Runes, 2001 *Heideggerian Marxism* Herbert Marcuse, 2005-01-01 The Frankfurt School philosopher Herbert Marcuse 1898 1979 studied with Martin Heidegger at Freiburg University from 1928 to 1932 and completed a dissertation on Hegel s theory of historicity under Heidegger s supervision During these years Marcuse wrote a number of provocative philosophical essays experimenting with the possibilities of Heideggerian Marxism For a time he believed that Heidegger s ideas could revitalize Marxism providing a dimension of experiential concreteness that was sorely lacking in the German Idealist tradition Ultimately two events deterred Marcuse from completing this program the 1932 publication of Marx s early economic and philosophical manuscripts and Heidegger s conversion to Nazism a year later Heideggerian Marxism offers rich and fascinating testimony concerning the first attempt to fuse Marxism and existentialism These essays offer invaluable insight concerning Marcuse s early philosophical evolution They document one of the century s most important Marxist philosophers attempting to respond to the crisis of Marxism the failure of the European revolution coupled with the growing repression in the USSR In response Marcuse contrived an imaginative and original theoretical synthesis existential Marxism Marx, Tocqueville, and Race in America August H. Nimtz Jr., 2003-09-29 While Alexis de Tocqueville described America as the absolute democracy Karl Marx saw the nation as a defiled republic so long as it permitted the enslavement of blacks In this insightful political history Nimtz argues that Marx and his partner Frederick Engels had a far more acute and insightful reading of American democracy than Tocqueville because they recognized that the overthrow of slavery and the cessation of racial oppression were central to its realization Nimtz s account contrasts both the writings and the civil action of Tocqueville Marx and Engels noting that Marx and Engels actively mobilized the German American community in opposition to the slavocracy prior to the Civil War and that Marx heavily supported the Union cause This potent and insightful investigation into the approaches of two major thinkers provides fresh insight into past and present debates about race and democracy in America *Marx s Ecology* John Bellamy Foster, 2000-03 By reconstructing a materialist conception of nature and society Marx s Ecology challenges the spiritualism prevalent in the modern Green movement pointing toward a method that offers more lasting sustainable solutions to the ecological crisis **The Return of Nature** John Bellamy Foster, 2021-06-01 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster s Marx s Ecology Materialism and Nature introduced a new understanding of

Karl Marx's revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with *The Return of Nature: Socialism and Ecology* Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies *The Return of Nature* begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs
