Urban,Vyacheslav Igrunov,1997-03-28 Blending first hand accounts of grassroots politics with an original theory of social relations under communism this 1997 book seeks to explain one of the seminal events of this century the rebirth of politics in Russia amid the collapse of the USSR The authors trace the process from the pre political period of dissident activity through perestroika and the appearance of political groups and publications elections the formation of political parties and mass movements counter revolution and coup d tat the victory of democratic forces and the organization of a Russian state to the struggle of power in the post communist epoch the violent end of the first republic and the contentious relations engulfing its successor By focusing on the popular forces which accomplished Russia s political rebirth rather than the reforms of the Soviet establishment this book offers an original perspective on this critical period

Understandings of Russian Foreign Policy Ted Hopf,2010-11-01 Scholars from Asia Europe and North America working

with the support of the Finnish Institute of International Affairs combine their efforts to bring us new insights into how Russia has conducted its foreign affairs since the fall of Communism Drawing on both archival sources and interviews they cover such major issues as Russia's decision to use military force in Chechnya its reactions to NATO expansion and its emergent relations with Japan and East Asia The contributors are Eunsook Chung Henrikki Heikka Ted Hopf Andrea Lopez Hiroshi Kimura Sergei Medvedev and Christer Pursiainen *Capitalism with a Human Face* William Gay, T. A.

Alekseeva, 1996 Combining the theoretical perspectives of a leading Russian political scientist and an American political philosopher who have collaborated for years *Capitalism with a Human Face* analyzes the relation between economics and politics in Russia as it moves toward modernization Throughout the book the authors contrast Western media accounts of the Russian situation with less accessible but more relevant data gathered in Russia since 1991 They advocate a new notion of centrism for Russia one that combines democratic politics and a market economy without abandoning the social guarantees on which many Russians have long relied and without which their political and economic life is likely to remain in turmoil This will be an important work for scholars and students of social and political philosophy international relations comparative politics and economics *Ukraine under Kuchma* Taras Kuzio, 2016-07-27 *Ukraine under Kuchma* is the first survey of

recent developments in post soviet Ukraine The book covers in an in depth manner the entire range of key developments since the 1994 parliamentary and presidential elections the first elections held in post soviet Ukraine The new era ushered in by these elections led to Ukraine's launch of radical economic and political reforms which aim to domestically dismantle soviet power within Ukraine stabilise relations with the separatist Crimean region and normalise relations with Russia and the West *Economic Development in Tatarstan* Leo McCann, 2004-08-02 Based on extensive original research in the

Republic of Tatarstan in the Central Volga region of Russia this book examines the economic development path followed by Tatarstan since the collapse of the Soviet Union and the Russian financial crash of 1998 It argues that the roles of global capitalism and globalisation are somewhat exaggerated in much contemporary academic literature In the case of Tatarstan a strong state role tightly knit local elite networks and the inheritance of the Soviet politic and industrial systems are the most important socio economic formations in explaining the region's development **After the Breakup of a Multi-Ethnic**

Empire Susanne M. Birgersson, 2001-12-30 The relationship between the Russian Federation and the 14 non Russian successor states is unequal with Russia the dominant power This power imbalance is a hold over from the Soviet era in which the RSFSR was first among equals Empires like the Soviet one are specific types of political systems that differed from modern states The centralized multi ethnic and non democratic character of empires explains the continued dominance of the Russian Federation It also explains the absence of alternative economic arrangements and political contacts between the former republics The Soviet system was structured so as to establish Russian control over non Russian republics The political structure was centralized so that all decisions including investment production and distribution decisions were made in

Moscow Economic planning dictated a complex network of production and distribution that rendered the former republics dependent on Russia in a variety of ways Soviet patterns of government administration and economic management are still evident in all the former republics Continued dependency on Russia has compromised the state building efforts of the former republics Political rhetoric trumpeting new foreign investment the expansion of diplomatic relations the signing of trade agreements and the imminent entrance into international organizations masks the fact that none of these new contacts have been able to replace the old Soviet production and distribution networks Scholars and students involved with comparative politics and Russian post Communist Studies will find the work of particular value

After Communism: Perspectives on Democracy (p) Donald R. Kelley, 2003 In this collection top scholars of Soviet and post Soviet studies convene to explore communism's aftermath They consider state building and constitutionalism the transition to market capitalism and democracy across Eastern Europe the political development of Muslim states the complex and differential developments of electoral systems the risks and opportunities of nationalism and new political and economic activities in Russia from corruption to contracts Editor Donald Kelley introduces the volume with a synthesis of the theoretical and empirical findings of the volume and his brief chapter introductions place each contribution in relation to the other essays and to larger debates on democratization

Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it choose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states

The International Politics of East Central Europe Adrian G. V. Hyde-Price, 1996 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the *Studies in Imperialism* series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children's literature The cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military

concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour

The International Politics of Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997 This book is the ninth in a series of volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author's view that future scholarship about the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires

[The End of Empire?](#) Karen Dawisha, Bruce Parrott, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an Informa company

Uncertain Europe Martin Smith, Graham Timmins, 2002-04-12 This timely book considers the topical issue of the enlargement processes of the European Union and NATO The contributors examine issues including the dual enlargement process and German and Russian relationships with it NATO and the pan European security agenda East European reactions to enlargement and concepts of security in the new Europe This book provides a cohesive overview of the pan European security debate and is an essential resource for students and academics interested in the development of the European Union
