Can the Marxist tradition still provide new resources for thinking the specificity of historical time This volume proposes to transform our understanding of Marxism by reconnecting with the subterranean currents of plural temporalities that have traversed its development From Rousseau and Siey s to Marx from Bloch to Althusser from Gramsci to Pasolini and Postcolonialism the chapters in this volume seek both to valorise neglected resources from Marxism s contradictory history and also to read against the grain its orthodox and heterodox currents Privileging not the single time of historical development but the plural temporalities that intertwine in and constitute any given historical conjuncture and arguing against merely subjectivist theories of temporal multiplicity this volume studies the articulation of the real plural temporalities of mass political action Comprehending their dynamics is a necessary precondition for a renewed politics of emancipation Contributors include Luca Basso Stefano Bracchetti Mauro Farnesi Camellone Fabio Frosini Augusto Illuminati Nicola Marcucci Vittorio Morfino Luca Pinzolo Peter D Thomas and Massimiliano Tomba Polish Marxism after Luxemburg Jan Toporowski, 2022-12-09 In Polish Marxism after Luxemburg Jan Toporowski and leading experts offer a unique and

insightful overview of Polish political economic ideas since the early 20th century building an introduction to some key themes and figurehead political economists Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao's Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists *Marxist Archaeology Today*, 2023-09-14 This volume gathers papers written by archaeologists utilising the methods of historical materialism attesting not only to what Marxism has contributed to archaeology but also to what archaeology has contributed and can contribute to Marxism as a method for interpreting the history of humanity The book's contributors consider the question of what archaeology can contribute to a historical perspective on the overcoming of present day capitalism synthesising developments in world archaeology and supplying concrete case studies of the archaeology of the Americas Europe and the Near East Contributors are Guillermo Acosta Ochoa Marcus Bajema Bernardo Gandulla Alex Gonzales Panta Pablo Jaruf Vicente Lull Savas Michael Matsas Rafael Mic Ianir Milevski Patricia Perez Mart nez Cristina Rihuete Herrada Roberto Risch Steve Roskams Henry Tantale n Marcelo Vitores and LouAnn Wurst **The Price of War** Nigel Thrift, Dean Forbes, 2012-11-12 Much rare material is incorporated in this unique account of urbanization in a developing country that was ravaged by war for twenty years With due emphasis on the experience of Hanoi and Ho Chi Minh City Saigon the authors present an account of what happened to the towns and cities of Vietnam between the establishment of Ho Chi Minh's socialist state in 1954 and the mid 1980s The story is introduced through a general theoretical and empirical account of urbanization in socialist Third World countries The book stresses the importance of the turmoil created by warfare in directing urbanization but it also refers to the more conventionally studied

determinants of the process such as the institution of a planned economy As one of the few books highlighting the impact of warfare on urban settlements *The Price of War* will interest all those interested in urbanization development and South East Asia This book was first published in 1986 **Shaken Authority** Christian P. Sorace, 2017-05-09 In *Shaken Authority* Christian P Sorace examines the political mechanisms at work in the aftermath of the 2008 Sichuan earthquake and the broader ideological energies that drove them Sorace takes Communist Party ideas and discourse as central to how that organization formulates policies defines legitimacy and exerts its power Sorace argues that the Communist Party has never abandoned its conviction that discourse can shape the world and the people who inhabit it Sorace also demonstrates how the Communist Party's planning apparatus continues to play a crucial role in engineering China's economy and market construction especially in the countryside Sorace takes a distinctive and original interpretive approach to understanding Chinese politics and *Shaken Authority* demonstrates how Communist Party discourse and ideology influenced the official decisions and responses to the Sichuan earthquake Sorace provides a clear view of the lived outcomes of Communist Party plans rationalities and discourses in the earthquake zone The three case studies he presents each demonstrate a different type of reconstruction and model of development urban rural integration tourism and ecological civilization Sorace's work emphasizes the need for a grounded literacy in the political concepts discourses and vocabularies of the Communist Party itself To dismiss China's official discourse as empty propaganda Sorace argues makes China and Chinese realities harder to understand not easier **Edmund Burke** Peter Stanlis, 2018-02-06 Two centuries after Edmund Burke published his *Reflections on the Revolution in France* his name and reputation stand alongside Locke Montesquieu and Hume the other still cited grand political thinkers of the eighteenth century For those great nations that have fallen into what Burke called the antagonist world of madness discord vice confusion and unavailing sorrow the work of Burke supplies that sense of order justice and freedom the present age seems to require This volume by Peter Stanlis has grown out of almost four decades of studying Burke Today Professor Stanlis is called by Russell Kirk the leading American authority on the political thought of the great conservative reformer The book is divided into three categories Burke on law and politics Burke's criticism of Enlightenment rationalism and sensibility and Burke's theory of revolution and critique of the English revolution of 1688 Stanlis reasons for linking Burke to the English Revolution rather than the later and admittedly more decisive American and French Revolutions of his own time is that for Burke that earlier event was the normative pivot for judging how to make important changes in civil society Indeed even in his writings on the contemporary revolutions of his time Stanlis reminds us that Burke interpreted revolutionary events in France and America through the prism of the bloodless Revolution of 1688

