William S. Allen

Sade My Neighbour:

Sade My Neighbor Pierre Klossowski, 1991-06 Enlightenment ideals of a society rooted in liberationist reason and morality were trampled in the wake of the savagery of the Second World War That era's union of cold technology and ancient hatreds gave rise to a dark alternative reason an ethic that was value free and indifferent with regard to virtue and vice freedom and slavery In a world where the unthinkable had become reality it is small wonder that theorists would turn to the writings of a man whose eighteenth century imagination preceded twentieth century history in its unbridled exploration of viciousness perversion and monstrosity the Marquis de Sade Klossowski was one of the first philosophers in postwar Europe to ask whether Sade's reason although aberrant and perverted to evil passions could be taken seriously Klossowski's seminal work inspired virtually all subsequent study of Sadean thought including that of de Beauvoir Deleuze Derrida Bataille Blanchot Paulhan and Lacan

Sade My Neighbour Pierre Klossowski, 1992 **Žižek and His Contemporaries** Jones Irwin, Helena Motoh, 2014-08-14 New interviews with Slavoj Žižek and his contemporaries accompanied by critical analysis of the wider Slovenian philosophical and cultural context that spawned their thought

Surrealism, History and Revolution Simon Baker, 2007 This book is a new account of the surrealist movement in France between the two world wars It examines the uses that surrealist artists and writers made of ideas and images associated with the French Revolution describing a complex relationship between surrealism's avant garde revolt and its powerful sense of history and heritage Focusing on both texts and images by key figures such as Louis Aragon Georges Bataille Jacques André Boiffard André Breton Robert Desnos Max Ernst Max Morise and Man Ray this book situates surrealist material in the wider context of the literary and visual arts of the period through the theme of revolution It raises important questions about the politics of representing French history literary and political memorial spaces monumental representations of the past and critical responses to them imaginary portraiture and revolutionary spectatorship The study shows that a full understanding of surrealism requires a detailed account of its attitude to revolution and that understanding this surrealist concept of revolution means accounting for the complex historical imagination at its heart

The Object of Literature Pierre Macherey, 1995-03-16 This 1995 book by Pierre Macherey was his first dealing with literature and theory since his seminal *A Theory of Literary Production* Continuing the project of Althusserian theory Macherey engages in a series of close exegeses of classical texts in French literature and philosophy from the late eighteenth century down to the 1970s that explore the historically variable but thematically similar ways in which literary texts represent philosophical ideas Rejecting the simple notion that literature deploys philosophical topoi in an unmediated manner Macherey shows the conceptual sophistication and broad intellectual influence that literary art has displayed in the modern period At once a theoretical meditation of great originality and a historical work of scrupulous scholarship *The Object of Literature* will entrench Pierre Macherey's already considerable reputation as one of the most significant contemporary theoreticians of literature

The Event, the Subject, and the

Artwork R.A. Goodrich, Ann McCulloch, 2015-06-18 Partly guided by Alain Badiou's controversial Century and its interpretation of the events and art of the last century this book opens debates about these for the twenty first century This book examines the extent to which such debates can be applied to the first decades of the twenty first century and the extent to which analyses of events and subjectivities in the twentieth century can be re thought from the perspective of this century This book is also partly guided by Gilles Deleuze's

Lars von Trier's Women Rex Butler, David Denny, 2016-11-17 The Danish director Lars von Trier is undoubtedly one of the world's most important and controversial filmmakers and arguably so because of the depiction of women in his films He has been criticized for subjecting his female characters to unacceptable levels of violence or reducing them to masochistic self abnegation as with Bess in *Breaking the Waves* She in *Antichrist* and Joe in *Nymphomaniac* At other times it is the women in his films who are dominant or break out in violence as in his adaptation of Euripides *Medea* the conclusion of *Dogville* and perhaps throughout *Nymphomaniac* Lars von Trier's *Women* confronts these dichotomies head on Editors Rex Butler and David Denny do not take a position either for or against von Trier but rather consider how both attitudes fall short of the real difficulty of his films which may simply not conform to any kind of feminist or indeed anti feminist politics as they are currently configured Using Lacanian psychoanalysis and acknowledging the work of prior scholars on the films *Lars von Trier's Women* reveals hidden resources for a renewed feminist politics and social practice

