Samartha Theory Of Panini And Sentence Division

Mahavir

Samartha Theory Of Panini And Sentence Division:

Samartha Theory of Pāṇini and Sentence Derivation Mahavir, 1984 Description Panini's Astadhyayi is a compendium of linguistic theories Panini bases his grammatical description of the language on certain concepts underlying his sutras but for which he could not have exhausted the description of the Bhasa Here is the theory of Samartha pervading the whole grammar of Panini The author brings out the original import of Samartha and explains the theory as a unique type of linguistic concept thoroughly useful not only for ancient Indian grammarians but also for modern linguists The author has pioneered in demonstrating the genuine derivational process defying the traditional texts in form of commentaries and the present pedagogy prevailing in the universities etc The author proves with internal evidences of implications and application of the sutras that Panini's Astadhyayi is basically meant for the derivation of the sentences word derivation being only an intermediary step The author incidentally brings out the language theory of Panini which is found as an integrated system and not a piecemeal one The book reserves for itself the credit to reveal the real stand of Panini as grammarian and linguist The work is altogether unique and thought provoking which will be found to open a new dimension and to provide the lead to the modern mind with respect to the studies in Panini in the East and the West **Computer Processing of Sanskrit**

Nominal Inflections Subhash Chandra, Girish Nath Jha, 2011-01-18 Computer Processing of Sanskrit Nominal Inflections Methods and Implementation is the result of Research and Development R D at the Master of Philosophy MPhil level at Jawaharlal Nehru University New Delhi India The title of the dissertation was Machine Recognition and Morphological Analysis of Subanta Padas The work which is based on the reverse engineering implementation of Panini's Sanskrit Grammar brings together new and original studies in the area of computational linguistics language technology and natural language processing with reference to parsing Sanskrit nominal inflections On the surface level Panini has defined rules in a forward looking generative fashion which makes reverse analysis necessary for parsing Since parsing inflections is the first basic step towards complete analysis the present work has relevance for any larger system that may evolve in future The British Library General Catalogue of Printed Books, 1986 to 1987 British Library, 1988 **Indian Books in Print**, 2002
