Marxism At Work Ideology Class And French Socialism During The Third Republic:

Marxism at Work Robert Stuart,2002-05-02 This book examines the socialists who introduced Marxism to France in the decades before the First World War

Marxism and National Identity Robert Stuart,2006-06-01 Provides the first sustained analysis of the collision between Marxism and nationalism in France at the time of the Dreyfus affair

Communist Insurgent Doug Enaa Greene,2017-10-02 In the revolutionary tradition the name of Louis Blanqui is either remembered with derision or as a noble failure Yet during his lifetime Blanqui was a towering figure of revolutionary courage and commitment as he organized nearly a half dozen failed revolutionary conspiracies and spent half of his life in jail This is Blanqui s story

Industrialization and Imperialism, 1800-1914 Jeffrey A. Bell,2002-11-30 This book presents an age of nationalism imperialism modernization industrialism and great cultural achievement stretching from 1800 when Europe was awash in the wake of the French Revolution the reign of terror and the coming rise of Napoleon to Archduke Franz Ferdinand s assassination in 1914 Concise biographical entries provide basic information on the great talents of the era Beethoven the Romantic poets Hegel as well as leaders in the modernization and industrialization of Western culture Included are figures who played major roles on the imperialist and nationalist stage those such as Darwin and Planck who made significant contributions to science and those who struggled for women s rights and Abolition in the United States

Jules Guesde Jean-Numa Ducange,2020-04-27 What explains France s unique Left Many works have reflected upon the importance of Marxism in France yet few studies have been devoted to the man who did most to introduce Marxism into its political culture the today near forgotten figure of Jules Guesde It was with Guesde that Karl Marx drafted the world s first Marxist program and Guesde who aroused the enthusiasm of countless worker militants who saw him as their most important leader Jules Guesde represents the first book length study of the French socialist leader translated into the English language For the radical Left today Guesde is often considered a dogmatist who supported the Union sacr e during World War I and rejected the Bolshevik revolution for the governmental Left he embodies an intransigent ideologue who held back the modernization of the French Left Throughout Jules Guesde Jean Numa Ducange argues that it is impossible to study the history of the French socialist movement without a close look at this singular figure and offers a fuller picture of the deep transformations of the Left and Marxism in France from the late 19th century up to the present This scholarly biography of Jules Guesde seeks to put Guesde s record on a properly historical footing closely analysing both archival sources and accounts by his contemporaries Chapter One begins with his early life and the mark left on him by the Paris Commune and exile Chapter Two emphasises Guesde s importance as leader of a distinct current of French socialism recognised by figures like Karl Marx and Friedrich Engels Chapter Three sees Guesde become an MP for working class Roubaix exploring the contradictions between his revolutionary rhetoric and concrete political practice Chapter Four turns to the years following his electoral defeat in 1898 and his renewed intransigence in the period of the Dreyfus affair and rivalry with Jaur s Chapter

Five explores his key role in the formation of a united Socialist Party Chapter Six examines the test of World War I and Guesde's anguish at the divisions of French socialism The book then concludes with an examination of Guesde's contested legacy as both a founding father and figure subject to often pejorative framings Revolutionary Thought after the Paris Commune, 1871-1885 Julia Nicholls, 2019-07-18 The first comprehensive account of revolutionary and socialist thought after the 1871 Paris Commune France's last nineteenth century revolution The Invention of Decolonization Todd Shepard, 2006 Contenido Muslim French citizens from Algeria a short history Inventing decolonization The tide of history versus the laws of the republic Forgetting French Algeria Making Algerians Repatriation rather than aliyah the Jews of France and the end of French Algeria Veiled Muslim women violent pied noir men and the family of France gender sexuality and ethnic difference Repatriating the Europeans Rejecting the Muslims The post Algerian republic Conclusion forgetting Algerian France

State-making and Labor Movements Gerald Friedman, 1998 This study of the evolution of labour movements in the US and France from 1876 to 1914 illuminates the turn to syndicalism in France and craft unionism in the USA and the impact each form of unionization had on the shaping of the French and the US states *The Making of Capitalism in France* Xavier Lafrance, 2019-02-25 Very few authors have addressed the origins of capitalism in France as the emergence of a distinct form of historical society premised on a new configuration of social power rather than as an extension of commercial activities liberated from feudal obstacles Xavier Lafrance offers the first thorough historical analysis of the origins of capitalist social property relations in France from a political Marxist or Capital centric Marxist perspective Putting emphasis on the role of the state *The Making of Capitalism in France* shows how the capitalist system was first imported into this country in an industrial form and considerably later than is usually assumed This work demonstrates that the French Revolution was not capitalist and in fact consolidated customary regulations that formed the bedrock of the formation of the working class

The Rise and Decline of the Male Breadwinner Family? Angélique Janssens, 1998-04-09 The essays look at the origins and expansion of different patterns of breadwinning **The Invention of Marxism** Christina Morina, 2023 *The Invention of Marxism* shows how a theory of the capitalist system grew into a political philosophy that shaped the history of the twentieth century in extremely destructive as well as productive ways how an idea conquered the world A Companion to Modern European History Martin Pugh, 1997-10-22 Its sixteen thematic chapters each written by an expert in the field cover social and economic developments the rise and fall of all the major political movements as well as the immense changes generated by war and international diplomacy across Europe **France 1870-1914** Robert Gildea, 2014-07-15 The period 1870-1914 in France saw the consolidation of republican government and the recovery of national self confidence Though political crises such as the Dreyfus Affair threatened to tear it apart the Republic established firm parliamentary rule built up an Empire and an army which was to see it through the Great War The new edition of this key text first published as *The Third Republic* From 1870 to 1914 offers a clear introduction to the period and incorporates the latest research *In the Footsteps of Flora*