Spaces of Crisis and Critique Anthony Faramelli, David Hancock, Robert G. White, 2018-09-20 In *Of Other Spaces* Foucault coined the term heterotopias to signify all the other real sites that can be found within the culture which are simultaneously represented contested and inverted For Foucault heterotopic spaces were first of all spaces of crisis or transformative spaces however these have given way to heterotopias of deviation and spaces of discipline such as psychiatric

hospitals or prisons Foucault's essay provokes us to think through how spaces of crisis and critique function to open up disruptive subversive or minoritarian fields within philosophical political cultural or aesthetic discourses This book takes this interdisciplinary and international approach to the spatial challenging existing borders boundaries and horizons from Claire Colebrook's chapter unpacking the heterotopic spaces of America and Mexico that lie beyond reductive ideological spaces of light and darkness to a Foucauldian reading of the Zapatista resistance With essays on politics philosophy literature post colonial studies and aesthetics from established and emerging academics this book answers Foucault's call to give us a better understanding of our present cultural epoch

Helvete 2 Niall Scott, Steve Shakespeare, 2015-05-19 Not to be confused with metal studies music criticism ethnography or sociology Helvete A Journal of Black Metal Theory is a speculative and creative endeavor one which seeks ways of thinking that count as Black Metal events and indeed to see how Black Metal might count as thinking Theory of Black Metal and Black Metal of theory Mutual blackening Therefore we eschew any approach that treats theory and Metal discretely preferring to take the left hand path by insisting on some kind of connaturality between the two a shared capacity for nigredo Issue 2 focuses on the theme of Inversions in Black Metal Nailed at the heart of many a logo suspended from the neck held out in Satanic blessing the inverted cross is one of black metal's anti icons The antithesis of a revelation of light it signifies an originary blasphemy Forsaking ascension and mining a path towards the centre of the earth black metal finds a satanic stain lodged at the core of being However the significance of this movement is not bound by a simple reversal The inverted cross hangs above a swarming logic of inversion the overturning of Christianity but also a mimesis of Christian self desecration the rejection of certain forms of religion but also of modernity's pallid enlightenment the invocation of strange gods of the earth even as the earth is cursed When thought becomes poison it is no longer so easy to determine which way is up and which way is down To throw down one's head to push oneself into the cursed earth to occupy the place of the inverted crucified is this to think by not thinking an unconditioned rapture beyond negation and affirmation

Without End William S. Allen, 2017-12-28 The reputation of the Marquis de Sade is well founded The experience of reading his works is demanding to an extreme Violence and sexuality appear on almost every page and these descriptions are interspersed with extended discourses on materialism atheism and crime In this bold and rigorous study William S Allen sets out the context and implications of Sade's writings in order to explain their lasting challenge to thought For what is apparent from a close examination of his works is the breadth of his readings in contemporary science and philosophy and so the question that has to be addressed is why Sade pursued these interests by way of erotica of the most violent kind Allen shows that Sade's interests lead to a form of writing that seeks to bring about a new mode of experience that is engaged in exploring the limits of sensibility through their material actualization In common with other Enlightenment thinkers Sade is concerned with the place of reason in the world a place that becomes utterly transformed by a materialism of endless excess This concern underlies his interest in crime and sexuality and thereby puts him in the closest proximity to

thinkers like Kant and Diderot but also at the furthest extreme in that it indicates how far the nature and status of reason is perverted. It is precisely this materialist critique of reason that is developed and demonstrated in his works and which their reading makes persistently excessively apparent.

