Marxism and the National and Colonial Question ,1936 *Marxism and the national and colonial question a collection of articles and speeches 2nd ed* Joseph Stalin, The Geography of Nationalism in Russia and the USSR Robert J. Kaiser,2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Marxism and the National and Colonial Question** Iosif V. Stalin,1942 **Marxism and the National and Colonial Question, Etc** Joseph Stalin,1942 *Yugoslav Communism* United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws,1961 **Mark's Marxism** Mark Maxey,2019-06-20 Mark s Marxism is a contemporary understanding of what socialism and communal living envisioned by Karl Marx and Friedrich Engels It brings into perspective over 100 000 years of Indigenous cultures living the communal life as illustrated in the Communist Manifesto It shows the root cause of capitalism and the safest and best way to reverse it With a world spinning out of control with a new wave of fascism this commentary is well received at this time It also includes reprints of A Reader s Guide to Marxist Classics and The Marxist Glossary This companion book embraces what Marx and Engels envisioned and is quite a

necessary read in this time and age **Marx, Engels and National Movements (RLE Marxism)** Ian Cummins, 2023-05-31 While their attempts to understand the workings of capitalism led them to the conclusion that the advanced societies of Western Europe were those most likely to be the setting for a successful socialist revolution Marx and Engels by no means ignored developments outside this region Indeed given the configurations of international politics in their time plus their conception of capitalism as a universalising system they believed that some of the forces working for change in less advanced regions could even affect the prospects of a proletarian revolution in Western Europe itself This book first published in 1980 traces the development of Marx and Engels attitudes towards and relations with the principal national movements of their time It deals with their responses to such movements in areas as diverse as Ireland and India Poland and China and Russia and the United States as well as in many other regions Many of Marx and Engels most significant statements on the national question were made in their journalism occasional addresses and private correspondence sources not always readily accessible to or even known by some of their more immediate successors Subsequent publication of this previously dispersed material has enabled a more coherent picture of their ideas on the subject to be drawn Marx and Engels believed that national aspirations and the cause of socialism did not always go hand in hand and each national struggle had to be examined on its merits and judged according to whether its success would retard or enhance the prospects of a socialist revolution Based on a wide range of sources this study examines an important yet neglected area of Marx and Engels ideas and activities and indicates the criteria by which they determined their attitudes at different times to a variety of national movements at work in four continents *Marxism and the National and Colonial Question* Iosif Vissarionovič Stalin, 2021

Marxism and the National and Colonial Question Iosif V. Stalin, 1942 **Publications Relating to Various Aspects of Communism**, 1961 *European Socialism, Volume II* Carl Landauer, 2023-11-15 European Socialism covers the transformative development of socialism in Europe exploring the intellectual social and political evolution of the movement from its inception through to the early 20th century The narrative seeks to provide a comparative analysis of the movements in major continental countries while acknowledging that an all encompassing history of socialism in Europe would be an impossible task The author notes the difficulty of incorporating all the various movements across the continent especially given the extensive ideological interconnections and the influence of each country's socialist experience on others For practical reasons the book focuses on the more influential European nations with a particular emphasis on Germany France Russia and several smaller nations such as Belgium and Denmark but excludes Great Britain due to the extensive existing literature on British socialism This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1959 **National Communism in the Soviet Union, 1918-28**

Baruch Gurevitz, 2010-11-23 The Jewish Communist Workers Party the Poale Zion provides a unique perspective on the question of how Marxism and the early Soviet Union dealt with issues of nationalism According to Bolshevik ideology when anti-Semitism disappeared in the new Socialist society Jews would assimilate In reality such assimilation would be a very long slow process The Poale Zion supported the socialist struggle against oppression and exploitation of classes and nations but it called for the formation of an international organization that would recognize the right of Jews to emigrate freely to Palestine and work for the creation of a democratic republic where people could retain their national identities and have both autonomy and representation in the union Gurevitz analyzes the Soviet Poale Zion as representative of Jewish communism as nationalism in its purest form and he traces the complex contradictions between Jewish nationalism and the Communist ideal of assimilation in the early years of the Soviet Union
