Russian Views Of Japan An Anthology Of Early Travel Writing:

Russian Views of Japan, 1792-1913 David N. Wells, 2004-08-02 Before Japan was opened up in the 1850s contact with Russia as well as other western maritime nations was extremely limited Yet from the early eighteenth century onwards as a result of their expanding commercial interests in East Asia and the North Pacific Russians had begun to encounter Japanese and were increasingly eager to establish diplomatic and trading relations with Japan This book presents rare narratives written by Russians including official envoys scholars and later tourists who visited Japan between 1792 and 1913 The introduction and notes set these narratives in the context of the history of Russo Japanese relations and the genre of European travel writing showing how the Russian writers combined ethnographic interests with the assertion of Russian and European values simultaneously inscribing power relations and negotiating cultural difference

The Russian Discovery of Japan, 1670-1800 David N. Wells, 2019-08-30 During the period of the Tokugawa shogunate s seclusion policy from about 1630 onwards there was very little European interaction with the Japanese except through the restricted Dutch presence at Nagasaki During this period however Russians exploring Siberia and the Russian Far East came into contact with Japan and further exploration and information collecting was encouraged by the Russian government culminating in the first official Russian Embassy to Japan in 1792 This book examines the Russian discourse on Japan in the period tracing the gradual accumulation of knowledge and the development of Russian views sometimes distorted about Japan The book includes key historical documents some translated into English for the first time The book is a prequel to the author s previous book *Russian Views of Japan 1792-1913 An Anthology of Early Travel Writing*

Russian Views of Japan, 1792-1913 David N. Wells, 2004

Early Modern Southeast Asia, 1350-1800 Ooi Keat Gin, Hoang Anh Tuan, 2015-10-08 This book presents extensive new research findings on and new thinking about Southeast Asia in this interesting richly diverse but much understudied period It examines the wide and well developed trading networks explores the different kinds of regimes and the nature of power and security considers urban growth international relations and the beginnings of European involvement with the region and discusses religious factors in particular the spread and impact of Christianity One key theme of the book is the consideration of how well developed Southeast Asia was before the onset of European involvement and how during the peak of the commercial boom in the 1500s and 1600s many polities in Southeast Asia were not far behind Europe in terms of socio economic progress and attainments

China and Japan in the Russian Imagination, 1685-1922 Susanna Soojung Lim, 2013 Throughout the centuries as Russia strove to build itself into an imperial power equal to those in the West China and Japan came to occupy a special place in Russians view of the orient Never colonised by Russia or the West China and Japan were linked not only to the greatest of Russian imperial fantasies but also conversely to a deep sense of insecurity regarding Russia s place in the world a sense of insecurity which deepened as China and Japan began to modernise in the later nineteenth century Drawing on a wide range of works by Russian writers and thinkers Lim sets out how Russian

perceptions of China and Japan were formed from Muscovy's first contacts with China in the late seventeenth century through to the aftermath of Russia's defeat by Japan in the early twentieth century

Russia and Japan in the Sea of Okhotsk Scott C.M. Bailey, 2023-12-01 Bailey describes how the Sea of Okhotsk area became integrated into a world system of economic and cultural ties between the seventeenth and nineteenth centuries. This happened primarily because of maritime explorations, travel, and trade, which led to increased connections with both Russia and Japan. Individual chapters of the book provide analyses of historical sources which describe cross-cultural encounters and changes in the Sea of Okhotsk area. This includes analyses of explorers and travelers who traversed the region for commerce, exploration, diplomacy, and possible colonization. Historical sources are explored from the different perspectives of Russians, Japanese, Indigenous peoples, and international observers from Western countries. Cross-cultural encounters in the region among these groups led to collaboration, syncretism, and resistance, sometimes violent and sometimes peaceful. The last chapter discusses how some international travelers and foreign residents of Hokkaido described the area at the end of the nineteenth century. Their perspectives confirm that Hokkaido had become a fully colonized space. An essential resource for students and scholars of cross-cultural studies, Russian history, Japanese history, and Ainu and Indigenous history.