Artificial Hells Claire Bishop, 2012-07-24 The award winning highly acclaimed *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art known in the US as social practice. In recent decades the art gallery and the museum have become a place for participatory art where an audience is encouraged to take part in the artwork. This has been heralded as a revolutionary practise that can promote new emancipatory social relations. What was it is really. In this fully updated edition Claire Bishop follows the trajectory of twentieth century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada, the Situationist International, Happenings in Eastern Europe, Argentina and Paris the 1970s Community Arts Movement and the Artists Placement Group. It concludes with a discussion of long term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Pawel Althamer and Paul Chan. Bishop challenges the political and aesthetic ambitions of participatory art, this practise. She not only scrutinizes the emancipatory claims but also provides an alternative to the ethical rather than artistic criteria invited by such artworks. In response *Artificial Hells* calls for a less prescriptive approach to art and politics and for more compelling troubling and bolder forms of participatory art and criticism.

Georges Bataille Benjamin Noys, 2000-05-20 This is a guide to the life and work of the French intellectual Georges Bataille, best known as the author of the celebrated erotic novel *The Story of the Eye*. Benjamin Noys introduces Bataille as a writer out of step with the dominant intellectual trends of his day, surrealism and existentialism, and shows that it was his very marginality that accounted in large part for his subsequent importance for the post structuralists and the counterculture in Europe and in the United States. Treating Bataille's work as a whole rather than focusing as other studies have done on aspects of his work, i.e. as social theory or philosophy, Noys' study is intended to be sensitive to the needs of students new to Bataille's work while at the same time drawing on the latest research on Bataille to offer new interpretations of Bataille's oeuvre for more experienced readers. This is the first clear introductory reading of Bataille in English, challenging current reductive readings and stressing the range of disciplines affected by Bataille's work at a time when interest in Bataille is growing.

Ricoeur and Lacan Karl Simms, 2007-06-01 This is the first comparative study of the work of the philosopher Paul Ricoeur and the psychoanalyst Jacques Lacan. The book explores the conflict between the two thinkers that arose from their differing views of ethics. Ricoeur's universalist stance drew on a phenomenological reading of Kant, whereas Lacan's was a relativist position derived from a psychoanalytic reading of Freud and de Sade. Ricoeur and Lacan gives a full critical overview of the work of both figures, tracing the origins and development of their principal ideas and identifying key similarities and differences. Not only a valuable and original addition to the literature on two major thinkers, Ricoeur and Lacan, it is also an important study of contemporary Continental ethics.

Torture Porn in the Wake of 9/11 Aaron

Kerner,2015-04-24 Saw Hostel The Devil s Rejects this wave of horror movies has been classed under the disparaging label torture porn Since David Edelstein coined the term for a New York magazine article a few years after 9 11 many critics have speculated that these movies simply reflect iconic images anxieties and sadistic fantasies that have emerged from the War on Terror In this timely new study Aaron Kerner challenges that interpretation arguing that torture porn must be understood in a much broader context as part of a phenomenon that spans multiple media genres and is rooted in a long tradition of American violence Torture Porn in the Wake of 9 11 tackles a series of tough philosophical historical and aesthetic questions What does it mean to call a film sadistic and how has this term been used to shut down critical debate In what sense does torture porn respond to current events and in what ways does it draw from much older tropes How has torture porn been influenced by earlier horror film cycles from slasher movies to J horror And in what ways has the torture porn aesthetic gone mainstream popping up in everything from the television thriller Dexter to the reality show Hell s Kitchen Reflecting a deep knowledge and appreciation for the genre Torture Porn in the Wake of 9 11 is sure to resonate with horror fans Yet Kerner s arguments should also strike a chord in anyone with an interest in the history of American violence and its current and future ramifications for the War on Terror

