## **Marxism An Historical And Critical Study:**

**Marxism, an Historical and Critical Study** George Lichtheim, 1965 Marxism presents an authoritative analytic survey of the course of Marxism from its origins in the late eighteenth century through the post World War II period A classic of political history this work is the culminating achievement of one of the leading historians of socialism *Marxism (RLE Marxism)* George Lichtheim, 2015-03-22 This book first published in 1961 and revised in 1964 is both a critical study of a body of thought and an historical account of how Marxist theory arose from the context of European history in the 19th century It traces the development of socialist thought from the French to the Russian Revolutions and attempts to show in what manner the political and intellectual problems of Central Europe between 1848 and 1948 came to dominate the theory and practice of that Marxist movement which formed the crucial link between the two revolutions The author takes the view that Marxism is a movement and a body of doctrine which belongs essentially to the 19th century which came to an end with the First World War and the Russian Revolution and that its impact as a doctrine has now been absorbed *Marxism* Nathaniel Hawthorne, 1964 **Marxism, an Historical and Critical Study** George Lichtheim (politologue.), 1971

Marxism, Revolution and Utopia Herbert Marcuse, 2014-03-26 This collection assembles some of Herbert Marcuse's most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse's collected papers shows Marcuse's rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society Marcuse's later philosophical perspectives on technology ecology and human emancipation sat at odds with many of the classic tenets of Marx's materialist dialectic which placed the working class as the central agent of change in capitalist societies As the material from this volume shows Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty first century A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse's philosophy in the context of his engagement with the main currents of twentieth century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society The volume concludes with an afterword by Peter Marcuse An Anthropology of Marxism Cedric J. Robinson, 2019-01-18 An Anthropology of Marxism offers Cedric Robinson's analysis of the history of communalism that has been claimed by Marx and Marxists Suggesting that the socialist ideal was embedded both in Western and non Western civilizations and cultures long before the opening of the modern era and did not begin with or depend on the existence of capitalism Robinson interrogates the social cultural institutional and historical materials that were the seedbeds for communal modes of living and reimagining society Ultimately it pushes back against Marx's vision of a better

society as rooted in a Eurocentric society and cut off from its own precursors Accompanied by a new foreword by H L T Quan and a preface by Avery Gordon this invaluable text reimagines the communal ideal from a broader perspective that transcends modernity industrialization and capitalism

**Marxism and the Philosophy of Science** Helena

Sheehan,2018-01-23 A masterful survey of the history of Marxist philosophy of science Sheehan retraces the development of a Marxist philosophy of science through detailed and highly readable accounts of the debates that shaped it Skilfully deploying a large cast of characters Sheehan shows how Marx and Engel s ideas on the development and structure of natural science had a crucial impact on the work of early twentieth century natural philosophers historians of science and natural scientists With a new afterword by the author *Karl Marx's Economics* John Cunningham Wood,1993 *Marx and Weber on Oriental Societies* Lutfi Sunar,2016-05-06 The Orient was central to the work of Marx and Weber both figures building their theories around the question of why modernity appeared to emerge only in the West While Marx s account focused on the accumulation of capital in the West Weber s explanation for this phenomenon centred on Western rationalization Extending recent work comparing the social theories of Marx and Weber this book examines their approaches to Oriental societies showing how in spite of the differences in their respective theorizations of the historical and political development of the West their work on the form of modern society in the Orient converges each complementing the other Fully conversant with recent scholarly work on Marx and Weber this comprehensive re examination of the points of convergence and departure in their work requires us to re evaluate both their positions in the history of sociology and their relevance to contemporary social questions As such it will appeal to scholars of social and political theory and classical sociology

represents gains in importance daily      **Marx and Critical Theory** Emmanuel Renault, 2018-08-13 Marx and Critical Theory examines Marx's main philosophical, political and social theoretical ideas. Its purpose is twofold: making sense of the concepts and theses of Marx and showing that they remain relevant for contemporary critical theory. Part One focuses on Marx's conception of philosophy. Part Two analyses the Marxian primacy of the practical. Part Three is devoted to Capital and the critique of political economy. This book will be useful for those who want to deepen their understanding of Marx's main ideas as well as for those who want to clarify what is at stake in contemporary debates about the ways in which contemporary critical theory could or should refer to Marx.

**Engels and the formation of Marxism** S. H. Rigby, 2024-06-04 The paperback release of this classic work      **Li Da And Marxist Philosophy In China** Nick Knight, 2018-02-23 Scholars of Marxism will be in Nick Knight's debt for this pioneering study of one of the most important figures in the development of Marxism in China. Knight makes an important case about the relationship of Chinese Marxist thought to Marxist thought in general, with particular attention to Soviet Marxism. The book makes available to readers not just important texts of Chinese Marxism but a whole series of texts of Marxism that were crucial to the political discourse of the thirties. Knight displays impressive erudition and command of these texts. In spite of the strong case he makes for his thesis, he retains throughout an admirable critical self-awareness that enhances the plausibility of his argument. Arif Dirlik, Duke University

**Companion to Historiography** Michael Bentley, 2006-02-27 The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives. Contributed by a distinguished panel of academics, each essay conveys in direct, jargon-free language a genuinely international wide-angled view of the ideas, traditions and institutions that lie behind the contemporary urgency of world history.

**Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945** Nick Knight, 2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers: Qu Qiubai, Ai Siqi, Li Da and Mao Zedong. Two of these philosophers, Qu and Mao, were also political activists and leaders, but their contribution to this history is as important if not more so than the contribution of Ai and Li, who were predominantly philosophers and scholars. The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China. It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction, elaboration and dissemination proceeded. Indeed, each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance. Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it. By the same token, each of these philosophers took philosophy seriously; each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system.

of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism

**Varieties of Marxism** Shlomo Avineri, 2012-12-06 The essays included in this volume are based on papers delivered at the International Symposium on Varieties of Marxism held at the Van Leer Jerusalem Foundation on June 16 1974 and dedicated to the memory of George Lichtheim When the idea of such a symposium was first raised the organizers planned to have George Lichtheim as one of the main speakers at the event In our last and brief meeting in London I suggested this to him and Lichtheim gave his consent to attend the symposium though at that time no date was yet fixed His tragic death a few months later left a gap not only in the program of the symposium but in Marxist studies generally it was felt that perhaps one way of paying tribute to his contribution to the study of a subject so near to his mind would be to name the symposium in his memory and devote an introductory paper to an attempt at an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association
