT Justice, virtue, and citizenship were at the center of political life in ancient Greece and Rome and were frequently discussed by classical poets, historians, and philosophers. This Companion illuminates Greek and Roman political thought in all its range, diversity, and depth. Thirty-four essays from leading scholars in history, classics, philosophy, and political science provide stimulating discussions of classical political thought ranging from the Archaic Greek epics to the final days of the Roman Empire and beyond. These essays strike a judicious yet thought-provoking balance between theoretical and historical perspectives. *A Companion to Greek and Roman Political Thought* is an authoritative guide to the

ancient Greek and Roman political questions that continue to shape and challenge the modern world **Class in Archaic Greece** Peter W. Rose, 2012-01-28 An eclectic Marxist approach reveals the centrality of conflict and ideological struggle in the socio political and cultural changes in Archaic Greece **Environmental Archaeology: Meaning and Purpose** Umberto Albarella, 2013-04-17 Despite the fact that the human life of the past cannot be understood without taking into account its ecological relationships environmental studies are often marginalised in archaeology This is the first book that by discussing the meaning and purpose we give to the expression environmental archaeology investigates the reasons for such a problem This is achieved through the use of theoretical considerations and the aid of a number of case studies which by taking us from Anglo Saxon England to pre Columbian Venezuela and from Classical Greece to late Antique Egypt emphasise the potential of an integrated approach The book is written by archaeologists with different backgrounds and is addressed to all researchers who care about the past relationship between people and the rest of Nature Despite the complexity of some of the issues tackled the book is written in an accessible manner and should be of interest to all students who want to understand the essence of archaeology beyond the boundary of the individual sub disciplines The World Wide Web of Work Marcel van der Linden, 2023-05-09 Global Labour History has rapidly gained ground as a field of study in the 21st century attracting interest in the Global South and North alike Scholars derive inspiration from the broad perspective and the effort to perceive connections between global trends over time in work and labour relations incorporating slaves indentured labourers and sharecroppers housewives and domestic servants Casting this sweeping analytical gaze The World Wide Web of Work discusses the core concepts capitalism and workers and refines notions such as coerced labour household strategies and labour markets It explores in new ways the connections between labourers in different parts of the world arguing that both globalisation and modern labour management originated in agriculture in the Global South and were only later introduced in Northern industrial settings It reveals that 19th century chattel slavery was frequently replaced by other forms of coerced labour and it reconstructs the laborious 20th century attempts of the International Labour Organisation to regulate labour standards supra nationally The book also pays attention to the relational inequality through which workers in wealthy countries benefit from the exploitation of those in poor countries The final part addresses workers resistance and acquiescence why collective actions often have unanticipated consequences why and how workers sometimes organise massive flights from exploitation and oppression and why proletarian revolutions took place in pre industrial or industrialising countries and never in fully developed capitalist societies Money and Exchange Sasan Fayazmanesh, 2006-09-27 This groundbreaking study dispels some of the old myths and conjectures concerning money and exchange and opens up the way for the development of new approaches both realistic and evolutionary **Athens on Trial** Jennifer T. Roberts, 2011-10-23 The Classical Athenians were the first to articulate and implement the notion that ordinary citizens of no particular affluence or education could make responsible political decisions For this reason reactions to

Athenian democracy have long provided a prime Rorschach test for political thought Whether praising Athens's government as the legitimizing ancestor of modern democracies or condemning it as mob rule commentators throughout history have revealed much about their own notions of politics and society In this book Jennifer Roberts charts responses to Athenian democracy from Athens itself through the twentieth century exploring a debate that touches upon historiography ethics political science anthropology sociology philosophy gender studies and educational theory Time of Troubles Roland Boer, Christina Petterson, 2017-05 Economic realities have been increasingly at the center of discussion of the New Testament and early church Studies have tended to be either apologetic in tone or haphazard with regard to economic theory or both either imagining the ancients as involved in primitive economic relationships or else projecting the modern capitalist preoccupation with markets and the enterprising individual back onto first century realities Roland Boer and Christina Petterson blaze a new trail relying on the expansive work on the Roman economy of G E M de Ste Croix who was relatively uninterested in the New Testament however and on the theoretical framework of the Regulation school Theoretically flexible and responsive to historical data Regulation theory gives appropriate regard to the centrality of agriculture in the ancient world and finds economic instability to be the norm except for brief episodes of imposed stability Boer and Petterson find the Roman world in crisis as slavery expands transforming the agricultural economy so that slave estates could supply the needs of the polis Successive chapters describe aspects of the economic crisis in the first century and turn at last to understand the ideological role played by nascent Christianity

Embracing the Melody of Phrase: An Mental Symphony within **Marx On Classical Antiquity Problems Of Historical Methodology**

In some sort of consumed by screens and the ceaseless chatter of immediate conversation, the melodic beauty and psychological symphony created by the published word often fade into the backdrop, eclipsed by the persistent sound and disruptions that permeate our lives. But, situated within the pages of **Marx On Classical Antiquity Problems Of Historical Methodology** a charming fictional treasure brimming with natural emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, that interesting masterpiece conducts visitors on a psychological trip, skillfully unraveling the concealed songs and profound affect resonating within each carefully crafted phrase. Within the depths of the poignant analysis, we shall examine the book is central harmonies, analyze their enthralling publishing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
