## A NEW SERBIAN-RUSSIAN DICTIONARY

**Abstract** The paper presents a New Serbian-Russian dictionary and the main principles of its development. We use the most recent explanatory dictionary of Serbian, published by the Serbian Academy of Sciences and Arts in 2018, as a starting point. However, we refine both the word list and the entry structure to meet the requirements of a bilingual edition. We consult text corpora of modern Serbian to check frequencies and define contexts of word usage. The paper describes the criteria for word list formation, discusses the problem of lexical equivalence in closely related languages, and articulates our guidelines for representing polysemy. The dictionary will be published in both traditional print format and as a website. The digital version will be implemented using the OnLex platform; we detail its functionality and highlight the new possibilities it offers to editors and potential users.

### 1. Introduction

The number of various electronic resources, such as corpora, dictionaries, and electronic databases for various languages, including Slavic, is continuously and rapidly growing. Despite this, there is currently no sufficiently complete and up-to-date dictionary which would be capable of fulfilling the needs of modern language users interested in Serbian and Russian. The most recent bilingual dictionary was published in 1957 by Iliya Tolstoy (expanded edition – 1970) (Tolstoy, 1970). Since then, not only have the vocabularies of both languages changed but also the approaches to writing and publishing dictionaries as well as lexical analysis in general.

To fill in this gap, we are creating a New Serbian-Russian dictionary. It is an ongoing project, implemented at the Department of Slavic Philology of Lomonosov Moscow State University in collaboration with the Department of Serbian Language at the University of Belgrade. For now, entries for words starting with the letters A, B, V, G, and D are already complete (approximately 10,000 entries in total), and those starting with the letters Đ, E, Ž, and Z are in progress. The estimated size of the complete dictionary is 80,000 entries.

The New Serbian-Russian dictionary is being created based on the most recent edition of the explanatory dictionary of the Serbian Academy of Sciences and Arts (RSJ, 2018). In compiling the dictionary and clarifying the meanings of words, text corpora, such as SrWac (2014) or PDRS (2022) are actively used. The dictionary is being developed in parallel in the traditional text format and in an electronic version on the OnLex platform (Makarov, 2024).
