Religion Anna Xiao Dong Sun, 2013 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century **Encyclopedia of World Religions** Bruno Becchio, Johannes P. Schädé, 2006 Enhanced by more than one thousand full colour illustrations a concise guide features thousands of references to literature art history famous figures and philosophy with respect to religion covering the beliefs doctrines practices teachings rites of passage and specific rituals

of the world's major religions **Approaching the World's Religions, Volume 1** Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today. It deviates from the typical approaches used for the study of world religions. Its goal is to engage readers in thinking hard about world religions, not about the data surrounding those traditions. By focusing on philosophical questions, each reader should be challenged to do their own investigations that may reveal the heart of these traditions. Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions. Pluralism, which is the predominate assumption today, ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory. By taking an open inclusivist approach, all religious traditions may engage at the table of dialogue. The final essay is about justice and social affairs. While that discussion is couched within the context of a particular tradition, each religious tradition must have the discussion. But it must be more than an intrareligious dialogue; it must become an interreligious dialogue. **The Encyclopedia of World Religions** Robert S. Ellwood, 2008. Contains nearly 600 brief entries on the world's religious traditions. Discovering the Bible in the Non-Biblical World Pui-Lan Kwok, 2003-09-16. As a Chinese woman, a feminist theologian, and a biblical scholar, Pui lan Kwok brings a new perspective and voice to the task of hermeneutics. Her multidimensional reading of the Bible draws on a tradition much older than that of the West while it simultaneously incorporates the insights of contemporary feminist and Third World theologies. Seeing herself as wanderer between the worlds of East and West, Pui lan Kwok draws on the work of contemporary biblical scholars as well as the millennia-old commentaries on the Book of Change, the Dao de Jing, and the Bhagavad Gita. Her creativity and imagination come into play as she gradually inseparably links reader, text, and context. The first three chapters locate the context from which she approaches the Bible as an Asian woman. Pui lan considers Asian traditions as well as the social biography of Asian peoples and discusses the complex issues of using the Bible in feminist theology. Chapters Four and Five approach the unique Asian context with its long traditions of orality and exegesis of ancient scriptures. Chapter Six analyzes the challenges of Asian critics to western interpretations of scripture and raises sharp issues of colonial oppression. Finally, Discovering the Bible in the Non-Biblical World shows how the multiple oppressions of women provide a context for rediscovering the Bible's liberating message. Must reading for anyone engaged in biblical studies, cross-cultural education, and feminist theology. I highly recommend this richly instructive and powerful book. Elisabeth Schassler Fiorenza, Harvard Divinity School. An important addition to the fast-growing literature on Asian biblical discourse. R. S. Sugirtharajah, University of Birmingham. A significant contribution to the hermeneutical conversation arising from the global context of reading of the Bible. Sharon H. Hinge, Wesley Theological Seminary. **A Plea for Religion ...
