Religion And The One Philosophies East And West:

Religion and The One Frederick Copleston, 2003-01-01 Theories of one ultimate reality exist in philosophies of both the East and the West and in both traditions such theories are commonly connected with religion In Religion and the One Frederick Copleston explores the approach that different philosophies have taken to the question of divine reality with a special focus on the metaphysics of the One In the first part of the book Copleston looks at the features of different traditions discussing Taoist philosophy the Vedanta schools of thought in India the development of philosophy in the Islamic world and a number of movements from the Western tradition The second part questions why people form such theories exploring factors such as the nature of the self and the cognitive value of mysticism Writing with all his hallmark learning and lucidity the author also discusses the consequences of the metaphysics of the One for ethical ideals and social activism Approaching the issues in an open minded and unprejudiced fashion he does not pretend to have answers to all the questions he raises However unlike many theologians and philosophers he is not prepared to dismiss metaphysics as being inherently irreligious

Religion and the One Frederick Charles Copleston, 1999-12 *The Jamesian Mind* Sarin Marchetti, 2021-12-28 William James 1842 1910 is widely regarded as the founding figure of modern psychology and one of the most important philosophers of the nineteenth and twentieth centuries Renowned for his philosophical theory of pragmatism and memorable turns of phrase such as stream of consciousness and the will to believe he made enormous contributions to a rich array of philosophical subjects from the emotions and free will to religion ethics and the meaning of life The Jamesian Mind covers the major aspects of James s thought from his early influences to his legacy with over forty chapters by an outstanding roster of international contributors It is organized into seven parts Intellectual Biography Psychology Mind and Self Ethics Religion and Politics Method Truth and Knowledge Philosophical Encounters Legacy In these sections fundamental topics are examined including James s conceptions of philosophical and scientific inquiry habit self free will and determinism pragmatism truth and pluralism Considerable attention is also devoted to James in relation to the intellectual traditions of empiricism and Romanticism as well as to such other philosophical schools as utilitarianism British idealism Logical Empiricism and existentialism James s thought is also situated in an interdisciplinary context including modernism sociology and politics showcasing his legacy in psychology and ethics An indispensable resource for anyone studying and researching James s philosophy The Jamesian Mind will also interest those in related disciplines such as psychology religion and sociology

History and Systems of Psychology James F. Brennan, Keith A. Houde, 2022-11-17 The Eighth Edition of this classic textbook connects the rich story of psychology s past to contemporary research and practice **The Epistemology of Comparative Philosophy** Joseph Kaipayil, 1995 *Auden's O* Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W Hass explores the ascendancy of the concept of nothing into late modernity He

argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century s end this movement has shifted from linear progression to mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work *The Sea and the Mirror* an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times *The Missiological Spirit* Amos Yong, 2015-04-30 The field of the theology of mission has developed variously across Christian traditions in the last century Pentecostal scholars and missiologists also have made their share of contributions to this area This book brings the insights of pentecostal theologian Amos Yong to the discussion It delineates the major features of what will be argued as central to a viable vision and praxis for Christian mission in a postmodern post Christendom post Enlightenment post Western and postcolonial world What emerges will be a distinctively pentecostally and evangelically informed missiological theology one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses and realities The argument unfolds through dialogical engagements with the work of others concrete case studies and systematic theological reflection Yong s pneumatological and missiological imagination proffers a model for Christian theology of mission suitable for the twenty first century global and pluralistic context even as it exemplifies how a missiological understanding of theology itself unfolds amidst engagements with contemporary ecclesial practices and academic theological impulses **Reality, Religion, and Passion** Jessica Frazier, 2009-01-01 Radical doubt about the truths that govern life has posed a problem for thinkers in many different cultures and periods This study uncovers the solutions offered by a postmodern Western thinker Hans Georg Gadamer and an early modern Indian thinker Rupa Gosvami each of whom offers a renewed postskeptical vision of a revitalized life that is firmly rooted in the transcendental truths of reality *Methodologies of Comparative Philosophy* Robert W. Smid, 2010-07-02 What is comparative philosophy This question is ultimately a methodological one according to this much needed book The cultivation of area studies in diverse traditions has opened up opportunities for cross cultural understanding that have rarely existed before and comparative philosophy is a rapidly emerging area of inquiry Yet surprisingly little has been written on comparative methodology in philosophy Of course there is much at stake in how we compare things how comparison is done determines what comparison is Author Robert W Smid provides a critical review of four of the most influential comparative methodologies within the

