Lucci III,2021-04-16 This

book was written to give you both an explanation of new knowledge discovered over 40 years of trial and error in the real world not in a lab or clinical setting and an easy to follow formula to get lasting results the first time you apply this knowledge You will see improvement in your life as you read You will not have to wait until you re finished to begin reaping the benefits of thinking more and reacting less Our understanding of human behavior today is as primitive as was the practice of medicine before we knew that there were germs We ve cracked the code on human behavior and that will change the way we behave This statement may sound bold and maybe even arrogant to you but it s true When I started my journey to discover what makes people do what they do and why they so often self destruct I never would have imagined where the journey would take me This is my story **More Common Sense Online Texas Holdem** Jack D. Mormon,2012-04-10 This is the second poker book by Mormon Following a year of playing after publishing his first he feels that he has gained enough information and experience to warrant a second He is a self proclaimed lover of the game of Texas Holdem In his own words Im only sorry that I didnt begin playing Holdem until I was almost 60 I somewhat pessimistically calculate that this leaves me only 50 years or so to play and improve my game Now it may be that Holdem is played in the hereafter If it is played only in Hell Im probably in good shape If on the other hand its only played in Heaven I need to get my act together