German History in Marxist Perspective Andreas Dorpalen, 1985 Andreas Dorpalen's *German History in Marxist Perspective* The East German Approach is the most comprehensive study of historical scholarship in the former German Democratic Republic to have appeared in any language His purpose is to analyze the way in which GDR historians guided by

the theoretical presuppositions of Marxist Leninist ideology have interpreted the German national past from the early Middle Ages to the present To accomplish his task Dorpalen examined the mass of writing produced by historians of the GDR from the time the historical profession was reestablished in 1945 He thereby provides readers with access to historical literature that up to now has been largely ignored by English speaking scholars *Marxism and the Making of China* J.

Marxism and Philosophy of Praxis Marcello Mustè,2021-08-06 This book will offer a full reconstruction of the history of Theoretical Marxism in Italy between 1895 and 1935 based on a rigorous philological method The starting term 1895 is marked by the publication of Antonio Labriola s first essay on historical materialism In memory of Communist Manifesto the final term coincides with the conclusion of the Prison Notebooks written by Antonio Gramsci This book analyses the original character of the Marxist philosophy in Italy which emerged by distinguishing itself from the orthodoxy of the Second and Third International By delineating a significant chapter in the history of Marxism the book will also propose a specific contribution to the history of Italian Philosophy which is here studied in relation to the developments of European philosophy beyond the traditional subdivisions of Positivism Idealism and Marxism Marxism in Asia (RLE

Marxism) Colin Mackerras,Nick Knight,2015-04-17 Marxism is a theory which originated in the context of nineteenth century industrialised Europe Despite its European origins Marxism has actually found greatest significance as a doctrine for change in the context of the underdeveloped peasant societies of Asia This paradox has only been resolved through adaptation of Marxism to suit the specific features of particular Asian societies There has consequently been a differentiation of Marxism along national lines In this book first published in 1985 the theoretical and practical implications for this national differentiation of a universal European theory are explored followed by a more detailed analysis of the manner in which Marxism has developed during different historical periods in particular Asian contexts **Contending with**

Contradictions Mercy Kuo,2001-01-01 A long overdue contribution to the study of Cold War history and Chinese foreign policy Contending with Contradictions provides an incisive interpretation of China s relations with Poland and its irreversible impact on the communist world Mercy A Kuo provides a unique contribution to the miniscule corpus of literature on the subject Her approach is threefold Kuo offers a comprehensive interpretation of the historical relevance of the PRC s policy towards Soviet Eastern Europe during this era she sheds new light on the intentions of the Chinese Communist Party and finally her research for the book was based on an archival approach utilizing post 1989 declassified sources Because this area of Cold War history has long been understudied and certainly without the benefit of newly available archival materials Kuo s study is the first of its kind **Marxism and "really Existing Socialism"** Adam Przeworski,Alec Nove,2001 This

volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender, authority, female autonomy, and unruliness; courtship and marriage; language and speech; and performance and theatricality. *Confucian Marxism* Weigang Chen, 2013-09-25. Buttressed by an autocratic system, China's colossal economic growth over the past decades seems to have had the paradoxical effect of undermining the foundation of Western domination, but at the same time invigorating Eurocentricism. In particular, it highlights the current relevance of the central conviction of Weber's *Orient*: the absence of civic roots in non-Western societies will create a kind of uncivic capitalist system in which one has no choice but to seek to compensate for instabilities through authoritarian institutions. Does this mean that the West may alone afford to harmonize political stability with the universalistic ideal of justice as the basic structure of society? If not, how then is it possible to develop a notion of the primacy of social justice that transcends the limits of liberal democracy? This book aims at addressing these timely questions by drawing on Confucian Marxism, a distinctive perspective on civil society. *Eastern Societies* V. F. Li, 1989. *The Plebs*, 1928.
