McVeigh, 2006-01-01 Using Japanese higher education as a case study author Brian J McVeigh explores the varieties of exchange dramatics among the Education Ministry universities faculty and students With one eye on large scale processes and the other on everyday practices he elucidates trafficking between micro and macro levels and key concepts of value exchange and role performance by studying how political economy configures dramatization and deception at the everyday level Relying on extensive ethnographic participant observation and the notion of the gift McVeigh challenges the commonly accepted idea of social contract for understanding state society relations Written to be read as both a political and philosophical commentary and anthropological investigation this work has theoretical implications for comparative studies of political systems particularly regarding the relation between self deception and the ideological manufacture of legitimacy **Advanced Introduction to** the Economics of Organization Richard N. Langlois, 2025-03-12 This incisive book presents a succinct overview of the economics of organization Combining traditional approaches with more challenging cutting edge perspectives Richard N Langlois critically examines the ways in which tasks and transactions in the economy are organized Introduction to <u>Criminology</u> Anthony Walsh, Craig Hemmens, 2010-12-09 This new edition of the authors popular text reader provides instructors and students with the best of both worlds authored text with carefully selected accompanying readings Thoroughly updated throughout this Second Edition provides an interdisciplinary perspective on crime and criminality that incorporates the latest theories concepts and research from sociology psychology geneties evolutionary biology and the The Division of Labor in Economics Guang-Zhen Sun,2013-03-01 This book provides for neurosciences Book Tacket the first time a systematic and comprehensive narrative of the history of one central idea in economics namely the division of labour over the past two and a half millennia with special focus on that having occurred in the most recent two and a half centuries Quite contrary to the widely held belief the idea has a fascinating biography much richer than that exemplified by the pin making story that was popularized by Adam Smith's classical work published in 1776 **Copula** Robyn Ferrell, 2012-02-01 How will the ability to manipulate human reproduction change our social world and the relationship between the sexes Taking an explicitly interdisciplinary approach to gender and reproductive technology Robyn Ferrell examines this question in the light of feminist theories of sexual equality and sexual difference arguing that technology itself

can be seen as a kind of reproduction Invoking a concept of reproduction that understands it as generic Ferrell asserts that in any reproduction something is produced of a kind that was there before and yet that is also new Technology is therefore generically reproductive since it produces new matter of the same kind In addition to key figures in French feminism Ferrell draws from psychoanalysis and contemporary continental thinkers ranging from Heidegger to Haraway **Economy of Soviet Socialism: the Formative Years, 1918-1928** Peter J. Boettke, 2013-03-14 This book presents a narrative of one of the more interesting utopian experiments in comparative political and economic history the first decade of the Soviet experience with socialism 1918 1928 Though historical and textual analysis the book s goal is to render this experience intelligible to get at the meaning of the Soviet experience with socialism for comparative political economy today The book examines the texts of Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in Marxism economic history political economy and Austrian economics A Desolate Place for a Defiant People Daniel Sayers, 2014-11-25 In the 250 years before the Civil War the Great Dismal Swamp of Virginia and North Carolina was a brutal landscape 2 000 square miles of undeveloped and unforgiving wetlands peat bogs impenetrable foliage and dangerous creatures It was also a protective refuge for marginalized communities including Native Americans African American maroons free African Americans and outcast Europeans Here they created their own way of life free of the exploitation and alienation they had escaped In the first thorough examination of this vital site Daniel Sayers examines the area's archaeological record exposing and unraveling the complex social and economic systems developed by these defiant communities that thrived on the periphery He develops an analytical framework based on the complex interplay between alienation diasporic exile uneven geographical development and modes of production to argue that colonialism and slavery inevitably created sustained critiques of American capitalism

Trust, Ethnicity, and Identity Janet T. Landa,1994 How ethnic kin based trading networks can rely on trust when a well developed framework of contract laws is missing **Karl Marx** Isaiah Berlin,1978 First published over fifty years ago Isaiah Berlin s compelling portrait of the father of socialism has long been considered a classic of modern scholarship and the best short account written of Marx s life and thought It provides a penetrating lucid and comprehensive introduction to Marx as theorist of the socialist revolution illuminating his personality and ideas and concentrating on those which have historically

formed the central core of Marxism as a theory and practice Berlin goes on to present an account of Marx s life as one of the most influential and incendiary social philosophers of the twentieth century and depicts the social and political atmosphere in which Marx wrote This edition includes a new introduction by Alan Ryan which traces the place of Berlin's Marx from its pre World War II publication to the present and elucidates why Berlin's portrait in the midst of voluminous writings about Marx remains the classic account of the personal and political side of this monumental figure The Blackwell Dictionary of Modern Social Thought William Outhwaite, 2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text American Book Publishing Record ,2007 An Introduction to **Karl Marx** Jon Elster, 1986-07-25 A critical introduction to Marx's social political and economic thought that stresses the relevance and importance of many of the philosopher's theories It can be considered a standard basic reference work for the study of Marx in conjunction with the author's companion selection of Marx's writings Karl Marx A Reader Alienated Academic Richard Hall, 2018-08-25 Higher education is increasingly unable to engage usefully with global emergencies as its functions are repurposed for value Discourses of entrepreneurship impact and excellence realised through competition and the market mean that academics and students are increasingly alienated from themselves and their work This book applies Marx s concept of alienation to the realities of academic life in the Global North in order to explore how the idea of public education is subsumed under the law of value In a landscape of increased commodification of higher education the book explores the relationship between alienation and crisis before analysing how academic knowledge work identity and life are themselves alienated Finally it argues that through indignant struggle another world is possible grounded in alternative forms of organising life and producing socially useful knowledge ultimately requiring the abolition of academic labour This pioneering work will be of interest and value to all those working in the higher education sector as well as those concerned with the rise of neoliberalism and marketization within universities **Dispossession** Christoph Kreutzmüller, Jonathan R. Zatlin, 2020-09-04 This collection of essays by a range of international multidisciplinary scholars explores the financial history social significance and cultural meanings of the theft starting in 1933 of assets owned by German Jews Despite the fraught topic and the ongoing legal discussions the subject has not received much scholarly attention until now This volume offers a much needed contribution to our understanding of the history of the period and the acts The essays examine the confiscatory taxation of Jewish property the looting of art and confiscation of gold the role of German freight forwarders in property theft salesmen and dispossession in the retail world theft from the elderly and the

complicity of the banking industry as well as the reach of the practice beyond German borders *The Death of Communism and the Rebirth of Original Marxism* Thomas M. Mongar,1994 **Southern Economic Journal** ,1984 Contains section Book reviews **International Philosophical Quarterly** ,1977