Tristan Máire Fedelma Cross,2020-09-03 *In the Footsteps of Flora Tristan* is the first ever study devoted to Jules Puech 1879 1957 and is a double biography that examines his life s work on Flora Tristan 1803 1844 feminist and socialist It begins by examining newly found press reports of Flora Tristan during her lifetime and subsequently then positions Puech s discovery of her as a postgraduate student in Paris in the 1900s It continues with an account of how he embarked on the first in depth biography published in 1925 Puech was unmatched in his expertise as a writer on Flora Tristan having discovered her papers through his numerous political connections and having become a historian of Proudhon s legacy on the international aspirations of the labour movement Together with his wife Marie Louise Puech ne Milhau 1876 1966 suffragist feminist he was a militant in the early twentieth century pacifist movement that advocated international arbitration His research on Flora Tristan was enriched by his other projects but was thwarted by the wars of 1914 1918 and 1940 1945 The circumstances of the long gestation of Puech s biography are drawn from his letters and papers hitherto unseen The correspondence curated brings a new understanding to the multi faceted nature of Puech s activism and rate of progress in the publication of his findings on his subject Flora Tristan

Hendrik de Man and Social Democracy Tommaso Milani,2020-06-15 The book investigates the intellectual and political trajectory of the Belgian theorist Hendrik de Man 1885 1953 by examining the impact that his works and activism had on Western European social democracy between the two world wars Based on multinational archival research the book highlights how the idea of economic planning became part of a wider effort to address an ideological crisis within the socialist movement and revitalise the latter amidst the Great Depression A heavily controversial figure also because of his subsequent involvement in Belgian wartime collaboration de Man played a pivotal role in challenging traditional Marxist assumptions about the role of the state under capitalism and in promoting transnational exchanges between unorthodox social democrats across Europe Starting from de Man s experience in World War I the book analyses his departure from Marxism his elaboration of an alternative social democratic paradigm his entry in Belgian politics as well as the reception of his thought in France and Britain

Bourgeois Europe, 1850-1914 Jonathan Sperber,2022-07-19 Now in its second edition *Bourgeois Europe 1850 1914* is a general history of Europe from the middle of the nineteenth century to the outbreak of the First World War a successor to *Revolutionary Europe 1780 1850* also available from Routledge The book offers wide geographic coverage of the European continent from the Arctic Circle to the Mediterranean and from the Atlantic to the Urals Topical coverage is equally broad including major trends and events in international relations and domestic politics in social and gender structures in the economy and in the natural and social sciences the humanities religion and the arts For this second edition the text has been completely revised the latest directions in historical research considered the further reading brought up to date and special attention has been paid to Europe s global interactions with the rest of the world and the structures and norms of gender relations Tables charts maps and other explanatory features help students explore further in the areas that interest them Written in sprightly jargon free

clear prose the book is ideal for use as a text in secondary school or university courses as well as for general readers wishing to gain an overview of a crucial era of modern European history **Toronto's Poor** Bryan D. Palmer, Gaétan

Héroux, 2016-11-23 *Toronto's Poor* reveals the long and too often forgotten history of poor people's resistance. It details how people without housing, people living in poverty and unemployed people have struggled to survive and secure food and shelter in the wake of the many panics, downturns, recessions and depressions that punctuate the years from the 1830s to the present. Written by a historian of the working class and a poor people's activist, this is a rebellious book that links past and present in an almost two hundred year story of struggle and resistance. It is about men, women and children relegated to lives of desperation by an uncaring system and how they have refused to be defeated. In that refusal and in winning better conditions for themselves, *Toronto's poor* create the possibility of a new kind of society, one ordered not by acquisition and individual advance but by appreciations of collective rights and responsibilities **The Letter in Flora Tristan's Politics, 1835-1844** Máire Fedelma Cross, 2004-04-19

This innovative study analyzes Flora Tristan's correspondence with militant republicans, socialists and democrats active in the July Monarchy. It examines the role of the letter in fostering links at a time of a significant growth of literacy and search for citizenship by the disenfranchised. Combining a gendered analysis of socialist movements with a textual analysis of letters, it illustrates the vitality of political tensions in Tristan's communications and the sophistication of political networks on the eve of the 1848 revolution **Rosa Luxemburg in Action** Rosemary H.

T. O'Kane, 2014-11-20 Neither a work concerned only with her Marxist writings nor a personal biography concerned with her private life, this book examines Rosa Luxemburg's ideas on revolution and democracy and how the two are bound together by her views on the importance of political action. Stretching historically from 1863 to the present, this book covers in great detail the history and developments within the German SPD during her time, the 1905 and 1917 Russian Revolutions, the German Revolution, the outbreak of World War I and the imperialism that fuelled it. It then moves on to consider political and historical developments after her death and examines her arguments on revolution and democracy in the light of the post-revolutionary government in Nicaragua, the one violent revolution that sought to establish social democracy but failed. Also covered are aspects of Rosa Luxemburg's life, her important writings and actions, the relevant Marxist debates in which she was involved, including for example Bernstein's arguments on social democracy through reform and with Lenin on revolutionary organization. A welcomed and timely collection presenting an important examination of the political and social context in which Luxemburg developed her activities and views and a complete understanding of the history of social democracy, the revolutionary times of a century ago and the relevance of their events and ideas for more recent revolutions for democracy in the twenty-first century **Lenin Rediscovered** Lars T. Lih, 2006

This commentary to Lenin's landmark *What is to be Done* 1902 provides hitherto unavailable contextual information about Lenin's outlook and aims that undermines previous interpretations. It challenges established views about Marxism, revolutionary Social Democracy and

Bolshevism
