*Mullets and Mayhem* Noah D. Karchmer, 2001-09 What is poetry Many have tried to define and put a face to the six letter word but just like the anatomy of the human body poetry has many layers It lives through many life forms that are expressed verbally and non verbally Whether written or spoken seen through photography or dance to graffiti on a public wall poetry is an expression without boundaries Two years ago Eric Harvey and Tamara Hicks were perfect strangers Drawn together through the ebb and flow of words they connected and built a bond which they consider heaven made Through

emails conversations they begin to share their life experiences through words in the form of poetry Eventually they begin to understand that their words were God given and meant to be shared with the world Eric and Tamara share a love and passion that is greater than the naked eye can see or the human ear can hear their passion explodes through their writings As you read through the words and discover metaphors in Freedom of Speech Writing Out Loud you will hear the echoes of love joy hurt pain forgiveness and hope jumping off the pages through their unspoken voices of words From community awareness to apologizing to the hurt and abandoned single women FOS offers a variety of poetry that every reader no matter what age race gender or religion can enjoy Freedom Of Speech Writing Out Loud is not just another poetry book it represents one heart of two spirit filled individuals whose passion for God life love and community have destined them to uncover their words and speak out loud We hope that this work will inspire encourage and provoke the hearts and minds of our readers

The capacity of humans to destroy their environment is playing out like a Greek tragedy in the Mediterranean Sea After having coexisted with a diversity of marine animals throughout their history humans have broken the balance in recent decades and the survival of countless marine creatures is now increasingly uncertain However unlike in classical tragedies real life entities are not necessarily doomed by their fate and there must be hope to turn the tide in nature s favour Lack of concrete conservation action might be simply due to a lack of awareness how can we feel sad about a loss if we don t know what we are losing *Sailing Across a Wounded Sea* is the story of an ideal journey around the Mediterranean to meet its non human inhabitants consisting of real episodes collected over half a century as the author observed real animals exchanged views with a variety of contacts and argued for such views in the policy arena Encountering whales dolphins seals and rays in their habitat and on their terms will hopefully contribute to building up in readers a collective commitment to help secure a future for these species A future where they are allowed to flourish as they were meant to had humans never trod so heavily on the sea s delicate ecological balance and the interwoven natural processes Giuseppe Notarbartolo di Sciara has been involved for a lifetime in protecting marine biodiversity in various capacities as a scientist civil servant advocate and sailor Having studied in California and worked with whales dolphins and sharks worldwide he returned to the Mediterranean in 1985 keen on using his acquired tools to discover more about the ancient sea s natural history Here he described small but vibrant populations of fin and sperm whales along with various species of dolphins manta rays and the monk seal At the same time seeing the Mediterranean s progressive degradation at the hands of humans he felt a surge of rebellion against this squandering of natural values and wished to raise awareness of the existence of these marine natural treasures and the risk of losing them Drawing from decades of first hand experiences in *Sailing Across a Wounded Sea* Giuseppe Notarbartolo di Sciara offers a compelling narrative that interweaves the beauty of the Mediterranean Sea s non human inhabitants with the challenges they face due to human activity As he reflects on his journey the author underscores the imperative for collective action and the need for heightened awareness and proactive conservation measures to protect our oceans *Sailing Across a Wounded Sea* serves not only as a captivating voyage but also as a sobering call to responsibility Join Giuseppe Notarbartolo di Sciara on this insightful expedition and discover the profound significance of preserving our marine ecosystems for future generations Peter Thomson United Nations Secretary General s Special Envoy for the Ocean The Mediterranean the cradle of civilisation is a sea steeped in history From Apollon and Artemis to Pythagoras and Hercules names in this book summon up images of civilisations past and lost The greatest Greek philosopher of them all Aristotle is also regarded as the father of marine biodiversity stemming from his research conducted on Lesbos Island And yet this ancient world familiar to so many is under threat In this book Notarbartolo di Sciara takes us on a modern day odyssey through these waters based on over 50 years of personal

observations He reminds us of the impact of the progressive footprint of human action and endeavour which has spread out across the whole sea changing and depleting its beauty and splendour His voyage paints a picture not just of what is at stake but also of the potential the future can hold if we all work together to give nature a breathing space to allow it to restore and recover In our modern world where we have become more disconnected than ever from our surroundings this book is a rallying call to remind us that all our futures are intricately interwoven with nature and that we damage that at our peril Professor Dan Laffoley Emeritus marine Vice Chair IUCN World Commission on Protected Areas Who doesn't love a travelogue The serendipitous nature of a journey places and characters along the way shared insights and a joyous homecoming A key difference with *Sailing Across a Wounded Sea* is that encounters are all with marine creatures and their places in the natural world Set in the Mediterranean Notarbartolo di Sciara draws upon experiences from a life long love of the sea to take us with him cataloguing pressures and stresses on different communities of animals he knows well Explaining all is not as it should be Revealing that we have been unaware of impacts or in denial or asleep at the wheel Personal yet profound his consistent message is that we have taken too much and respected too little Too much food too much space and too many liberties Underpinning this journey is a heartfelt call to wake up and put things right which makes for a compelling read and a new and novel insight David Johnson Honorary Professor University of Edinburgh Coordinator Global Ocean Biodiversity Initiative Mission Blue Hope Spot Champion Everyone who cares about the Mediterranean Sea should read this impassioned and insightful book Few people know the whales dolphins seals and other marine wildlife struggling to survive in the Cradle of Civilisation and what needs to be done to help secure their future better than Giuseppe Notarbartolo di Sciara Mark Carwardine Bestselling author and environmentalist Jump aboard the Pontoporia with Giuseppe Notarbartolo di Sciara This book is a grand tour of the Mediterranean Sea made luminous through the eyes passions and concerns of a dedicated scientist and conservationist who has spent his life living and working in these waters Discover the history culture politics and most of all the diverse nature of the Mediterranean This well written memoir offers a wonderful ride though at times bumpy as a scientist who has done so much to help the Mediterranean come to terms with the future of this ancient storied sea Erich Hoyt Author *Planktonia* *Creatures of the Deep* *Marine Protected Areas for Whales Dolphins and Porpoises* and other books Warm and inviting as a Mediterranean breeze renowned marine biologist Giuseppe Notarbartolo di Sciara's beautiful book takes us on a modern day Odyssey around the sea of his birth It is a journey of entrancing encounters with the natural world tempered by a sobering warning that the Cradle of Civilisation cannot call itself civilised if it continues to destroy the sea that gave it life Isabella Tree Author of *Wilding* *Epic Win for Anonymous* Cole Stryker, 2011-09-01 A sharp witty and well researched history of 4chan and its cultural impact The Rumpus Created by a fifteen year old wunderkind in 2003 it is the creative force behind the Web's most infectious memes and catchphrases Wired Today it has millions of monthly users and enormous social influence *Epic Win for Anonymous* is the first book to tell 4chan's story Longtime blogger
