Maguire, 1978 This book brings together everything in Marx's work which bears on politics and treats his approach as a living evolving theory      **Karl Marx's Theory of Revolution III** Hal Draper, 1977 In this third volume of his definitive study of Karl Marx's political thought Hal Draper examines how Marx and Marxism have dealt with the issue of dictatorship in relation to the revolutionary use of force and repression particularly as this debate has centered on the use of the term dictatorship of the proletariat Writing with his usual wit and perception Draper strips away the layers of misinterpretation and misinformation that have accumulated over the years to show what Marx and Engels themselves really meant by the term      **Karl Marx's Theory of Ideas** John Torrance, 1995-05-04 Marx's undeveloped ideas about how society presents a misleading appearance which distorts its members understanding of it have been the subject of many conflicting interpretations In this book John Torrance takes a fresh un Marxist approach to Marx's texts and shows that a more precise coherent and cogent sociology of ideas can be extracted from them than is generally allowed The implications of this for twentieth century capitalism and for recent debates about Marx's conceptions of justice morality and the history of social science are explored The author argues that Marx's theory of ideas is sufficiently independent of other parts of his thought to provide a critique and explanation of those defects in his own understanding of capitalism which allowed Marxism itself to become by his own definition an ideology      *Karl Marx's Social and Political Thought* Bob Jessop, Russell Wheatley, 1999      **Contemporary Political Theory** J. **Critical Marxist Theory** Lukas Meisner, 2025-06-08 This book argues why Critical Theory as first developed in the *Zeitschrift f r Sozialforschung* must be updated to help us tackling today s capitalist polycrisis from economic via political to ecological crises Yet following the dissolution of the Institute for Social Research in New York and the latest with the death of Adorno in 1969 and the death of Marcuse almost exactly ten years later there has been a domestication of the main strands of the Frankfurt School To understand and overcome this domestication the book traces with the means of philosophy and sociology its two affirmative steps in a liberal and in a postmodern turn As an alternative to both it defends Habermas project of modernity yet only by disentangling it in Marxian fashion from the capitalist process of modernisation This disentanglement is at the same time a political radicalisation It is necessary because the cultural political ideal s of the project of modernity from human autonomy via rational society to qualitative individuality can only be realised beyond the framework of capitalism As their conceptual concentrate the book proposes political autonomy as a key concept confined neither by Kantian or liberal approaches nor by autonomist or operaist traditions Rather it draws on thinkers like Herbert

Marcuse Ellen Meiksins Wood and Martin H gglund to rephrase Marxist concepts such as social freedom democratic socialism and the end of prehistory In this way political autonomy is developed both as a legit criterion for justified critique and as the philosophical foundation and emancipatory goal of a pluralist yet transcapitalist Critical Marxist Theory

**Marx's Theory of Value at the Frontiers** Güney Işıkara,Patrick Mokre,2025-09-30 Why do humans produce the things they do in the way they do it As this book shows the classical political economics approach to value and prices has fundamental implications for analyzing the historical trajectory of capitalism It demonstrates that the classical political economists approach to value and prices which finds its most advanced formulation in Marx sheds light on the source of profits exploitation whether equivalents are exchanged in trade dynamics of asymmetric and uneven accumulation and the relationship of production to non human natures at large Understanding these phenomena is key to understanding the economic regularities underlying the key issues facing the world in the twenty first century imperialism and ecological breakdown It argues powerfully that deviations between market prices production prices and labor values are central to understanding international value transfers due to differential capital compositions and rates of exploitation as well as the central role of rent and accumulation in capitalism induced ecological crisis The book is structured to provide an understandable introduction to the classical approach to value and prices and its modern expression in empirical applications making it of great interest to readers in Economics Political Economy Politics and Sociology Antonio Gramsci: Marxism, philosophy and politics James Martin,2002 **The A to Z of Marxism** David Walker,Daniel Gray,2009-08-13 Marxism one of the few philosophies that turned into an effective movement not so long ago was the official ideology in one form or another of much of humanity It was promulgated initially by the Soviet Union then imposed on much of Central and Eastern Europe later emerged in the People s Republic of China and gradually spread to other parts of Asia and even bits of Africa and Latin America Although declining in its initial popularity it still remains strong in several countries and is supported by numerous communist and other parties and countless individuals around the world The A to Z of Marxism covers the history of Marxism and all its thinkers and schools of thought in a comprehensive manner This is done through a chronology an introductory essay a bibliography and hundreds of cross reference dictionary entries on basic terms and concepts significant thinkers and doers and also the parties and countries that followed it **Democratic Philosophy and the Politics of Knowledge** Richard T. Peterson,2006-03-02 Debates over postmodernism analyses of knowledge and power and the recurring issue of Heidegger s Nazism have all deepened questions about the relation between philosophy and the social roles of intellectuals Against such postmodernist rejections of philosophical theory as mounted by Rorty and Lyotard Richard Peterson argues that precisely reflection on rationality in appropriate social terms is needed to confront urgent political issues about intellectuals After presenting a conception of intellectual mediation set within the modern division of labor he offers an account of postmodern politics within which postmodern arguments against critical reflection are themselves

treated socially and politically Engaging thinkers as diverse as Kant Hegel Marx Habermas Foucault and Bahktin Peterson argues that a democratic conception and practice of philosophy is inseparable from democracy generally His arguments about modern philosophy are tied to claims about the relation between liberalism and epistemology and these in turn inform an account of impasses confronting contemporary politics Historical arguments about the connections between postmodernist thought and practice are illustrated by discussions of the postmodernist dimensions of recent politics

**Marx's Theory of Value in Chapter 1 of Capital** Fred Moseley, 2023-05-11 Chapter 1 is the most important chapter in Capital as well as the most difficult and the most controversial An influential interpretation of Chapter 1 in recent decades has been the so called value form interpretation of Marx's theory in general and Chapter 1 in particular The most important proponent of the value form interpretation today both in Germany and in the English speaking world is Michael Heinrich and Heinrich's work has emphasized the first chapter Heinrich's latest book in English is a detailed commentary of the first seven chapters of Volume 1 of Capital The publication of an English translation of Heinrich's book is an important event in Marxian scholarship and it is important to critically engage with this important book in order to advance our understanding of this critical foundational chapter This book emphasizes the quantitative issue of whether the magnitude of value and socially necessary labour time are determined in production or also depend on exchange and demand which has been the main issue in the controversy over the value form interpretation *Marxist Political Economy and Marxist Urban Sociology* Kieran McKeown, 1987-02-16 *Karl Marx's Social and Political Thought* Bob Jessop, Charlie Malcolm-Brown, 1999
