Shamsul Haque, 1999-09-09 Explains and critiques current theories of political development **Marx for the 21st Century** Hiroshi Uchida, 2004-08-02 This book testifies that the economic thinking of Karl Marx is still valid for the 21st century introducing readers to unknown materials buried in archives which portray Marx's attitudes to democracy **Development and Democratization in the Third World** Kenneth España Bauzon, 1992 Examines the prospects for democratization in the developing world The book draws upon ideas of widespread socioeconomic well being human rights the distribution of resources and population and the environment *Marx and Weber on Oriental Societies* Lutfi Sunar, 2016-05-06 The Orient was central to the work of Marx and Weber both figures building their theories around the question of why modernity appeared to emerge only in the West While Marx's account focused on the accumulation of capital in the West Weber's explanation for this phenomenon centred on Western rationalization Extending recent work comparing the social theories of Marx and Weber this book examines their approaches to Oriental societies showing how in spite of the differences in their respective theorizations of the historical and political development of the West their work on the form of modern society in the Orient converges each complementing the other Fully conversant with recent scholarly work on Marx and Weber this comprehensive re-examination of the points of convergence and departure in their work requires us to re-evaluate both their positions in the history of sociology and their relevance to contemporary social questions As such it will appeal to scholars of social and political theory and classical sociology **Marx for a Post-Communist Era** Stefan Sullivan, 2005-07-25 Was Marxism a variety of German Idealist self-actualization in economic form A deeply flawed blueprint for social engineering A catechism for post-colonial insurgencies the intellectual foundations of modern social democracy In this wide-ranging summation Sullivan tackles the multi-tentacled reach of Marx's legacy and explores both the limits and the lasting significance of his ideas Structured around three obstacles to freedom poverty corruption and banality the work engages both Marx and his critics in addressing unresolved issues of the current social and political order As such the work after two introductory chapters leaves behind Marxology and its familiar cast of characters Bernstein Kautsky Adorno Lukacs Fanon Horkheimer Marcuse etc to address both neo-Marxist and non-Marxist interpretations of these obstacles These include growth-led poverty alleviation human capital theory current debates on rent seeking and public choice theory weaknesses in Frankfurt School approaches to mass culture and emerging

Chilcote, 2012-12-06 This book brings together important essays by distinguished scholars who have devoted past attention to the study of imperialism and development. It complements an anthology of previously published essays that brings together important theoretical perspectives around the issues and debates on these themes; this volume will be published by Humanity Press forthcoming. Both projects relate to a lengthy chapter, Theories of Imperialism, which will be published in my book Theories of Comparative Political Economy Forthcoming. These projects represent a culmination of many years of teaching in both economics and political science. During that time I taught two political science courses on development and underdevelopment but I was unable to convince my colleagues of the usefulness of a course on imperialism that linked historical issues and debates with the more recent developmental literature. When in 1990 I was welcomed into economics, my colleagues endorsed a graduate seminar on the political economy of imperialism. Thus this volume evolved out of that experience in an effort to encourage new analysis that reflects retrospectively on past contributions as well as the prospects for imperialism and development in the contemporary world. **Globalization and Transnational Capitalism in Asia and Oceania** Jeb Sprague, 2015-12-15

News headlines warn of rivalries and competing nations across Asia and the Pacific even as powerful new cross border relations form as never before. This book looks behind the Asia Pacific curtain at the new forms of social economic and political integration taking place through a global capitalism that is rife with contradictions, inequality and crisis. We are moved beyond traditional conceptualizations of the inter state system with its nation state competition as the core organizing principle of world capitalism and the principal institutional framework that shapes the makeup of global social forces. These important studies examine and debate over how there is a growing transnationality of material economic relations in the global era as well as an emerging transnationality of many social and class relations. How

does transnational capitalist class fractions new middle strata and labor undergird globalization in Asia and Oceania How have states and institutions become entwined with such processes This book provides insight into a field of dynamic change
