Marxist Reader:

Marxist Historiographies Q. Edward Wang, Georg G. Iggers, 2015-07-16 *Marxist Historiographies* is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic *Marxist Historiographies* demonstrates clearly the breadth and depth of Marxism's influence in historical writing throughout the world and is essential reading for all students of historiography

A Reader's Guide to Marx's Capital Joseph Choonara, 2019-07-19 p This book carefully guides the reader through each chapter of the first volume of *Capital* It sets Marx's arguments in context and explains their relevance today and it offers insights into Marx's method highlighting key concepts running through the book It also offers pointers to wider works that can provide further illumination

Understanding Marx's Capital: A reader's guide Adam Booth, Rob Sewell, 2019-07-11 Marx's *Capital* was a book that revolutionised political economy and for the first time opened our eyes to the real workings of capitalism It was however met with a wall of silence from the mainstream economists and the establishment Despite this *Capital* became regarded in the workers movement as the Bible of the working class The aim of this book written by authors from the International Marxist Tendency is to help guide readers through the pages of volume one of *Capital* to bring out the main themes and ideas contained within it and to discuss the relevance of this great Marxist classic in terms of understanding the crisis ridden world around us today and most importantly how we can radically transform it

The Marxist Reader, 1982

Reading Marx Writing Thomas M. Kemple, 1995 Employing the insights of recent cultural critics *Reading Marx Writing* uses the eight notebooks the Grundrisse Marx worked on in 1857-58 to examine his literary political and scientific imagination and the fictional writers he admired By exploring the Grundrisse the project or plan that Marx did not carry through the author speculates on the limits and possibilities of Marx's interpretive approach for addressing current issues in philosophy and hermeneutics critical sociology and political economy and aesthetics and literary criticism The study employs certain literary works notably a scene from Goethe's *Faust* and several stories from Balzac's *Comedie humaine* as looking glasses or sounding boards for Marx's political and scientific concerns and to connect themes emerging from the cultural economy of the nineteenth century These literary works are treated less as dramatic illustrations of Marx's life or depictions

of his scientific insights than as interpretive frameworks or social fictions which give shape to both Marx's text and the writings of others working in his wake Through an innovative blend of German critical theory Lukacs Marcuse and Habermas French post structuralism Althusser Lyotard and Baudrillard and Anglo American cultural criticism Jameson Mitchell and O'Neill the author develops a unique method for articulating the play of image text and even music within Marx's human scientific discourse *Reader in Marxist Philosophy* Howard Selsam, Harry Martel, 1963 The basic philosophical thought of Marx Engels and Lenin gathered together in the categories customary to Western philosophy [A Reader's Guide to Contemporary Literary Theory](#) Raman Selden, 1993-06-08 Unsurpassed as a text for upper division and beginning graduate students Raman Selden's classic text is the liveliest most readable and most reliable guide to contemporary literary theory Includes applications of theory cross referenced to Selden's companion volume *Practicing Theory and Reading Literature*

Seductive Reasoning takes a provocative look at contemporary Anglo American literary theory calling into question the critical consensus on pluralism s nature and its status in literary studies Drawing on the insights of Marxist and feminist critical theory and on the works of Althusser Derrida and Foucault Rooney reads the pluralist s invitation to join in a dialogue as a seductive gesture Critics who respond find that they must seek to persuade all of their potential readers Rooney examines pluralism as a form of logic in the work of E D Hirsch as a form of ethics for Wayne Booth as a rhetoric of persuasion in the books of Stanley Fish For Paul de Man Rooney argues pluralism was a rhetoric of tropes just as it was for Fredric Jameson a form of politics *Reader's Guide to the Social Sciences* Jonathan Michie,2014-02-03

This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **The State, Identity, and the National Question in China and Japan** Germaine A.

Hoston,2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model *Marx and Keynes* Paul Mattick,2020-11-30

Marx and Keynes The Limits of the Mixed Economy is a 1969 book by Paul Mattick which presents a Marxist critique of the Keynesian approach to economic problems During a time in which the economic orthodoxy was to say that the contradictions of the capitalist system had been overcome Marx and Keynes goes against the orthodoxy to examine how the solutions which are presented for the

market in Keynesianism are only limited and present the same contradictions Written before the complete turn to Neoliberalism Mattick not only critiques Keynes policies but also points out the same contradictions of the system exist within the state capitalism of the USSR proclaiming himself an Anti Bolshevik Communist Past being a critique of Keynesianism Marx and Keynes is also a guide to understanding Marx s economics from the theory of value to the falling rate of profit Mattick applies Marx to the current state of economics in the 60s Paul Mattick Sr March 13 1904 February 7 1981 was a Marxist political writer and social revolutionary whose thought can be placed within the council communist and left communist traditions **Marxism and Art** Maynard Solomon,1979 Marxism and Art is a book of basic readings in Marxist criticism and aesthetics Maynard Solomon through his selections and critical introductions shows connections between the arts and society between imagination nd history and between art and revolution He selects from thirty six authors to reveal the range of opinion from dogma to heresy beginning with excerpts from the works of Marx and Engels that are pertinent to an understanding of Marxist philosophy The book traverses a wide range of subjects from the origins of art to the nature of creativity the aesthetic experience the dialectics of consciousness the psychology of art and the evolution of art forms The sources of art in ritual in the labor process in the play drive and in social conflict are explored Diasporic Mediations Rajagopalan Radhakrishnan,2013
