Literature and Nationalist Ideology Hans Harder,2017-08-03 Writing histories of literature means making selections passing value judgments and incorporating or rejecting foregoing traditions The book argues that in many parts of India literary histories play an important role in creating a cultural ethos They are closely linked with nationalism in general and various regional sub nationalisms in particular The contributors to this volume look at a great variety of aspects of the historiography of modern regional languages of India Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka

The Problem with Interreligious Dialogue Muthuraj Swamy,2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation *The Problem with Interreligious Dialogue* Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography

Between Muslim P?r and Hindu Saint Mukesh Kumar,2024-11-21 This book explores the changing form of religious culture in the Mewat region of north India

Divine Sounds from the Heart—Singing Unfettered in their Own Voices Rekha Pande,2010-09-13 Recent years have seen a sea change in the way history is written and also in the way our conceptions of the past are being rewritten In traditional historiography women s articulation is often marginalized and dominated by male voices Through centuries of patriarchal control women negotiated many layers and levels of existence working out different forms of resistance which have often gone unnoticed Bhakti was one such medium Religion provided the space in the

medieval period and women saints embraced bhakti to define their own truths in voices that question society family and relationships For all these women bhaktas the rejection of the male power that they were tied to in subordinate relationship became the terrain for struggle self assertion and alternative seeking Most of these women lived during the period from 12th to 17th Century While the dominant mode of worship in bhakti was prostration to a deity like a feudal lord the women bhaktas idea of God as a lover a husband and a friend came as a breath of fresh air The individual outpourings and the voices of these women who had the courage to sing unfettered in their own voices refused to melt in the din of the feudal scene which was largely patriarchal This book will be useful to scholars interested in Feminist History Comparative Religion and Asian Studies The sensitive and rigorous research will be of great help to young scholars interested in embarking on a journey to discover religious history especially with regards to women s history in the South Asian context

Hagiography and Religious Truth Rico G. Monge, Kerry P. C. San Chirico, Rachel J. Smith, 2016-09-16 The hagiographic materials from the world s religions can tell us much about the beliefs and practices of the people yet the limited degree to which hagiography has been used as an instrument for understanding diverse religious traditions is surprising Hagiography and Religious Truth provides a clearer understanding of the ways hagiography functions to disclose truth for practitioners and suggests various ways that these underexploited sources enrich our comprehension of broader issues in religious studies This volume provides a much needed cross cultural and interreligious comparison of saints lives iconography and devotional practices The contributors show that hagiographic sources can in fact be truths of manifestation which function as vehicles for prefiguring configuring and refiguring religious social and cultural life The editors argue that some meanings simply cannot be communicated effectively through historical critical methodologies By exploring how hagiography functions throughout several of the world s religious traditions this volume illustrates how various modes of hagiography articulate religious ideas and uniquely represent conceptions of sanctity
