Rusted Dreams Hard Times In A Steel Community:

Rusted Dreams David Bensman, Roberta Lynch, 1987 The larger consequences of the sharp decline of the American steel industry in the late 1970s and the 1980s are epitomized in the experience of a South Chicago neighborhood where two large steel mills shut down mass unemployment and hardship family tensions deterioration of community institutions decay of local businesses and helplessness of business political and union leaders when confronted by the larger economic and political forces that had engulfed the industry Bensman and Lynch believe that only a comprehensive strategy encompassing permanent import restrictions industry modernization and measures to widen the market for steel will save the industry and its workers This is a perceptive and sympathetic account

Chicago's Industrial Decline Robert Lewis, 2020-12-15 In Chicago's Industrial Decline Robert Lewis charts the city's decline since the 1920s and describes the early development of Chicago's famed and reviled growth machine Beginning in the 1940s and led by local politicians downtown business interest financial institutions and real estate groups place dependent organizations in Chicago implemented several industrial renewal initiatives with the dual purpose of stopping factory closings and attracting new firms in order to turn blighted property into modern industrial sites At the same time a more powerful coalition sought to adapt the urban fabric to appeal to middle class consumption and residential living As Lewis shows the two aims were never well integrated and the result was on going disinvestment and the inexorable decline of Chicago's industrial space By the 1950s Lewis argues it was evident that the early incarnation of the growth machine had failed to maintain Chicago's economic center in industry Although larger economic and social forces specifically competition for business and for residential development from the suburbs in the Chicagoland region and across the whole United States played a role in the city's industrial decline Lewis stresses the deep incoherence of post WWII economic policy and urban planning that hoped to square the circle by supporting both heavy industry and middle to upper class amenities in downtown Chicago

Voices of Guinness Tim Strangleman, 2019-05-02 Imagine a workplace where workers enjoyed a well paid job for life one where they could start their day with a pint of stout and a smoke and enjoy free meals in silver service canteens and restaurants During their breaks they could explore acres of parkland planted with hundreds of trees and thousands of shrubs Imagine after work a place where employees could play more than thirty sports or join one of the theater groups or dozens of other clubs Imagine a place where at the end of a working life you could enjoy a company pension from a scheme to which you had never contributed a penny Imagine working in buildings designed by an internationally renowned architect whose brief was to create a building that would last a century or two This is no fantasy or utopian vision of work but a description of the working conditions enjoyed by employees at the Guinness brewery established at Park Royal in West London in the mid 1930s In this book Tim Strangleman tells the story of the Guinness brewery at Park Royal showing how the history of one plant tells us a much wider story about changing attitudes and understandings about work and the organization in the twentieth and early twenty first centuries Drawing on extensive oral history interviews with staff and management as well as a wealth of archival and photographic sources the book shows how progressive ideas of workplace citizenship came into conflict with the pressure to adapt to new expectations about work and its organization Strangleman illustrates how these changes were experienced by those on the shop floor from the 1960s through to the final closure of the plant in 2005 This book asks striking and important questions about employment and the attachment workers have to their jobs using the story of one of the UK and Ireland s most beloved brands Guinness
