Marx's Concept Of Man:

Marx's Concept of Man Erich Fromm, 2013-03-26 An exploration of how Marx's ideas have been misused and misunderstood from the New York Times bestselling author of *Escape from Freedom* in the Western world and especially in the United States. Karl Marx is perceived as the spiritual godfather of Lenin and Stalin, someone bent on creating a state where everyone worships a centralized bureaucracy. Social philosopher Erich Fromm argues that Marx has been entirely misrepresented and misunderstood and that Marx's ideas have been misappropriated to further causes antithetical to his true intentions. Fromm's study presents Marx as a humanist and social scientist. Painstakingly traveling through Marx's oeuvre, Fromm shows how Marx's real goal was to eliminate man's alienation and allow individuals to live and appreciate a life of freedom. Furthermore, Fromm believes Marx would have considered the Communist governments of Russia and Cuba as wrong-headed. Marx's Concept of Man also includes a selection of Marx's Early Writings brought to English-speaking readers for the first time in 1961. This ebook features an illustrated biography of Erich Fromm with rare images and never-before-seen documents from the author's estate.

Marx's Concept of Man Erich Fromm, Karl Marx, 2013-12-19 Erich Fromm, one of the most important psychoanalytic thinkers of the 20th century, presents and responds to Karl Marx's Economic and Philosophical Manuscripts.

The Concept of the Individual in the Thought of Karl Marx Zhi Li, 2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy. Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years. His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind. Marx's philosophy has often been misunderstood as lacking a concept of the individual. In China, this misunderstanding not only relates to cultural and linguistic particularities, the word 'individual' is seldom used in Chinese, but also relates to a misleading view of socialism and communism. This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx's concept of the individual with that of

liberalism and between Western and Eastern Marxism **Marx's Concept of Man** William Hinton,1966

Karl Marx in America Andrew Hartman,2025-05-27 The vital and

untold story of Karl Marx's stamp on American life To read Karl Marx is to contemplate a world created by capitalism People have long viewed the United States as the quintessential anti Marxist nation but Marx's ideas have inspired a wide range of people to formulate a more precise sense of the stakes of the American project Historians have highlighted the imprint made on the United States by Enlightenment thinkers such as Adam Smith John Locke and Thomas Paine but Marx is rarely considered alongside these figures Yet his ideas are the most relevant today because of capitalism's centrality to American life In Karl Marx in America historian Andrew Hartman argues that even though Karl Marx never visited America the country has been infused shaped and transformed by him Since the beginning of the Civil War Marx has been a specter in the American machine During the Gilded Age socialists read Marx as an antidote to the unchecked power of corporations In the Great Depression communists turned to Marx in hopes of transcending the destructive capitalist economy The young activists of the 1960s were inspired by Marx as they gathered to protest an overseas war Marx's influence today is evident too as Americans have become increasingly attuned to issues of inequality labor and power After decades of being pushed to the far left corner of intellectual thought Marx's ideologies have crossed over into the mainstream and are more alive than ever Working class consciousness is on the rise and as Marx argued the future of a capitalist society rests in the hands of the people who work at the point of production A valuable resource for anyone interested in Marx's influence on American political discourse Karl Marx in America is a thought provoking account of the past present and future of his philosophies in American society