The Lives of Michel Foucault David Macey,2019-01-29 The classic biography of the radical French philosopher with a new afterword by acclaimed Foucault scholar Stuart Elden When he died of an AIDS related condition in 1984 Michel Foucault had become the most influential French philosopher since the end of World War II His powerful studies of the creation of modern medicine prisons psychiatry and other methods of classification have had a lasting impact on philosophers historians critics and novelists the world over But as public as he was in his militant campaigns on behalf of prisoners dissidents and homosexuals he shrouded his personal life in mystery In The Lives of Michel Foucault written with the full cooperation of Daniel Defert Foucault s former lover David Macey gives the richest account to date of Foucault s life and work informed as it is by the complex issues arising from his writings In this new edition Foucault scholar Stuart Elden has contributed a new afterword assessing the contribution of the biography in the light of more recent literature

Klossowski's Semiotic of Intensity Conor Husbands,2020-03-23 Despite the increasing prominence of Klossowski s philosophical work there exists no full length or sustained treatment of his writings on Nietzsche This study analyses Klossowski s semiotic of intensity as a conceptual foundation for his philosophy and interpretation of Nietzsche grounded in the central principles of his theory of signs It then explores its implications for the categories of chance causality individuation and time drawing a series of parallels between Klossowski s texts and the work of other scholars such as McTaggart Eco D Z Albert M Silverstein Meillassoux N Land and J Stambaugh Throughout this work lends accessibility to Klossowski s often opaque and idiosyncratic style It should be relevant to anyone interested in Klossowski s philosophical work in contemporary Nietzsche scholarship or in the 20th Century linguistic and existential Continental tradition

Sexual Myths of Modernity Alison M. Moore,2015-11-19 The notion of sexual sadism emerged from nineteenth century

alienist attempts to imagine the pleasure of the torturer or mass killer This was a time in which sexuality was mapped to social progress so that perversions were always related either to degeneration or decadence These ideas were internalized in later Freudian views of the drives within the self and of their repression under the demands of modern European civilization Sadism was always presented as the barbarous past that lurked within each of us ready to burst forth into murderous violence crime anti-Semitism and finally genocide This idea maintained its currency in European thought after the Second World War as Freudian influenced accounts of the history of philosophy configured the Marquis de Sade as a kind of Kantian superego in a framework that viewed the Western Enlightenment as unraveled by its own inner demons In this way a straight line was imagined from the late eighteenth century to the Holocaust These ideas have had an ongoing legacy in debates about sexual perversion feminism genocide representation and historical memory of Nazism However recent genocide research has massively debunked assumptions that perpetrators of mass violence are especially sexually motivated in their cruelty This book considers how the late twentieth century imagination eroticized Nazism for its own ends but also how it has been informed by nineteenth century formulations of the idea of mass violence as a sexual problem **Beyond Explicit**

Helen Hester, 2014-01-23 This original contribution to porn studies aims to interrogate previously untheorized changes in contemporary understandings of the pornographic Helen Hester argues that the words porn and pornographic are currently being applied to an ever expanding range of material and that this change in language usage reflects a wider shift in perception She suggests that we are witnessing a seemingly paradoxical move away from sex within contemporary understandings of porn as a range of other factors come to influence the concept Using examples from media literature and culture and discussing the rise of notions such as torture porn and misery porn Hester's argument ranges from sexually explicit German novels and British policy documents to a discussion of the differences between European and American editions of pornographic films She concludes that four factors in particular transgression intensity prurience and authenticity can be seen to influence the way that we think about porn *Georges Bataille* Paul Hegarty, 2000-08-18 Long recognized in France as a central figure in French cultural thought the range and significance of Bataille's ideas are now being grasped in the English speaking world His influence on Derrida Foucault Kristeva and Baudrillard is now more clearly understood and Bataille has emerged as a front rank cultural theorist who posed questions and paradoxes that were extraordinarily prescient This book offers a comprehensive and detailed presentation and analysis of the full range of his writings political philosophical aesthetic literary anthropological and cultural And tackles his thoughts on waste sacrifice death eroticism surplus ecstasy and drunkenness offering the best available guide to this challenging and utterly unique thinker
