**Missions, Nationalism and the End of Empire** Stanley,Alaine M. Low,2003 Christian missions have often been seen as the religious arm of Western imperialism What is rarely appreciated is the role they played in bringing about an end to the Western colonial empires after the Second World War *Missions Nationalism and the End of Empire* explores this neglected subject Respected authorities on the history of missions explore new territory in these chapters examining from diverse angles the linkages between Christianity nationalism and the dissolution of the colonial empires in Asia and Africa This work not only sheds light on the relation of religion and politics but also uncovers the sometimes paradoxical implications of the church s call to bring the gospel to all the world Contributors Daniel H Bays Philip Boobbyer Judith M Brown Richard Elphick Deborah Gaitskell Adrian Hastings Caroline Howell Ka che Yip Ogbu U Kalu Hartmut Lehmann Derek Peterson Andrew Porter Brian Stanley John Stuart

*Faith and Science in Russian Religious Thought* Teresa Obolevitch,2019-05-09 *Faith and Science in Russian Religious Thought* provides a comprehensive analysis of the relationship between science and faith in Russian religious thought Teresa Obolevitch offers a synthetic approach on the development of the problem throughout the whole history of Russian thought starting from the medieval period and arriving in contemporary times She considers the relationship between science and religion in the eighteenth century the so called academic philosophy of the 19th and 20th century the thought of Peter Chaadaev the Slavophiles and in the most influential literature figures such as Fedor Dostoevsky and Lev Tolstoy The volume also analyses two channels of the formation of philosophy in the context of the relationship between theology and science in Russia The first is connected with the attempt to rationalize the truths of faith and is exemplified by Vladimir Soloviev and Nikolai Lossky the second with the apophatic tradition is presented by Pavel Florensky and Semen Frank The book then describes the relation to scientific knowledge in the thought of Lev Shestov Nikolai Berdyaev Sergius Bulgakov and Alexei Losev as well as the original project of Russian Cosmism on the examples of Nikolai Fedorov Konstantin Tsiolkovsky and Vladimir Vernadsky Obolevitch presents the current state of the discussion on this topic by paying attention to the Neopatristic synthesis Fr Georges Florovsky and his followers and offers the brief comparative analyse of the relationship between science and religion from the Western and Russian perspectives

S.L. Frank Philip Boobbyer,1995 There are many reasons for writing a biography of Semyon Frank Quite apart from his philosophy he lived a remarkable life Born in Moscow in 1877 he was exiled from Soviet Russia in 1922 and died in London in 1950 The son of a Jewish doctor he became a revolutionary Social Democrat in his teens and finished his life as a Neoplatonist Christian One of the Russian revisionist Marxists he was then involved in the Kadet Party during the 1905 revolution before breaking with active political activity and turning to philosophy He lived in Petrograd through the First World War until September 1917 after which he went to Saratov where he experienced the chaos of the Russian Civil War Living in Germany after his exile he witnessed the rise of Hitler in Berlin left for France in a hurry in 1937 and spent part of the war hiding from the Gestapo in

the Grenoble mountains It was a life that encompassed a lot of history Yet along with this Frank was arguably Russia s greatest twentieth century philosopher Indeed V V Zen kovskii the historian of Russian philosophy considered Frank in strength of philosophic vision the most outstanding among Russian philosophers generally not merely among those who share his ideas For its lucidity conciseness systematic character and unity Zen kovskii considered Frank s system the highest achievement of Russian philosophy Doubtless Zen kovskii s assessment is disputable but his remarks emphasize Frank s stature in the Russian tradition In the style of German idealism Frank constructed a comprehensive philosophical system which he believed offered a coherent alternative to materialism He was deeply worried by the implications of epistemological relativism and constructed a system of metaphysics designed to link epistemology and ontology to bridge the gulf between thought and being In addition he attempted to express the idea of a personal God in philosophical language His system also embraced social philosophy anthropology and ethics from the Introduction by the author

**God as Love** Johannes M. Oravec, 2014-04-19 Nineteenth and twentieth century Russian religious intellectuals devoted a great deal of attention to the concept of agape or Divine Love arguing that the Christian church is a reflection of the triune self sacrificing God and his love for all of creation On account of their deliberations these intellectuals played a key role in mediating between the Orthodox Church and modern society Their quest for dialogue between the mystery of the sacred and the ordinary of everyday life remains relevant for Western societies today In *God as Love* Johannes Oravec presents a comprehensive summation of twenty five prominent Russian religious thinkers and their thought on the concept of agape showing in detail how they broke new ground in their various affirmations of the truth that God is love No other book in any language treats this topic with such breadth and depth

The Life and Work of Semen L. Frank Stephanie Solywoda,2008-06-10 Semen Frank is one of the most interesting and exciting pre-revolutionary Russian religious philosophers to be rediscovered after the fall of the Soviet Union His involvement in Russian pre-revolutionary political and academic life brought Frank into contact with an imaginative progressive and idealistic group of thinkers whose ranks he then joined Like Nicholas Berdyaev and Fr Sergei Bulgakov Frank put forward his own philosophical views about their world which was in upheaval and about human nature After emigration from the then young Soviet Union Frank continued to produce his impressive body of work His ideas are remarkable for their considered moderate and tolerant nature This book is a contribution to the ever growing body of scholarship which strives to connect Russian thought to its contemporary Western context and continues to facilitate the revival of these fascinating thinkers In addition to situating Frank's thought in a Western context this work seeks to provide an overview of his thought and introduce his key arguments to those unfamiliar with Russian religious philosophy      **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
