Kain,2023 Marx Revolution and Social Democracy argues that Marx should be understood as a social democrat In response to claims that Marx is either totalitarian utopian or not a democrat Philip J Kain presents a four fold argument concerning the relationship between Marx and social democracy that Marxian socialist society is compatible with a market economy as long as markets are controlled to eliminate alienation that markets can be controlled democratically that Marx accepted a democratic electoral theory of revolution and that Marx and Engels worked actively with the Social Democratic Party of Germany Historical Dictionary of Marxism Elliott Johnson,David Walker,Daniel Gray,2014-09-09 The second edition of the Historical Dictionary of Marxism covers of the basics of Karl Marx s thought the philosophical contributions of later Marxist theorists and the extensive real world political organizations and structures his work inspired that is the myriad political parties organizations countries and leaders who subscribed to Marxism as a creed This text includes a chronology an introductory essay and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities both thinkers and doers political parties and movements and major

Thompson, Gregory Smulewicz-Zucker, 2015-09-09 Radical Intellectuals and the Subversion of Progressive Politics is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics *Marx and Ethics* Philip J. Kain, 1988 This book traces the development of Marx's ethics as they underwent various shifts and changes during different periods of his thought In his early writings his ethics are based on a concept of essence much like Aristotle's which Marx tries to link to a principle of universalization similar to Kant's categorical imperative In the period 1845-6 Marx abandoned this view holding morality to be incompatible with his historical materialism In the later writings Marx is less of a determinist and he no longer wants to reject morality However he does want to transcend a morality of burdensome obligation and constraint so as to realize a community built upon spontaneous bonds of solidarity *Marx's Associated Mode of Production* Paresh Chattopadhyay, 2016-07-30 This book aims to restore Marx's original emancipatory idea of socialism conceived as an association of free individuals centered on working people's self emancipation after the demise of capitalism Marxist scholar Paresh Chattopadhyay argues that Marx's and Engels's ideas have been deliberately warped with misinterpretation not only by those who resent these ideas but more consequentially by those who have come to power under the banner of Marx calling themselves communists This book challenges those who have inaccurately revised Marx's ideas justify their own pursuit of political power *Beyond Capitalism: A Comparative Study of Socialism, Communism, and Marxism* Nicklas Nickel, 2024-09-08 Beyond Capitalism A Comparative Study of Socialism Communism and Marxism by Nicklas Nickel offers a thorough exploration of the ideological frameworks that have shaped modern history and continue to influence our world today This compelling and insightful book delves deep into the origins development and practical impact of socialism communism and Marxism providing a nuanced understanding of these complex ideologies Unraveling Ideologies From Historical Origins to Contemporary Relevance Nickel's work is a comprehensive investigation that traces the evolution of these ideologies from their roots in the Industrial Revolution to their manifestations in the 20th and 21st centuries The book examines the philosophical underpinnings historical contexts and societal implications of socialism communism and Marxism offering readers a clear and accessible analysis of their similarities and differences Drawing on historical events and real world examples Beyond Capitalism provides readers with an understanding of how these ideologies emerged as responses to the social and economic changes brought about by industrialization It highlights the key principles that define each ideology and unpacks the debates that surround their

The to Z of Marxism David Walker, Daniel Gray, 2009-08-13 Marxism one of the few philosophies that turned into an effective movement was not so long ago the official ideology in one form or another of much of humanity It was initially promulgated by the Soviet Union then imposed on Central and Eastern Europe later emerged in the People s Republic of China and gradually spread to other parts of Asia Africa and Latin America Although declining in popularity the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world The A to Z of Marxism covers in a comprehensive manner the history of Marxism and its philosophers and schools of thought It contains a chronology a list of acronyms and abbreviations an introductory essay a bibliography and hundreds of cross referenced dictionary entries on basic terms and concepts as well as significant people parties and countries Book Jacket

The Road to Disillusion: From Critical Marxism to Post-communism in Eastern Europe Raymond C. Taras, 2015-02-24 The history of reform movements in postwar Eastern Europe is ultimately ironic inasmuch as the reformers successes and defeats alike served to discredit and demoralize the regimes they sought to redeem The essays in this volume examine the historic and present day role of the internal critics who whatever their intentions used Marxism as critique to demolish Marxism as ideocracy but did not succeed in replacing it Included here are essays by James P Scanlan on the USSR Ferenc Feher on Hungary Leslie Holmes on the German Democratic Republic Raymond Taras on Poland James Satterwhite on Czechoslovakia Vladimir Tismaneanu on Romania Mark Baskin on Bulgaria and Oskar Gruenwald on

Elwell, Brian Andrews, Kenneth S. Hicks, 2020-12-15 Karl Marx A Reference Guide to His Life and Works covers all aspects of his life and works Marx was a philosopher a crusading journalist as well as a political organizer and activist advocating democratic reforms working class political organizations and the establishment of a socialist political order Includes a comprehensive historical timeline of major events involving or related to Marx The A to Z section includes the major events works and concepts related to Marx Bibliography of major works by and about Marx and events surrounding his life and works The index thoroughly cross references the chronological and encyclopedic entries **Marxism and Morality** Nicholas Churchich, 2022-04-28 Not himself a Marxist Dr Churchich has nevertheless won plaudits for this book from those committed to the philosophy It is they acknowledge thoroughly researched well reasoned and balanced in its argument even if that argument is one with which Marxists are bound to disagree being based on the premise that ethical theories must ultimately rest on metaphysical and psychological preconceptions rather than on some imaginary empirical facts The declared aim of this work is to present a full exposition of Marx's and Engels ideas on morality and ethics and to indicate some of their errors and weaknesses Unlike other studies of this subject Churchich analyses all major aspects of morality dealing not only with the writings of Marx himself but also with the works of most writers who have commented on Marxist morality and ethics Marx himself intended to produce a work on social morality but did not manage to do so This book will therefore and without doubt become the standard work on his view of the subject Superior to anything else on the topic written by non Marxists it is clearer on some aspects of Marx's view than the work of some Marxist writers Churchich makes obvious for instance how great was Althusser's mistake in arguing that there is not a grain of normative ethics in mature Marx Yet the author's objectivity allows him also to find values among the ethical arguments of Marx and Engels making this a book which both Marxists and concerned Anglicans would find useful as a criticism of some current social trends It also sounds a cautionary note for those who argue that the collapse of bureaucratic socialism in the former Soviet Union means the end of Marxism too this is by no means Dr Churchich's view **Marxist Ethics within Western Political Theory** N. Fischer, Asher Z Milbauer, 2015-04-09 As widely applied as Marxist theory is today there remain a host of key western thinkers whose texts are rarely scrutinized through a Marxist lens In this philosophical analysis of Marx's never before translated German notes on Machiavelli Montesquieu Rousseau and Lewis Henry Morgan Norman Fischer points to a strain of Marxist ethics that may only be understood in the context of the great works of Western political theory and philosophy particularly those that emphasize the republican value of public spiritedness the communitarian value of solidarity and the liberal values of liberty and equality **Economics in**