To Stand with the Nations of the World Mark Ravina, 2017-09-15 The samurai radicals who overthrew the last shogun in 1868 promised to restore ancient and pure Japanese ways. Foreign observers were terrified that Japan would lapse into violent xenophobia. But the new Meiji government took an opposite course. It copied best practices from around the world, building a powerful and modern Japanese nation with the help of European and American advisors. While revering the Japanese past, the Meiji government boldly embraced the foreign and the new. What explains this paradox? How could Japan's 1868 revolution be both modern and traditional, both xenophobic and cosmopolitan? *To Stand with the Nations of the World* explains the paradox of the Restoration through the forces of globalization. The Meiji Restoration was part of the global long nineteenth century, during which ambitious nation-states like Japan, Britain, Germany, and the United States challenged the world's great multi-ethnic empires: Ottoman, Qing, Romanov, and Hapsburg. Japan's leaders wanted to celebrate Japanese uniqueness, but they also sought international recognition. Rather than simply mimic world powers like Britain, they sought to make Japan distinctly Japanese in the same way that Britain was distinctly British. Rather than sing "God Save the King," they created a Japanese national anthem with lyrics from ancient poetry but Western-style music. The Restoration also resonated with Japan's ancient past. In the 600s and 700s, Japan was threatened by the Tang dynasty, a dynasty as powerful as the Roman empire. In order to resist the Tang, Japanese leaders borrowed Tang methods, building a centralized Japanese state on Tang models and learning continental science and technology. As in the 1800s, Japan co-opted international norms while insisting on Japanese distinctiveness. When confronting globalization in the 1800s, Japan looked back to that ancient globalization of the 600s and 700s. The ancient past was therefore not remote or distant but immediate and vital.

The Northern Region of Korea Sun Joo Kim,2011-06-01 The residents of the three northern provinces of Korea have long had cultural and linguistic characteristics that have marked them as distinct from their brethren in the central area near the capital and in the southern provinces The making and legitimating of centralized Korean nation states over the centuries however have marginalized the northern region and its distinct subjectivities Contributors to this book address the problem of amnesia regarding this distinct subjectivity of the northern region of Korea in contemporary historical and cultural discourses which have largely been dominated by grand paradigms such as modernization theory the positivist perspective and Marxism Through the use of storytelling linguistic analysis and journal entries from turn of the century missionaries and traveling Russians in addition to many varieties of unconventional primary sources the authors creatively explore unfamiliar terrain while examining the culture identity and regional distinctiveness of the northern region and its people They investigate how the northern part of the Korean peninsula

developed and changed historically from the early Choson to the colonial period and come to a consensus regarding the importance of regionalism as a vital factor in historical transformation especially in regard to Korea's tumultuous modern era

The period 1770-1820 was decisive for the reformation of imperial projects in the wake of military catastrophe and politico-economic crisis both in the Atlantic and the Asian Pacific spheres economic and political worlds dominated by complex trade systems and violent contest. This conjuncture also saw the overhaul of networks and institutions of natural knowledge whether commercial voluntary or organs of state. Both the industrial and the second scientific revolutions have been dated to this moment. New and decisive relations were forged between different cultures knowledge carriers. The authors consider knowledge movements of the epoch that escape simple models of metropolitan centre and remote colonial periphery. They question the immutable character of mediators and agents in knowledge communication.

Jejich zobrazení v nesčetných filmech knihách i komiksech jim propůjčilo téměř mytickou podobu neohrožených bojovníků jejich meče rozsvětlily smrt na bitevních polích. Realita však byla mnohdy jiná než moderní představa. I samurajové byli pouze lidmi z masa a kosti. Přesto samurajové proto tyto legendární bojovníky představuje v trochu odlišném světle. The Columbia Anthology of Modern Japanese Literature J. Thomas Rimer, 2011-11-15 Featuring choice selections from the core anthologies The Columbia Anthology of Modern Japanese Literature From Restoration to Occupation 1868-1945 and The Columbia Anthology of Modern Japanese Literature From 1945 to the Present this collection offers a concise yet remarkably rich introduction to the fiction, poetry, drama, and essays of Japan's modern encounter with the West Spanning a period of exceptional invention and transition, this volume is not only a critical companion to courses on Japanese literary and intellectual development but also an essential reference for scholarship on Japanese history, culture, and interactions with the East and West The first half covers the three major styles of literary expression that informed Japanese writing and performance in the late nineteenth and early twentieth centuries: classical Japanese fiction and drama, Chinese poetry, and Western literary representation and cultural critique Their juxtaposition brilliantly captures the social, intellectual, and political challenges shaping Japan during this period, particularly the rise of nationalism, the complex interaction between traditional and modern forces, and the encroachment of Western ideas and writing The second half conveys the changes that have transformed Japan since the end of the Pacific War, such as the heady transition from poverty to prosperity, the friction between conflicting ideologies and political beliefs, and the growing influence of popular culture on the country's artistic and intellectual traditions Featuring sensitive translations of works by Nagai Kafu, Natsume Soseki, Ōe Kenzaburo, Kawabata Yasunari, Mishima Yukio, and many others, this anthology relates an essential portrait of Japan's dynamic modernization
