Royal Commission on Court of Session and Office of Sheriff Principal,1927 **War, Politics and Finance in Late Medieval English Towns** Christian Drummond Liddy,2005 The strengthening of ties between crown and locality in the fourteenth century is epitomised by the relationships between York and Bristol then amongst the largest and wealthiest urban communities in England and the crown This book combines a detailed study of the individuals who ruled Bristol and York at the time with a close analysis of the texts which illustrate the relationship between the two cities and the king thus offering a new perspective on relations between town and crown in late medieval England Beginning with an analysis of the various demands financial political and commercial made upon the towns by the Hundred Years War the author argues that such pressures facilitated the development of a partnership in government between the crown and the two towns meaning that the elite inhabitants became increasingly important in national affairs The book goes on to explore in detail the nature of urban aspirations within the kingdom arguing that the royal charters granting the towns their coveted county status were crucial in binding their ruling elites into the apparatus of royal government and giving them a powerful voice in national politics *National Union Catalog* ,1973 Includes entries for maps and atlases **Anecdote Library; Being the Largest Collection of Personal and Historic Anecdotes Ever Assembled in a Single Colume ..** Editor of the Vocal library,1834 [Old Norse-Icelandic Philology and National Identity in the Long Nineteenth Century](#) ,2021-11-01 For centuries the literary heritage preserved in Icelandic medieval manuscripts has played a vital role in the self image of the Icelandic nation From the late eighteenth century Icelandic scholars had better opportunities than previously to study and publish this

material on their own terms Throughout the long nineteenth century they were intensely engaged in philological work on it This coincided with an increasing awareness among Icelanders of a separate nationality and their growing demand for autonomy What was the connection between the two developments This literature was also important for the shaping of identities among other Northern European nations The twelve chapters of this collection explore the interplay between various national discourses that characterized the scholarly reception of this heritage during the period Contributors are Alderik H Blom Clarence E Glad Matthew James Driscoll Gylfi Gunnlaugsson Simon Halink Hjalti Sn r gisson Jon Gunnar J rgensen Annette Lassen and Ragnhei ur M sesd ttir **Library of Congress Catalogs** Library of Congress,1976
