Transdisciplinary Higher Education Paul Gibbs,2017-05-23 This book is not just about thinking or acting in transdisciplinary ways but about being transdisciplinary To achieve this requires a deconstruction of our current way of acting within the definition of being that others impose upon us Transdisciplinarity is a phenomenological perspective of reality and its manifestation in the world in which we exist The volume develops a widely based transdisciplinary understanding of the issues faced by higher education institutions and those who work within and with these institutions to educate professionals It incorporates international contributions from organisational theory anthropologists historians psychologists social sciences philosophers and practitioners to create a volume that makes an important and distinct contribution to the literature on higher education and professional practice Transdisciplinarity provides one of our greatest

challenges in higher education both to the way it is organized and to the nature of the curriculum This book is an important contribution to the debate about its implications Higher education is being challenged by the nature of knowledge and how it is organized the world is transdisciplinary but our institutions are constrained by the disciplines This book contributes to the important debates about the challenges transdisciplinarity provides to our institutions Professor David Boud Emeritus Professor Faculty of Arts and Social Sciences University of Technology Sydney

Doing History Linda S. Levstik, Keith C. Barton, 2022-09-06 Now in its sixth edition Doing History offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The book is grounded in the view that children can engage in valid forms of historical inquiry asking questions collecting and analyzing evidence examining the varied perspectives and experiences of people in the past and creating evidence based historical accounts and interpretations Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing and discussion The authors explain how these classrooms reflect contemporary principles of teaching and learning and thus the descriptions not only provide specific examples of successful activities but also place them in a context that allows teachers to adapt and apply them in a wide range of settings Doing History emphasizes diversity in two ways Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning and they also see examples of how teachers can engage students with diverse experiences and perspectives in the past including those that led to conflict and oppression The book also discusses principles for working with English learners and newcomers and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning Updates to this edition include updated historical and instructional examples to ensure currency new suggestions for children's literature to support good teaching expanded attention to teaching about oppressed groups in history and greater attention to when historical perspective taking is and is not appropriate
