Barrett, 1992-12-15 Innovative and often controversial Barrett's study ranges over the entire scope of anthropological theory It provides a fresh interpretation of the history of theory and mounts an alternative perspective built around dialectics that is eminently suitable to post colonial anthropology He argues that anthropological theory has failed to be cumulative It has been characterized by oscillation and repetition theoretical orientations have appeared and disappeared only to be discovered once again Addressing numerous conceptual contradictions which have never been resolved he introduces novel concepts such as salvage theory and backward theory and argues that in many respects anthropological theory resembles the structuralists interpretation of myth Social life he asserts is inherently
