Marxism And The Modern State An Analysis Of Fetishism In Capitalist Society:

Marxism and the Modern State David Wells, 1981 *Democracy and the Capitalist State* Graeme Campbell

Duncan, 1989-03-02 This book examines one of the key issues in the analysis of the capitalist state its relationship with democracy To what extent can a capitalist state be democratised Where and how do democratic institutions intervene in the management and control of capitalism These questions and more are the subject of this book **Critical Companion to**

Contemporary Marxism Jacques Bidet, 2008 International and interdisciplinary in range and scope the Critical Companion to Contemporary Marxism provides a thorough and precise panorama of recent developments in Marxist theory in the US Europe and beyond **The Political Ecology of the State** Antonio Augusto Rossotto Ioris, 2014-03-26 The contemporary

state is not only the main force behind environmental change but the reactions to environmental problems have played a crucial role in the modernisation of the state apparatus especially because of its mediatory role The Political Ecology of the State is the first book to critically assess the philosophical basis of environmental statehood and regulation addressing the emergence and evolution of environmental regulation from the early twentieth century to the more recent phase of ecological modernisation and the neoliberalisation of nature The state is understood as the result of permanent socio-natural interactions and multiple forms of contestation from a critical politico-ecological approach This book examines the tension between pro and anti-commons tendencies that have permeated the organisation and failures of the environmental responses put forward by the state It provides a reinterpretation of the achievements and failures of mainstream environmental policies and regulation and offers a review of the main philosophical influences behind different periods of environmental statehood and regulation It sets out an agenda for going beyond conventional state regulation and grassroots dealings with the state and as such redefines the environmental apparatus of the state **The Magical State** Fernando Coronil, 1997-11-10 In

1935 after the death of dictator General Juan Vicente Gómez Venezuela consolidated its position as the world's major oil exporter and began to establish what today is South America's longest lasting democratic regime Endowed with the power of state oil wealth successive presidents appeared as transcendent figures who could magically transform Venezuela into a modern nation During the 1974-78 oil boom dazzling development projects promised finally to effect this transformation Yet now the state must struggle to appease its foreign creditors counter a declining economy and contain a discontented citizenry In critical dialogue with contemporary social theory Fernando Coronil examines key transformations in Venezuela's polity culture and economy recasting theories of development and highlighting the relevance of these processes for other postcolonial nations The result is a timely and compelling historical ethnography of political power at the cutting edge of interdisciplinary reflections on modernity and the state **Fictions of State** Patrick Brantlinger, 2019-06-30 In this

ambitious book Patrick Brantlinger offers a cultural history of Great Britain focused on the concept of public credit from the 1694 founding of the Bank of England to the present He draws on literary texts ranging from Augustan satire such as

Gulliver's Travels to postmodern satire such as Martin Amis's Money A Suicide Note All critique the misrecognition of public credit as wealth The economic foundations of modern nation states involved national debt public credit and paper money Brantlinger traces the emergence of modern imperial Great Britain from those foundations He analyzes the process whereby nationalism both the cause and the result of wars and imperial expansion multiplied national debt and produced crises of public credit resolved only through more nationalism and war During the first half of the eighteenth century conservatives attacked public credit as fetishistic and characterized national debt as alchemical From the 1850s the stabilizing theories of public credit authored by David Hume Adam Smith Henry Thornton and others helped initiate the first social science economics In the nineteenth century literary criticism both paralleled and questioned early capitalist discourse on public credit and nationalism while the Victorian novel refigured debt as the individual private credit and debt During the era of high modernism and Keynesian economics the notion of high culture as genuine value recast the debate over money and national indebtedness Brantlinger relates this cultural historical trajectory to Marxist poststructuralist and postcolonial theories about the decline of the European empires after World War II the global debt crisis and the weakening of western nation states in the postmodern era *Class, Politics and the Economy (Routledge Revivals)* Stewart Clegg, Paul Boreham, Geoff Dow, 2014-11-06 This study first published in 1986 provides a systematic account of the processes and structure of class formation in the major advanced capitalist societies The focus is on the organizational mechanisms of class cohesion and division theoretically deriving from a neo Marxian perspective Chapters consider the organization and structure of the corporate ruling class the middle class and the working class and are brought together in an overarching analysis of the organization of class in relation to the state and the economy This title will be of particular interest to students researching the impact of recession on societal structure and the processes of political class struggle as well as those with a more general interest in the socio economic theories of Marx Engels and Weber **The Modern State** Erika Cudworth, Timothy Hall, John McGovern, 2007 An accessible introduction to a wide range of theoretical perspectives on the modern state and a comprehensive overview of modern state theory Debates for the Digital Age Danielle Sarver Coombs, Simon Collister, 2015-11-23 By evaluating the Internet's impact on key cultural issues of the day this book provides a comprehensive overview of the seismic technological and cultural shifts the Internet has created in contemporary society Books about Internet culture usually focus on the people places sites and memes that constitute the cutting edge at the time the book is written That approach alas renders such volumes quickly obsolete This provocative work on the other hand focuses on overarching themes that will remain relevant for the long term The insights it shares will highlight the tremendous impact of the Internet on modern civilization and individual lives well after specific players and sites have fallen out of favor Content is presented in two volumes The first emphasizes the positive impact of Internet culture for example 24 hour access to information music books merchandise employment opportunities and even romance The second discusses the

Internet's darker consequences such as a demand for instant news that often pushes journalists to prioritize being first over being right online scams and invasions of privacy that can affect anyone who banks shops pays bills or posts online Readers of the set will clearly understand how the Internet has revolutionized communications and redefined human interaction coming away with a unique appreciation of the realities of today's digital world for better and for worse

Ideology and False Consciousness Christopher L. Pines, 1993-07-01 In this book Christopher Pines demonstrates that Karl Marx conceived of ideology as false consciousness He shows how the different meanings of false consciousness found in the writings of Marx and Engels reflect the influence of the views of the Baconian French Enlightenment and of Hegelian Feuerbachian philosophies Pines argues that for Marx the diverse senses of false consciousness all generally denote a social consciousness that takes certain false things to be true regarding matters of significance to class divided societies

Material Culture In The Social World Dant, Tim, 1999-08-01 This engaging book draws on established theoretical work including that of Simmel Marx McLuhan Barthes and Baudrillard as well as a range of contemporary empirical work from many humanities disciplines It uses ideas drawn from this work to explore how we interact with objects in our everyday lives These are not merely functional relationships with things but are connected to the way we relate to other people and the culture of the particular society we live in they are social relations

Territorial Disputes and State Sovereignty Jorge E. Núñez, 2020-05-11 Adopting a multi disciplinary approach this book opens new ground for research on territorial disputes Many sovereignty conflicts remain unresolved around the world Current solutions in law political science and international relations generally prove problematic to at least one of the agents part of these differences Arguing that disputes are complex multi layered and multi faceted this book brings together a global inter disciplinary view of territorial disputes The book reviews the key conceptual elements central to legal and political sciences with regards to territorial disputes state sovereignty and self determination Looking at some of the current long standing disputes worldwide it compares and contrasts the many issues at stake and the potential remedies currently available in order to assess why some territorial disputes remain unresolved Finally it offers a set of guidelines for dispute settlement and conflict resolution that current remedies fail to provide It will appeal to students and scholars working in international relations legal theory and jurisprudence public international law and political sciences

Religious Politics in Turkey Ceren Lord, 2018-11-08 Since the elections of 2002 Erdogan's AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP's rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state's utilisation of religion Tracing struggles within the state Lord also shows how the state's principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim

access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation
