The Saddle-horse Orange Judd Company,1908

[The Saddle-Horse; a Complete Guide for Riding and Training](#) Anonymous,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1882 edition Excerpt CHAPTER III BITS AND BITTING The second part of Major Dwyer's book which is perhaps even more valuable than the first relates to Bits and Biting and he shows more conclusively than any writer who has preceded him the importance of great care in the adjustment and management of the bit and bridle giving some opinions which are quite new to the writer and which are obviously important His device for the head gear of a young horse that is to be broken for any purpose or of any horse that is to be trained to the saddle we show in figure 9 This is an ordinary snaffle bridle with a single pair of reins with the check pieces drawn short enough to cause the bit to touch lightly in the corners of the mouth There is attached to it by two straps buckled one into each checkpiece a nose band or strap which passes around the nose quite below

the bit but high enough to take its bearing on the bone rather than on the cartilage of the nose This strap is drawn tight enough to prevent the horse from opening his mouth to any considerable width There is no way in which a colt does more to make himself insensible to the action of the bridle than by stretching open his jaw and bearing against the bit From the position of this nose band it is entirely out of the way of both bridle and bit and as the mouth is not entirely bound together by it it can in no way interfere with proper control by the rider It simply prevents the horse from resorting to a very common means of defence Another apparatus described must be very useful not only in training but in the management of all horses who have the trick of carrying their heads so high as to cause the bit when pulled upon to ride up into the corners of their mouths instead of
