From Africa to America Moses O.

Biney,2011-01-05 Upon arrival in the United States most African immigrants are immediately subsumed under the category black In the eyes of most Americans and more so to American legal and social systems African immigrants are indistinguishable from all others such as those from the Caribbean whose skin color they share Despite their growing presence in many cities and their active involvement in sectors of American economic social and cultural life we know little about them In From Africa to America Moses O Biney offers a rare full scale look at an African immigrant congregation the Presbyterian Church of Ghana in New York PCGNY Through personal stories notes from participant observation and interviews Biney explores the complexities of the social economic and cultural adaptation of this group the difficult moral choices they have to make in order to survive and the tensions that exist within their faith community Most notably through his compelling research Biney shows that such congregations are more than mere ethnic enclaves or safe havens from American social and cultural values Rather they help maintain the essential balance between cultural acclimation and ethnic preservation needed for these new citizens to flourish

Preaching on Wax Lerone A. Martin,2014-11-14

The overlooked African American religious history of the phonograph industry Winner of the 2015 Frank S and Elizabeth D Brewer Prize for outstanding scholarship in church history by a first time author presented by the American Society of Church History Certificate of Merit 2015 Award for Excellence in Historical Recorded Sound Research presented by the Association for

Recorded Sound Collections From 1925 to 1941 approximately one hundred African American clergymen teamed up with leading record labels such as Columbia Paramount Victor RCA to record and sell their sermons on wax While white clerics of the era such as Aimee Semple McPherson and Charles Fuller became religious entrepreneurs and celebrities through their pioneering use of radio black clergy were largely marginalized from radio Instead they relied on other means to get their message out teaming up with corporate titans of the phonograph industry to package and distribute their old time gospel messages across the country Their nationally marketed folk sermons received an enthusiastic welcome by consumers at times even outselling top billing jazz and blues artists such as Bessie Smith and Ma Rainey These phonograph preachers significantly shaped the development of black religion during the interwar period playing a crucial role in establishing the contemporary religious practices of commodification broadcasting and celebrity Yet the fame and reach of these nationwide media ministries came at a price as phonograph preachers became subject to the principles of corporate America In *Preaching on Wax* Lerone A Martin offers the first full length account of the oft overlooked religious history of the phonograph industry He explains why a critical mass of African American ministers teamed up with the major phonograph labels of the day how and why black consumers eagerly purchased their religious records and how this phonograph religion significantly contributed to the shaping of modern African American Christianity

Instructor's Guide **Embodiment and the New Shape of Black Theological Thought** Anthony B. Pinn, 2010-06-07 Black theology tends to be a theology about no body Though one might assume that black and womanist theology have already given significant attention to the nature and meaning of black bodies as a theological issue this inquiry has primarily taken the form of a focus on issues relating to liberation treating the body in abstract terms rather than focusing on the experiencing of a material fleshy reality By focusing on the body as a physical entity and not just a metaphorical one Pinn offers a new approach to theological thinking about race gender and sexuality According to Pinn the body is of profound theological importance In this first text on black theology to take embodiment as its starting point and its goal Pinn interrogates the traditional source materials for black theology such as spirituals and slave narratives seeking to link them to materials such as photography that highlight the theological importance of the body Employing a multidisciplinary approach spanning from the sociology of the body and philosophy to anthropology and art history *Embodiment and the New Shape of Black Theological Thought* pushes black theology to the next level