American pragmatist and process philosophical traditions those of William Ernest Hocking F S C Northrop Robert Cummings Neville and David L Hall in collaboration with Roger T Ames Discussing the history of each methodology s development and critically assessing its strengths and weaknesses Smid demonstrates that it is possible to compare methods as well as traditions and encourages those interested to join the contemporary conversation Christianity and Classical Culture Jaroslav Pelikan,1993-01-01 The momentous encounter between Christian thought and Greek philosophy reached a high point in fourth century Byzantium and the principal actors were four Greek speaking Christian thinkers whose collective influence on the Eastern Church was comparable to that of Augustine on Western Latin Christendom In this erudite and informative book a distinguished scholar provides the first coherent account of the lives and writings of these so called Cappadocians named for a region in what is now eastern Turkey showing how they managed to be Greek and Christian at the same time Jaroslav Pelikan describes the four Cappadocians Gregory of Nazianzus Basil of Caesarea Gregory of Nyssa and Macrina sister and teacher of the last two who were trained in Classical culture philosophy and rhetoric but who were also defenders and expositors of Christian orthodoxy On one issue of faith and life after another the nature of religious language the ways of knowing the existence of God the universe as cosmos time and space free will and immortality the nature of the good life the purpose of the universe they challenged and debated the validity of the Greek philosophical tradition in interpreting Scripture Because the way they resolved these issues became the very definition of normative Christian belief says Pelikan their system is still a key to our understanding not only of Christianity s diverse religious traditions but also of its intellectual and philosophical traditions This book is based on the prestigious Gifford Lectures presented by Jaroslav Pelikan at the University of Aberdeen in 1992 and 1993 Rediscovering God with Transcendental Argument David Peter Lawrence,2015-07-29 Rediscovering God with Transcendental Argument provides a comparative philosophical study of the Pratyabhij a system of the medieval Kashmiri aiva thinkers Utpaladeva and Abhinavagupta Beginning with intensive descriptive and prescriptive reflections on the nature of philosophy itself the book examines the special characteristics of the Pratyabhij a discourse as both philosophical apologetics and spiritual exercise Lawrence situates the Pratyabhij a speculation within the larger context of Hindu and Buddhist deliberations about the role of interpretation in experience and gives a groundbreaking exposition of the epistemology and ontology of Shiva s self recognition He observes the similarities and differences of the Pratyabhij a with Christian understandings of the divine logos and argues that the aiva philosophy elucidates a cogent way of demonstrating the reality of God against contemporary relativism deconstructionism and other forms of skepticism *Love, the Ultimate Apologetic* Art Lindsley,2009-09-20 Defending the Christian faith is a multidimensional task But central to that task must be the presentation and example of the uniqueness of Christian love Author and apologist Art Lindsley explores the persuasive and illuminating power of Christ like love expressed in commitment conscience community and courage Such love Lindsley shows us does indeed bear ultimate witness to the living

truth of Jesus Christ Philosophy East & West ,2000 **Cognitive Sciences and Medieval Studies** Juliana Dresvina,Victoria Blud,2020-11-01 This study brings together medieval studies and cognitive methodologies in a study specifically aimed at medievalists It presents a longer history of certain mental health conditions and locates contemporary debates about the mind in a broader historical framework It considers both the benefits of incorporating insights from contemporary neuroscientific and cognitive studies into the exploration of the past and the benefits of employing historical models and case studies in order to reflect on modern methods Poem Unlimited David Kerler,Timo Müller,2019-09-23 Questions of genres as well as their possible definitions taxonomies and functions have been discussed since antiquity Even though categories of genre today are far from being fixed they have for decades been upheld without question The goal of this volume is to problematize traditional definitions of poetic genres and to situate them in a broader socio cultural historical and theoretical context The contributions encompass numerous methodological approaches including hermeneutics poststructuralism reception theory cultural studies gender studies periods Romanticism Modernism Postmodernism genres elegy sonnet visual poetry performance poetry hip hop as well as languages and national literatures From this interdisciplinary and multi methodological perspective genres periods languages and literatures are put into fruitful dialogue new perspectives are discovered and suggestions for further research are provided **The Thomist Tradition** Brian J. Shanley,2013-03-09 The Thomistic tradition takes its name from the thirteenth century religious thinker and saint who is its source and inspiration the Dominican Friar Thomas 1 Aquinas Aquinas understood himself to be a theologian and that is what he was This obvious biographical fact needs to be underlined at the beginning however 2 since it has often since been lost sight of in treatments of his thought The reason for this is that Aquinas also developed a powerful innovative and comprehensive philosophy which has proved to be at least as perennial if not more so than the theological synthesis that it was originally designed to serve His followers have kept both strains of his thought alive until this day but not always combining the same dual expertise Theology and philosophy have since become more distinct and as each has fragmented into sub disciplines of academic specialization it becomes harder and harder for anyone to master the thought of Aquinas as a as evidenced by the whole Yet grasping the whole is essential to grasping the part master work of Aquinas s mind his Summa theologiae You cannot understand any part of the Summa unless you understand its place within the whole and much violence has been done to Aquinas s thought by abstracting it from the larger context in order to present it in discrete units
