

Malthusian Theory

The Theory

The Concept of Development: He regarded the process of development as a result of consistent efforts rather automatic.

For him the process of eco.dev. Was one of the ups and downs of economic activity rather than smooth.

He was concerned with the progress of wealth of a country means eco. Development.

- Economic Dev. Through increasing the wealth of a country.

- Wealth= Qty. of produce + valuation of the produce.

Population Growth and Economic Dev.

- According to him population growth itself is not sufficient for ece.development.

- Economic Dev. =Population growth +development process.

- Increase in population is the result of proportionate increase in wealth. Because increase in K accumulation demands more labor thus more population. And population growth increases wealth through effective demand.

- Hence mere increase in pop. growth does not increase wealth.
