Russia In Search Of Itself:

Russia in Search of Itself James H. Billington, 2004-03-19 Billington describes the contentious discussion occurring all over Russia and across the political spectrum He finds conflicts raging among individuals as much as between organized groups and finds a deep underlying tension between the Russians attempts to legitimize their new nominally democratic identity and their efforts to craft a new version of their old authoritarian tradition After showing how the problem of Russian identity was framed in the past Billington asks whether Russians will now look more to the West for a place in the common European home or to the East for a new Eurasian identity

Explaining Russian Foreign Policy Behavior Alexander Sergunin, 2016-03-22 This book aims to explain the reasons behind Russia s international conduct in the post Soviet era examining Russian foreign policy discourse with a particular focus on the major foreign policy schools of Atlanticism Eurasianism derzhavniki realpolitik geopolitics neo Marxism radical nationalism and post positivism The Russian post Soviet threat perceptions and national security doctrines are studied The author critically assesses the evolution of Russian foreign policy decision making over the last 25 years and analyzes the roles of various governmental agencies interest groups and subnational actors Concluding that a foreign policy consensus is gradually emerging in contemporary Russia Sergunin argues that the Russian foreign policy discourse aims not only at the formulation of an international strategy but also at the search for a new national identity Alexander Sergunin argues that Russia s current domestic situation defined by numerous socio economic inter ethnic demographic environmental and other problems dictates the need to abandon superpower ambitions and to rather set modest foreign policy goals

intelligentsia He endured repeated attacks from ultraconservative anti Semitic circles inside the Orthodox Church Fr Men represented the spiritual vision of an open non authoritarian Christianity and his lectures were extremely popular He was murdered on September 9 1990 For years his work was unavailable in most church bookstores in Russia and his teachings were excoriated by some both within and outside the church But his books continue to offer hope to many throughout the world they have sold millions of copies and are testimony to his continuing relevance and enduring significance This

Refugee Policy, and State Building in Postcommunist Europe Oxana Shevel,2011-10-24 Why do similar postcommunist states respond differently to refugees Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the

Czech Republic Poland Russia and Ukraine **Freedom of Speech in Russia** Daphne Skillen, 2016-11-25 This book traces the life of free speech in Russia from the final years of the Soviet Union to the present It shows how long cherished hopes for an open society in which people would speak freely and tell truth to power faded under Gorbachev's glasnost how free speech was a real if fractured achievement of Yeltsin's years in power and how easy it was for Putin to reverse these newly won freedoms imposing a patrimonial media that sits comfortably with old autocratic and feudal traditions The book explores why this turn seemed so inexorable and now seems so entrenched It examines the historical legacy and Russia's culturally ambivalent perception of freedom which Dostoyevsky called that terrible gift It evaluates the allure of western consumerism and Soviet era illusions that stunted the initial promise of freedom and democracy The behaviour of journalists and their apparent complicity in the distortion of their profession come under scrutiny This ambitious study covering more than 30 years of radical change looks at responses from above and from below and asks whether the players truly understood what was involved in the practice of free speech **Canadian Slavonic Papers**, 2004 *Computational Science - ICCS 2003. Hanson, 2014-07-21 Twelve in depth case studies of the EU and countries across the globe written by the leading country specialists and combining insights of cutting edge institutional analysis and deep study of national histories explore how the concepts of interests identities and institutions shape the politics of nations and regions The country studies trace the global and historical contexts of political development and examine the diverse pathways that countries have taken in their quest to adapt to the competitive pressures of twenty first century globalization These country studies constitute the overarching framework of the text addressing the larger question why are countries ruled and governed so differently Free of heavy handed jargon Comparative Politics inspires thought provoking debate among introductory students and specialists alike and encourages students to engage in real comparative analysis In this new edition all twelve country studies have been rewritten and the first two theory chapters have been updated to reflect the latest research in the field Digital Racial Yasmin Ibrahim, 2023-02-13 This book examines the intimate relationship between race and technologies and how digital platforms reabsorb racism as an internal arrangement within its modes of technical and affective architecture Premising the idea that technologies supplant and mirror the logic of racialization as mimetic instruments of social control and violence the book interrogates the present

arrangement of platform capital and its modes of re abstraction of race into its fibres and terrains of re territorialization of the human spheres of social economic and political life If capitalism reframed and consolidated racialization through its re territorialization and primitive accumulation producing continuities from colonization and imperialism platformization and digital capital redrafts and redistributes its racial logic in new modes of reassembling social and economic life through data machine learning algorithms software designs and in tandem its automaticity In learning refining and accelerating its enterprise through the mimetic violence of producing difference racism in the digital age calibrates intimately with power Western rationality and the ubiquity of technologies within the everyday If the non hominization of alterity relied on discoveries of science and its conflations with truth and White supremacy the sustained production and oppression of the inferior other co opted automaticity and technologies reiterating our fascination with and our understanding of human progress as pegged to machines as entities working in excess of human cognition and comprehension connecting and responding to its ambient intelligence despite its material absence The book underpins the configuration of power and White supremacy through its co enterprise with technologies seeks to provide an alternative and decolonial approach to technology studies particularly new media and digital technological advancements leveraging on the notion of the digital age as an era of acceleration of difference experimentation and the production of alterity through overt and covert modes of surveillance image recognition software and algorithms which work in complicity with racial capital

ranging data and sources collected over 17 years such as legislation in depth interviews archival materials original texts and examples of different methods of complaints in Soviet and contemporary Russia Being marginal to the legal system and almost invisible for researchers of legal development the complaint mechanism has functioned as an extremely important way of restoring justice available to the majority of people in Russia for centuries It has survived several historical gaps and in a sense acts as a thread that stitches together different eras coexisting with the establishment and modernization of legal institutions compensating accompanying and sometimes substituting for them The research covers a period of over 100 years and shows how and why at major historical crossroads Russia chooses between full fledged legal modernization and saving the authoritarian social contract between the state and society This book will be especially useful to scholars researching Soviet society and Post Soviet transformations socio legal studies and liberal legal reforms but will also appeal to those working in the broader fields of Russian politics the history of Soviet society and justice issues more generally
